Place Of Narrative Mural Decoration In Italian Churches 431 16:

The Place of Narrative Marilyn Aronberg Lavin, 1990-12-15 Looking at more than two hundred Italian medieval and Renaissance mural cycles Lavin examines with the aid of computer technology the rearranged chronologies of familiar religious stories found therein Like many masterpieces Lavin's book builds upon a simple idea it is possible to do a computer analysis of visual narratives This is the first computer based study of the visual arts of which I am aware that illustrates how those technologies can utterly transform the study of old master art An extremely important book one likely to become the most influential recent study of art of this period *The Place of Narrative* is also a beautiful artifact David Carrier Leonardo Covering over a millennium and dealing with the whole of Italy Lavin makes pioneering use of new methodology employing a computer database and novel terminology to describe the disposition of scenes of church and chapel walls We should recognize this as a book of high seriousness which reaches out into new areas and which will fruitfully stimulate much thought on a neglected subject of very considerable significance Julian Gardner Burlington Magazine

modern art Contact and interchange between primarily the Latin Greek and Slavic cultural spheres resulted in local assimilations of select elements that reshaped the artistic landscapes of regions of the Balkan Peninsula the Carpathian Mountains and further north The specificities of each region and in modern times politics and nationalistic approaches have reinforced the tendency to treat them separately preventing scholars from questioning whether the visual output could be considered as an expression of a shared history The comparative and interdisciplinary framework of this volume provides a holistic view of the visual culture of these regions by addressing issues of transmission and appropriation as well as notions of cross cultural contact while putting on the global map of art history the eclectic artistic production of Eastern Europe

Images and Objects in Ritual Practices in Medieval and Early Modern Northern and Central Europe Krista Kodres, Anu Mänd, 2014-07-18 This multidisciplinary collection of essays explores the functions meanings and use of images and objects in various late Medieval and Early Modern social practices which were linked by their ritual character The book approaches ritual as an action which is discussed under the general umbrella term performative practice and is characterised by a synthesis between the repetitive and the extraordinary that carries an intense symbolic meaning and is emotionally charged Images spaces and rituals were closely interconnected in both the religious and the secular spheres and played a relevant role in the symbolic communication of the time The essays in this volume are devoted to a complex study of these phenomena in Northern and Central Europe including regions which due to linguistic or cultural barriers have thus far received comparatively little attention in Anglo American scholarship including Scandinavia Poland and the Baltic states

Cyclic Form and the English Mystery Plays Peter Happé, 2016-08-09 Cyclic Form and the English Mystery Plays is centred upon the five extant English mystery cycles with a view to examining the cyclic form they share It is based upon consideration of the differences between the texts and upon the underlying assumptions governing this dramatic form The cycles are extensively compared with practices in the cyclic dramas of France the German speaking areas Italy the Netherlands and Spain in the late middle ages and the early modern period There is also a unique and innovative bridging with iconographical material from a range of artistic modes giving further insight into the structure and organisation of cyclic form Cyclic Form and the English Mystery Plays should be of interest to undergraduate students and to more experienced researchers in the early drama and the study of visual images and artefacts

the furthest reaches of the globe How did women situate themselves in the early modern world and how did they move through it in both real and imaginary locations How do new disciplinary and geographic connections shape the ways we think about the early modern world and the role of women and men in it These are the questions that guide this volume which includes articles by a select group of scholars from many disciplines Art History Comparative Literature English German History Landscape Architecture Music and Women s Studies Each essay reaches across fields and several are written by interdisciplinary groups of authors The essays also focus on many different places including Rome Amsterdam London and Paris and on texts and images that crossed the Atlantic and the Mediterranean or that portrayed real and imagined people who did Many essays investigate topics key to the spatial turn in various disciplines such as borders and their permeability actual and metaphorical spatial crossings travel and displacement and the built environment

Beholding Violence in Medieval and Early Modern Europe Allie Terry-Fritsch, 2017-07-05 Interested in the ways in which medieval and early modern communities have acted as participants observers and interpreters of events and how they ascribed meaning to them the essays in this interdisciplinary collection explore the concept of beholding and the experiences of individual and collective beholders of violence during the period Addressing a range of medieval and early modern art forms including visual images material objects literary texts and performances the contributors examine the complexities of viewing and the production of knowledge within cultural political and theological contexts In considering new methods to examine the process of beholding violence and the beholder s perspective this volume addresses such questions as How does the process of beholding function in different aesthetic conditions Can we speak of such a thing as the period eye or an acculturated gaze of the viewer If so does this particularize the gaze or does it risk universalizing perception How do violence and pleasure intersect within the visual and literary arts How can an understanding of violence in cultural representation serve as means of knowing the past and as means of understanding and potentially altering the present

