**The Little Demon: A Russian Novel** Fyodor Sologub, 1976-01-01 After Mass the members of the congregation scattered to their homes A few stopped to talk under the old maples and lindens near the white stone walls within the enclosure All were in holiday dress and looked at one another cheerily It appeared as if the inhabitants of this town lived peacefully and amicably even happily But it was only in appearance Peredonov a schoolmaster in the gymnasium stood among his friends and as he looked at them gravely out of his small stealthy eyes across the golden rims of his spectacles he remarked Princess Volchanskaya herself made the promise to Vara As soon she said as you marry him I ll hunt up an inspector s job for him But how can you think of marrying Varvara Dmitrievna asked the red faced Falastov She s your first cousin Everyone laughed Peredonov s usually rosy unconcerned somnolent face showed anger Second cousin he said gruffly as he looked angrily past his companions Did the Princess give you the promise herself asked Rutilov a tall pale smartly dressed man She didn t give it to me but to Vara answered Peredonov Of course you are ready to believe all she tells you said Rutilov with animation It s easy enough to make up a tale Why didn t you see the Princess herself This is how it was I went with Vara but we didn t find her in missed her by just five minutes explained Peredonov She had gone to the country and wouldn t be back for three weeks or so I couldn t wait for her because I had to be back here for the exams It sounds suspicious laughed Rutilov showing his yellow teeth Peredonov grew thoughtful His companions left him Rutilov alone remained Of course said Peredonov I can marry whom I like Varvara is not the only one You re quite right Ardalyon Borisitch anyone would be glad to marry you Rutilov encouraged him They passed out of the gate and walked slowly in the unpaved and dusty square Peredonov said But what

about the Princess She'll be angry if I chuck Varvara What's the Princess to you said Routilov You're not going with her to a kitten's christening She ought to get you the billet first There'll be time enough to tie yourself up you're taking things too much on trust That's true agreed Peredonov irresolutely You ought to say to Varvara said Routilov persuasively First the billet my dear girl then I'll believe you Once you get your place you can marry whom you like You'd better take one of my sisters your choice of the three Smart educated young ladies any one of them I can say without flattery a queen to Varvara She's not fit to tie their shoe strings Go on shouted Peredonov It's true What's your Varvara Here smell this Routilov bent down broke off a fleecy stalk of henbane crumpled it up in his hand together with the leaves and dirty white flowers and crushing it all between his fingers put it under Peredonov's nose The heavy unpleasant odour made Peredonov frown Routilov observed To crush like this and to throw away there's your Varvara for you there's a big difference between her and my sisters let me tell you my good fellow They are fine lively girls take the one you like but you needn't be afraid of getting bored with any of them They're quite young too the eldest is three times younger than your Varvara Routilov said all this in his usual brisk and happy manner smiling but he was tall and narrow chested and seemed consumptive and frail while from under his new and fashionable hat his scant close trimmed bright hair stuck out pitifully No less than three times observed Peredonov dryly as he took off his spectacles and began to wipe them It's true enough exclaimed Routilov But you'd better look out and don't be slow about it while I'm alive they too have a good opinion of themselves if you try later you may be too late Any one of them would have you with great pleasure

*Bedeviled* Jimena Canales, 2022-08-09 How scientists through the ages have conducted thought experiments using imaginary entities demons to test the laws of nature and push the frontiers of what is possible Science may be known for banishing the demons of superstition from the modern world Yet just as the demon haunted world was being exorcized by the enlightening power of reason a new kind of demon mischievously materialized in the scientific imagination itself Scientists began to employ hypothetical beings to perform certain roles in thought experiments experiments that can only be done in the imagination and these impish assistants helped scientists achieve major breakthroughs that pushed forward the frontiers of science and technology Spanning four centuries of discovery from Ren Descartes whose demon could hijack sensorial reality to James Clerk Maxwell whose molecular sized demon deftly broke the second law of thermodynamics to Darwin Einstein Feynman and beyond Jimena Canales tells a shadow history of science and the demons that bedevil it She reveals how the greatest scientific thinkers used demons to explore problems test the limits of what is possible and better understand nature Their imaginary familiars helped unlock the secrets of entropy heredity relativity quantum mechanics and other scientific wonders and continue to inspire breakthroughs in the realms of computer science artificial intelligence and economics today The world may no longer be haunted as it once was but the demons of the scientific imagination are alive and well continuing to play a vital role in scientists efforts to explore the unknown and make the impossible real
