THE UNITED STATES, 1900–1920

JOHN MILTON COOPER, Jr.

# Pivotal Decades The United States 1900 1920

**Justus D. Doenecke**

## **Pivotal Decades The United States 1900 1920:**

Pivotal Decades John Cooper,1990-08-07 Contemporary American began in the first two decades of this century These were the years in which two of our greatest presidents Theodore Roosevelt and Woodrow Wilson transformed the office into the center of power in which the United States entered the world stage and fought its first overseas war in which the government's proper role in the economy became a public question and in which reform became an imperative for muckraking reporters progressive politicians social activists and writers It was a golden age in American politics when fundamental ideas were given compelling expression by thoughtful candidates It was a trying time however for many Americans including women who fought for the vote blacks who began organizing to secure their rights and activists on the Left who lost theirs in the first Red Scare of the century John Cooper's panoramic history of this period shows us where we came from and sheds light on where we are Pivotal Decades John Milton Cooper,1990

**Anxious Decades: America in Prosperity and Depression, 1920-1941** Michael E. Parrish,1994-04-17 Impressively detailed An authoritative and epic overview Publishers Weekly In the convulsive years between 1920 and 1941 Americans were first dazzled by unprecedented economic prosperity and then beset by the worst depression in their history It was the era of Model T's rising incomes scientific management electricity talking movies and advertising techniques that sold a seemingly endless stream of goods But it was also a time of grave social conflict and human suffering The Crash forced Hoover and then Roosevelt and the nation to reexamine old solutions and address pressing questions of recovery and reform economic growth and social justice The world beyond America changed also in these years making the country rethink its relation to events in Europe Latin America and Asia The illusion of superiority slowly died in the 1930s sustaining a fatal blow in December 1941 at Pearl Harbor

**America in the 1900s** Marlene Targ Brill,2010-01-01 Outlines the important social political economic cultural and technological events that happened in the United States from 1900 to 1909 *Bullets That Changed America* Peter Zablocki,2022-06-15 One gunshot by a single person could be powerful enough to move a whole nation Well known are the assassinations of Abraham Lincoln John F Kennedy William McKinley and Martin Luther King Jr and their long lasting consequences History however is littered with lesser known gunshots that have had equally echoing outcomes Some were small mistakes or misjudgments others intentional acts that sparked events documented in our history textbooks A single bullet serves as the catalyst for each of the stories in this book We may or may not know who fired it but we know each bullet's end point and the effects it had on America's trajectory the wars social movements and political and economic paradigm shifts The names of those involved may not to many be recognizable but the events their acts precipitated are etched in American history America's West David M. Wrobel,2017-10-12 This book examines the regional history of the American West in relation to the rest of the United States emphasizing cultural and political history **America in the Progressive Era, 1890-1914** Lewis L. Gould,2014-05-12 America in the Progressive Era 1890 1914 provides a readable analytical

narrative of the emergence influence and decline of the spirit of progressive reform that animated American politics and culture around the turn of the twentieth century Covering the turbulent 1890s and the era of Theodore Roosevelt and Woodrow Wilson the book covers the main political and policy events of a period which set the agenda for American public life during the remainder of the twentieth century Key features include A clear account of the continuing debate in the United States over the role of government and the pursuit of social justice A full examination of the impact of reform on women and minorities A rich selection of documents that allow the historical actors to communicate directly to today s reader An extensive Bibliography providing a valuable guide to additional reading and further research Based on the most recent scholarship and written to be read by students America in the Progressive Era makes this turbulent period come alive

Nothing Less Than War Justus D. Doenecke, 2011-04-22 When war broke out in Europe in 1914 political leaders in the United States were swayed by popular opinion to remain neutral yet less than three years later the nation declared war on Germany In *Nothing Less Than War: A New History of America's Entry into World War I* Justus D Doenecke examines the clash of opinions over the war during this transformative period and offers a fresh perspective on America's decision to enter World War I Doenecke reappraises the public and private diplomacy of President Woodrow Wilson and his closest advisors and explores in great depth the response of Congress to the war He also investigates the debates that raged in the popular media and among citizen groups that sprang up across the country as the U S economy was threatened by European blockades and as Americans died on ships sunk by German U boats The decision to engage in battle ultimately belonged to Wilson but as Doenecke demonstrates Wilson's choice was not made in isolation *Nothing Less Than War* provides a comprehensive examination of America's internal political climate and its changing international role during the seminal period of 1914-1917

*Daily Life in the Progressive Era* Steven L. Piott, 2011-08-03 This book provides a historical examination of everyday life to reveal how and why Americans during the Progressive Era structured their world and made their lives meaningful The Progressive Era represented a tumultuous time for Americans as they attempted to come to terms with a rapidly emerging modern urban and industrial society and ultimately the dislocations caused by World War I Steven L Piott's *Daily Life in the Progressive Era* tells the story of how all Americans black and white women and men rural inhabitants and urban residents workers and employers consumers and producers contended with new cultural attitudes persistent racial and class tensions and the power struggles of evolving classes This book provides a broad examination of American society between 1900 and 1920 Organized thematically it covers rural and urban America the changing nature of work race relations popular culture citizen activism and society during wartime Appropriate for general readers as well as students of history *Daily Life in the Progressive Era* provides an informed and compelling narrative history and analysis of daily life within the context of broad historical patterns

