REFLECTIONS ON THE SALT MARSH

Place Between The Tides A Naturalists Reflections On The Salt Marsh

Rose Arny

Place Between The Tides A Naturalists Reflections On The Salt Marsh:

A Place between the Tides Harry Thurston, 2004 *A Place Between the Tides* is an evocative mix of scientific observation and personal memories that captures the tremendous vitality and vulnerability of marshlands For every nature writer there seems to be one special place that demonstrates the ways of the natural world and its relationship with humans For Thoreau it was a pond for Annie Dillard a creek for author Harry Thurston it is the salt marsh where land meets sea one of the most biologically diverse habitats on Earth but one that is increasingly threatened This is the story of Thurston s return to the beloved environment of his boyhood Elegantly moving back and forth in time and deftly interweaving a naturalist s observations with a personal journey he describes the seasons of the marsh over two decades Altogether Thurston documents more than 100 species of fish birds and mammals a myriad of creatures hiding in tidal pools and 70 species of plants

Canadian Wetlands Rod Giblett, 2014-12-15 In *Canadian Wetlands* Rod Giblett reads the Canadian canon against the grain critiquing its popular representation of wetlands and proposing alternatives by highlighting the work of recent and contemporary Canadian authors such as Douglas Lochhead and Harry Thurston and by entering into dialogue with American writers The book will engender mutual respect between researchers for the contribution that different disciplinary approaches can and do make to the study and conservation of wetlands internationally *Against the Tides* Ronald Rudin, 2021-11-15 For four centuries dykes held back the largest tides in the world in the Bay of Fundy region of New Brunswick and Nova Scotia These dykes turned salt marsh into arable land and made farming possible but by the 1940s they had fallen into disrepair *Against the Tides* is the never before told story of the Maritime Marshland Rehabilitation Administration MMRA a federal agency created in 1948 to reshape the landscape Although agency engineers often borrowed from long standing dykeland practices they were so convinced of their own expertise that they sometimes disregarded local conditions marginalizing farmers in the process The engineers hubris resulted in tidal dams that compromised some of the region s rivers leaving behind environmental damage This book is a vivid richly detailed account of a distinctive landscape and its occupants revealing the push pull of local and expert knowledge and the role of the state in the postwar era

Wetland Cultures Rod Giblett, 2024-06-21 Traditional cultures have a long and vital association with wetlands as sacred places imbued with spiritual and ceremonial significance that provide physical sustenance and sources of materials in paludiculture Ancient Greek and Roman cultures denigrated wetlands as places of disease terror horror the hellish and the monstrous Judeo Christian theology was syncretized with them into the mainstream denigration of wetlands Wetlands are a marginalized community an oppressed minority and non binary queer bodies of water *Canadian Books in Print. Author and Title Index* , 1975 *New Lives of the Saints* Rod Giblett, 2019-11-13 Presented here for the first time and for meditation and emulation are the words and work of many environmental apostles The words and work of each apostle are designed to delight and inspire the reader to begin or continue to lead a life of environmental action for conservation and contemplation

of nature for spiritual succor in the age of climate change All the usual suspects are here such as St Francis Rachel Carson Aldo Leopold John Muir Henry David Thoreau and Judith Wright but *New Lives of the Saints* emphasizes some aspects of their words and work often ignored or overlooked such as Thoreau on swamps and Leopold on marshes Also included are some unusual and unexpected environmental apostles such as Walter Benjamin Raymond Williams Seamus Heaney and Paul Virilio all of whom contributed to green thinking as this book shows Other environmentally apostolic writers such as Walt Whitman Sidney Lanier Lord Dunsany H P Lovecraft Felix Guattari and Kelly Barnhill are also discussed Beginning with two environmentally and animal friendly retellings of the legends of St George and St Margaret involving dragons the book goes on to devote a chapter each to ten other environmental apostles as patron saints of a special type of environment or of an approach to environmental conservation and contemplation These saints sing the song of the earth including its swamps marshes bogs fens national parks mountains forests oceans seas airs rivers reefs trees cities peoples places plants animals and so on They provide nurture for living a life of hope and symbiotic livelihood living sacrally with the earth *New Lives of the Saints* crosses the great divide between fiction and non fiction and mixes the genres of story and essay It is a ground breaking work of environmental counter theology for the symbiocene the hoped for age superseding the Anthropocene

Moondoggle Mark C. Borton, 2023-04-15 This book is a dramatic tale about the appeal of tidal power the difficulties in realizing its potential and the engineers and U S presidents who tried to make clean and renewable tidal power a reality
