[Sense of Place and Sense of Planet](#) Ursula K. Heise, 2008-09-29 Sense of Place and Sense of Planet analyzes the relationship between the imagination of the global and the ethical commitment to the local in environmentalist thought and writing from the 1960s to the present Part One critically examines the emphasis on local identities and communities in North American environmentalism by establishing conceptual connections between environmentalism and ecocriticism on one hand and theories of globalization transnationalism and

cosmopolitanism on the other It proposes the concept of eco cosmopolitanism as a shorthand for envisioning these connections and the cultural and aesthetic forms into which they translate Part Two focuses on conceptualizations of environmental danger and connects environmentalist and ecocritical thought with the interdisciplinary field of risk theory in the social sciences arguing that environmental justice theory and ecocriticism stand to benefit from closer consideration of the theories of cosmopolitanism that have arisen in this field from the analysis of transnational communities at risk Both parts of the book combine in depth theoretical discussion with detailed analyses of novels poems films computer software and installation artworks from the US and abroad that translate new connections between global national and local forms of awareness into innovative aesthetic forms combining allegory epic and views of the planet as a whole with modernist and postmodernist strategies of fragmentation montage collage and zooming Stories from the Night Land Revised William Hope Hodgson, W. S. Graham David Nowell Smith, 2022-05-05 On the peripheries of UK poetry culture during his lifetime W S Graham is now recognized one of the great poets of the twentieth century In the first concerted study of Graham s poetics in a generation David Nowell Smith argues that Graham is exemplary for the poetics of the mid century his extension of modernist explorations of rhythm and diction his interweaving of linguistic and geographic places his dialogue with the plastic arts and the tensions that run through his work between philosophical seriousness and play solitude and sociality regionalism and cosmopolitanism the heft and evanescence of poetry s medium Drawing on newly unearthed archival materials Nowell Smith orients Graham s poetics around the question of the art object Graham sought to craft his poems into honed finished objects yet he was also aware that the poem s finished object is never wholly finished Graham s work thus facilitates a broader reflection on language as a medium for art making Nice Place, Shame About the Human Race Allan Gilmour, 2012-10-23 He knew the earth experiment was still working even though the human element component was running very much behind schedule Tommy made a grumbling sound and slowly shook his furry head from side to side crying Wars greed jealousy illnesses unhappiness dissatisfaction obsessions for power Its just not what I had expected I know but give it time It will happen one day The earth assignment is not as old as all the other projects we have been working upon Eric hastily reassured Tommy was not about to give up on the present venture and with this thought in mind he stared with his numerous eyes into Eric s multiple eyes and with many worrisome looks he mumbled its a nice place shame about the human race The above is an extract taken from the final piece of my foreword for the book Nice place shame about the human race which attempts to create a better awareness of our everyday actions and elucidates the importance of discovering ones true identity for a better chance of living a happier more balanced life Mounting dissatisfactions and insecurities of our modern world together with the general inquisitiveness of human nature to wish observe ones actions are areas of modern life which have gained popularity over the last decade when searching for reasoning or answers to our everyday problems Commencing at the aftermath of World War II and continuing to the present day a journey is undertaken

in trying to illustrate modern western societys increased negative attitudes and behaviour and of the importance of discovering who we really are with a view to more personal happiness This book is an entertaining slightly ironical check in the mirror if you like of modern behaviour It observes how modern society has seemingly done away with aspiring to reach higher goals and standards and at the same time appears to have become content with mediocrity and of aiming towards lower levels of existence My main justifications for writing such a book were primarily based upon the search for answers as to why society in the modern western world has reached its present state of development in the constitution of which it finds itself in the present day if it is possible to live modern life in a more balanced friendlier frame of mind which would inexorably lead to more happiness and as an attempt to help you the reader into being more aware of our daily conscious and subconscious conduct towards fellow citizens and of the ensuing consequences of those actions We are to journey through the many different stages of modern western life as based upon our upbringing in an industrialised society and although you may have heard some of the themes and topics many times before I have attempted to pick out the quintessence of noting how individuals react within the confines of our various societies and communal boundaries What type of person is Nice place shame about the human race aimed for Well basically anybody who is still interested about the values of our modern society but specifically when amid the interference and confusion of modern society one is searching for personal direction into discovering oneself Emphasis has been placed upon the significance of living ones own individuality thus being aware of who one really is and of the importance of taking more self responsibility for ones actions Here is a short list of reasons compiled for those who would possibly find my work of interest 1 If feeling a little out of touch with our fast paced modern society 2 When interested in achieving more personal awareness in everyday activities 3 When concerned about societies present course of development 4 When trying to understand modern societies push and shove mentality 5 When searching for more in depth reasoning to our lives 6 W