**Racing for America** James C. Nicholson, 2021-04-06 On October 20 1923 at Belmont Park in New York Kentucky Derby champion Zev toed the starting line alongside Epsom Derby winner

Papyrus the top colt from England to compete for a 100 000 purse Years of Progressive reform efforts had nearly eliminated horse racing in the United States only a decade earlier But for weeks leading up to the match race that would be officially dubbed the International unprecedented levels of newspaper coverage helped accelerate American horse racing's return from the brink of extinction In this book James C Nicholson explores the convergent professional lives of the major players involved in the Horse Race of the Century including Zev's oil tycoon owner Harry Sinclair and exposes the central role of politics money and ballyhoo in the Jazz Age resurgence of the sport of kings Zev was an apt national mascot in an era marked by a humming industrial economy great coziness between government and business interests and reliance on national mythology as a bulwark against what seemed to be rapid social cultural and economic changes Reflecting some of the contradiction and incongruity of the Roaring Twenties Americans rallied around the horse that was in the words of his owner racing for America even as that owner was reported to have been engaged in a scheme to defraud the United States of millions of barrels of publicly owned oil Racing for America provides a parabolic account of a nation struggling to reconcile its traditional values with the complexity of a new era in which the US had become a global superpower trending toward oligarchy and the world's greatest consumer of commercialized spectacle

**Sculpting Doughboys** Jennifer Wingate, 2017-07-05 Redressing the neglect of World War I memorials in art history scholarship and memory studies Sculpting Doughboys considers the hundreds of sculptures of American soldiers that dominated the nation's sculptural commemorative landscape after World War I To better understand these doughboys the name given to both members of the American Expeditionary Forces and the memorials erected in their image this volume also considers their sculptural alternatives including depictions of motherhood nude male allegories and expressions of anti militarism It addresses why doughboy sculptures came to occupy such a significant presence in interwar commemoration even though art critics objected to their unrefined realism by considering the social upheavals of the Red Scare America's burgeoning consumer and popular culture and the ambitions and idiosyncrasies of artists and communities across the country In doing so this study also highlights the social and cultural tensions of the period as debates grew over art's changing role in society and as more women and immigrant sculptors vied for a place and a voice in America's public sphere Finally Sculpting Doughboys addresses the fate of these memorials nearly a century after they were dedicated and poses questions for reframing our relationship with war memorials today

*Key Concepts in Energy* Nuno Luis Madureira, 2014-07-08 Organized around eight fundamental ideas Key concepts in energy history explores the discoveries technologies and new paradigms in the field of energy and how they have changed the course of history Complex technical concepts such as the rebound effect technological hybridization marginal cost pricing are explained in clear terms and a balanced and concise account of the energy sources in the XIX and XX century such as wood coal oil hydroelectricity and nuclear energy is provided Key concepts in energy considers the process of energy substitutions and analyzes it as a process of complementary usages hybridization and

technological mixes The ex post view tends to focus on replacement from among alternative energy technologies and is basically innovation centric This means that little attention has been given to factors such as the windows of opportunities created by governments inventors and entrepreneurs This book highlights how key energy concepts surfaced tracing their evolution throughout history It encompasses four economic concepts rebound effect energy intensity marginal cost pricing and levelized cost accounting and four technological engineering concepts primary final energy technological hybridization last gasp and probable oil reserves The main benefit from reading the book is a cross disciplinary overview of energy fundamentals in a short and focused reading The Human Tradition in the Gilded Age and Progressive Era Ballard C.

Campbell,2000 The period between 1870 and 1920 was one of the most dynamic in American history This era witnessed the invention of the automobile the establishment of women s suffrage and the opening of the Panama Canal While a time of great advancement the Gilded Age and Progressive Era were also periods of uncertainty as Americans coped with corrupt politicians unchecked big business and a vast influx of immigrants SR Books offers a new approach to this time period in its book *The Human Tradition in the Gilded Age and Progressive Era* This volume looks at the experiences of 13 people who contributed to the shaping of American culture and thought during this period These concise accounts are written by leading historians and give students an intimate view of history This is an excellent text for courses in American studies *Profiting from the Plains* Claire M. Strom,2011-10-17 *Profiting from the Plains* looks at two inextricably linked historical movements in the United States the westward expansion of the great Northern Railway and the agricultural development of the northern plains Claire Strom explores the persistent idiosyncratic attempts by the Great Northern to boost agricultural production along its rail routes from St Paul to Seattle between 1878 and 1917 Lacking a federal land grant the Great Northern could not make money through land sales like other railways It had to rely on haulage to make a profit and the greatest potential for increasing haulage lay in farming The energetic and charismatic owner of the Great Northern Railway James J Hill spearheaded most of the initiatives undertaken by his corporation to boost agricultural production He tried often unsuccessfully to persuade farmers of the profitability of his methods which were largely based on his personal farming experience When Hill s initial efforts to increase haulage failed he shifted his focus to working with outside agencies and institutions often providing them with the funding to pursue projects he hoped would profit his railroad At the time state and federal agencies were also promoting agricultural development through irrigation conservation and dryland farming but their agendas often clashed with those of the Great Northern Railway Because Hill failed to grasp the extent to which politicians goals differed from those of the railroad his use of federal expertise to promote agricultural change often backfired But despite these obstacles the railroad magnate ironically remained among the last defenders of the small scale farmer modeled on Jeffersonian idealism This fascinating story of railroad politics and development ties into themes of corporate and federal sponsorship which are increasingly recognized as fundamental to western history As the first scholarly examination of James

