populated state Not surprising for a region that has existed under ten flags Louisiana's place names reflect a mixture of several languages and point to other locales across the country and around the world Even the state's name Leeper points out combines the French Louis and the Spanish iana meaning belonging to Louis XIV Name origins trace back to geography flora fauna religion weather people and occasionally a flood a favorite book or a popular local dish Leeper conducted numerous interviews visited courthouses museums and libraries and more recently made use of the Geographic Names Information System to create this fascinating collection of Louisiana history and folklore

The Origin of Certain Place Names in the United States Henry Gannett,1973 Spanish and Indian Place Names of California Nellie Van de Grift Sanchez,1914 **Aboriginal Place Names of New York** William Martin Beauchamp,1907 **Visual and Linguistic Representations of Places of Origin** Maria Pia Pozzato,2017-12-05 This book is about the representations both visual and linguistic which people give of their own places of origin It examines the drawings of interviewees who were asked to draw their own place of origin on a white A3 sheet using pencil or colour according to their choice If they were born in a place they did not remember because they moved in when they were very small they could draw the place they did remember as the scenario of their early childhood The drawings are examined from three different perspectives semiotics cognitive psychology and geography The semiotic instruments are used to describe how each person reconstructs a complex image of his/her childhood place and how they translate their own memories from one language to another e.g. from drawing to verbal story trying to approach what they want to express in the best possible way The cognitive psychological point of view helps clarify the emotional world of the interviewees and their motivations during the process of reconstruction and expression of their childhood experiences The geographical conceptualizations concern a cultural level and provide insight into the cartographic models that inspire the maps people drew One of the main findings was the influence from cultural codes as demonstrated in the fact that most of the US students interviewed drew their maps showing considerable cartographic expertise in comparison to their European counterparts International Encyclopedia of Human Geography ,2019-11-29 International Encyclopedia of Human Geography Second Edition Fourteen Volume Set embraces diversity by design and captures the ways in which humans share places and view differences based on gender race nationality location and other factors in other words the things that make people and places different Questions of for example politics economics race relations and migration are introduced and discussed through a geographical lens This updated edition will assist readers in their research by providing factual information historical perspectives theoretical approaches reviews of literature and provocative topical discussions that will stimulate creative thinking Presents the most up to date and comprehensive coverage on the topic of human geography Contains extensive scope and depth of coverage Emphasizes how geographers interact with understand and contribute to problem solving in the contemporary world Places an emphasis on how geography is relevant in a social and interdisciplinary context **British Place-names in Their Historical Setting** Edmund McClure,1910 Published

under the directions of the General Literature Committee *British place-names in their historical setting* E. McClure,

California Place Names of Indian Origin Alfred Louis Kroeber, Cornelius Beach Bradley, Edward Winslow Gifford, Samuel Alfred Barrett, Thomas Talbot Waterman, 1917 **The Overland Monthly**, 1904 **Language Policy and Nation-Building in Post-Apartheid South Africa** Jon Orman, 2008-08-27 The preamble to the post apartheid South African constitution states that South Africa belongs to all who live in it united in our diversity and promises to lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law and to improve the quality of life of all citizens This would seem to commit the South African government to amongst other things the implementation of policies aimed at fostering a common sense of South African national identity at societal development and at reducing of levels of social inequality However in the period of more than a decade that has now elapsed since the end of apartheid there has been widespread discontent with regard to the degree of progress made in connection with the realisation of these constitutional aspirations The limits to liberation in the post apartheid era has been a theme of much recent research in the fields of sociology and political theory e g Luckham 1998 Robins 2005a Linguists have also paid considerable attention to the South African situation with the realisation that many of the factors that have prevented and are continuing to prevent effective progress towards the achievement of these constitutional goals are linguistic in their origin *Overland Monthly*, 1904