Images of Adventure James A. Rushing, Jr., 2016-11-11 Modern audiences are most likely to encounter Yvain and other Arthurian characters in literature We read Chr tien de Troyes s Yvain or Hartmann von Aue s Iwein and easily slip into the assumption that during the Middle Ages the title character existed primarily or even exclusively in these canonical texts James A Rushing Jr contends however that many times the number of people who heard or read Chr tien or Hartmann must have known the Ywain story through the varieties of second hand narration hearsay and conversation that we may call secondary orality And many other people would have known the story through its visual representations Exploring the complex relationships between literature and the visual arts in the Middle Ages Images of Adventure Yvain in the Visual Arts examines pictorial representations of the story of Yvain knight of the Round Table from the thirteenth through the fifteenth

centuries Of the images Rushing studies only those found in the manuscripts of Chr tien s Yvain are placed in any obvious relation with a written text and not even they can be construed as straightforward illustrations Images of Yvain are presented without any textual anchor in the thirteenth century wall paintings from Schmalkalden in eastern German and Rodenegg Castle in the South Tyrol on the rich embroidery sewn in the fourteenth century for the patrician Malterer family of Freiburg and in a group of English misericords that show Yvain caught in a moment of high adventure and perhaps comic embarrassment Pictures according to Pope Gregory the Great are the literature of the laity Navigating between the traditional disciplines of literary study and art history Images of Adventure offers at once a detailed catalog of Yvain images a series of close readings of works of art and a concrete sense of what Gregory s oft quoted statement may actually have meant in practice

Made in God's Image? Penny Howell Jolly,2023-12-22 The stunning mosaics that illustrate the story of Creation in the church of San Marco in Venice are the focus of Penny Howell Jolly s compelling and provocative book Scholars of medieval art have long been interested in the Genesis mosaics because they copy a nearly destroyed fifth century illuminated Greek manuscript known as the Cotton Genesis But instead of seeing the mosaics as a vehicle for reconstructing a lost cycle of paintings Jolly presents them as a social document revealing the essential misogyny that existed in thirteenth century Venice Jolly analyzes more than twenty scenes one by one in narrative order and her perceptive reading goes well beyond what the Genesis Vulgate text says about Eve and Adam The mosaics establish Eve as the culpable character from the very moment of her Creation says Jolly and depict her as dangerous and unrepentant at the end Incorporating both feminist religious and narratological studies Jolly poses important questions on the nature of visual language as opposed to verbal language The very ability of visual forms to recall a rich variety of references is one source of their power and propaganda must have enough breadth of reference to be read by diverse groups The San Marco cupola Jolly maintains is dealing in powerful propaganda and her pictorial observations offer an articulate and refreshing new view of this well known work The stunning mosaics that illustrate the story of Creation in the church of San Marco in Venice are the focus of Penny Howell Jolly s compelling and provocative book Scholars of medieval art have long been interested in the Genesis mosaics because they c

Art and the Relic Cult of St. Antoninus in Renaissance Florence SallyJ. Cornelison, 2017-07-05 Tracing the history of St Antoninus cult and burial from the time of his death in 1459 until his remains were moved to their final resting place in 1589 this interdisciplinary study demonstrates that the saint s relic cult was a key element of Florence s sacred cityscape The works of art created in his honor as well as the rituals practiced at his fifteenth and sixteenth century places of burial advertised Antoninus saintly power and persona to the people who depended upon his intercessory abilities to negotiate life s challenges Drawing on a rich variety of contemporary visual literary and archival sources this volume explores the ways in which shifting political familial and ecclesiastical aims and agendas shaped the ways in which St Antoninus holiness was broadcast to those who visited his burial church Author Sally Cornelison foregrounds the visual splendor of the St Antoninus Chapel which was designed built and decorated by Medici court artist Giambologna and his collaborators between 1579 and 1591 Her research sheds new light on the artist whose secular and mythological sculptures have received far more scholarly attention than his religious works Cornelison draws on social and religious history patronage and gender studies and art historical and anthropological inquiries into the functions and meanings of images relics and ritual performance to interpret how they activated St Antoninus burial sites and defined them in ways that held multivalent meanings for a broad audience of viewers and devotees Among the objects for which she provides visual and contextual analyses are a banner from the saint s first tomb early printed and painted images and the sculptures frescoes panel paintings and embroidered textiles made for the present St Antoninus Chapel