J Hill s agricultural enterprises Profiting from the Plains makes an important contribution to the biography of the popular and controversial Hill as well as to western and environmental history *The A to Z of the Progressive Era* Catherine Cocks, Peter C. Holloran, Alan Lessoff, 2009-09-24 The Progressive Era the period in the United States between 1898 and 1917 was a time of great social political and industrial change Following the Spanish American War of 1898 an event that signaled the emergence of the United States as a great power the country soon was involved in its first overseas guerrilla war in the Philippines Vast changes in communications and transportation immigration and migration patterns social mores gender roles family structure class structure work patterns business methods education intellectual life religion the professions technology science medicine and much else were transforming the scope and feel of people s lives and relationships In many ways what happened in this era set the agenda for the rest of the 20th century The A to Z of the Progressive Era is the most comprehensive and coherent reference work on the Progressive Era Through its chronology introductory essay bibliography appendixes and hundreds of cross referenced dictionary entries on the key events people organizations and ideas of the period this resource is a lively complete and accessible overview of this significant era [Historical Dictionary of the Progressive Era](#) Catherine Cocks, Peter C. Holloran, Alan Lessoff, 2009-03-13 The Progressive Era the period in the United States between 1898 and 1917 was a time of great social political and industrial change Following the Spanish American War of 1898 an event that signaled the emergence of the United States as a great power the country soon was involved in its first overseas guerrilla war in the Philippines Vast changes in communications and transportation immigration and migration patterns social mores gender roles family structure class structure work patterns business methods education intellectual life religion the professions technology science medicine and much else were transforming the scope and feel of people s lives and relationships In many ways what happened in this era set the agenda for the rest of the 20th century The Historical Dictionary of the Progressive Era is the most comprehensive and coherent reference work on the Progressive Era Through its chronology introductory essay bibliography appendixes and hundreds of cross referenced dictionary entries on the key events people organizations and ideas of the period this resource is a lively complete and accessible overview of this significant era

[Women and the Republican Party, 1854-1924](#) Melanie Gustafson, 2001-10-15 Acclaimed as groundbreaking since its publication *Women and the Republican Party 1854 1924* explores the forces that propelled women to partisan activism in an era of widespread disfranchisement and provides a new perspective on how women fashioned their political strategies and identities before and after 1920 Melanie Susan Gustafson examines women s partisan history against the backdrop of women s political culture Contesting the accepted notion that women were uninvolved in political parties before gaining the vote Gustafson reveals the length and depth of women s partisan activism between the founding of the Republican Party whose abolitionist agenda captured the loyalty of many women and the passage of the Nineteenth Amendment Her account also looks at the complex interplay of partisan and nonpartisan activity the fierce debates among women about how to best use

their influence the ebb and flow of enthusiasm for women's participation and the third parties that fused the civic world of reform organizations with the electoral world of voting and legislation      **The Land of Too Much** Monica

Prasad, 2012-12-31 Monica Prasad's powerful demand side hypothesis addresses three questions Why does the United States have more poverty than any other developed country Why did it experience an attack on state intervention in the 1980s known today as the neoliberal revolution And why did it recently suffer the greatest economic meltdown in seventy five years

**Torchbearers of Democracy** Chad Louis Williams, 2010 In this important sophisticated and original study Chad Williams establishes the centrality of black soldiers and veterans to the struggles against racial inequality during World War I as no other book does Torchbearers of Democracy sensitively examines the fraught connections between citizenship obligation and race while highlighting the diversity of black soldiers' experiences in fighting on behalf of a democracy that denied them rights and dignity This is a major contribution to political military and civil rights history Eric Arnesen George Washington University      **Encyclopedia of U.S. Political History** Andrew Whitmore Robertson, 2010 Annotation st1

behavior url ieouui Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader's understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader's guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors VOLUME 1 Colonial Beginnings through Revolution 1500-1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence VOLUME 2 The Early Republic 1784-1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to

the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system

## Unveiling the Energy of Verbal Beauty: An Psychological Sojourn through **Pivotal Decades The United States 1900 1920**

In a world inundated with monitors and the cacophony of instantaneous connection, the profound energy and psychological resonance of verbal artistry often fade into obscurity, eclipsed by the constant onslaught of noise and distractions.
