Places And Spaces:

The Places and Spaces of News Audiences Chris Peters, 2018-04-19 Historically or so we would like to believe the story of everyday life for many people included regular definitive moments of news consumption Journalism in fact was distributed around these routines papers were delivered before breakfast the evening news on TV buttressed the transition from dinner to prime time programming and radio updates were centred around commuting patterns These habits were organized not just around specific times but occurred in specific places following a predictable pattern However the past few decades have witnessed tremendous changes in the ways we can consume journalism and engage with information from tablets to smartphones online and so forth and the different places and moments of news consumption have multiplied as a result to the point where news is increasingly mobile and instantaneous It is personalized localized and available on demand Day by day month by month year by year technology moves forward impacting more than just the ways in which we get news These fundamental shifts change what news is This book expands our understanding of contemporary news audiences and explores how the different places and spaces of news consumption change both our experiences of journalism and the roles it plays in our everyday lives This book was originally published as a special issue of Journalism Studies Monstrous Geographies: Places and Spaces of the Monstrous Sarah Montin, Evelyn Tsitas, 2019-05-15 Preliminary Material Sarah Montin and Evelyn Tsitas The Only Thing to be Deplored is the Extraordinary Mortality Flinders Island and the Imagination of the British Empire Tom Lawson Zombies in the Colonies Imperialism and Contestation of Ethno Political Space in Max Brooks The Zombie Survival Guide Robert A Saunders The Perilous Sites of the Atlantikwall Rose Tzalmou Monstrous Homes How Private Spaces Shape Characters Identities in 19th Century Sensation Fiction Christina Flotmann Enchanted Microcosm or Apocalyptic Warzone Human Projections into the Bug World Petra Rehling Monstrous Breeding Grounds Creation Isolation and Suffering at Noble s Island Hailsham and Rankstadt Evelyn Tsitas How the Earth Went Bad From Wells The War of the Worlds to the Zombie Apocalypse in the 21st Century Simon Bacon Strange Outlandish Star Spaces of Horror in the Poems and Memoirs of the War Poets Sarah Montin Unsettling Empty Spaces Displacing Terra Nullius Thea Costantino Morgues Museums and the Ghost of Errol Flynn Erin Ashenhurst Architecture after Fukushima Spaces of Bara Bara Spaces of Reciprocity Yutaka Shō **Marketing Places and Spaces** António Correia, Juergen Gnoth, Metin Kozak, Alan Fyall, 2015-07-08 Marketing Places and Spaces brings context to the forefront for advancing theory and management sensemaking in understanding the influences of marketing on tourism behavior This book is for tourism professionals and educators seeking deep knowledge of how visiting places transforms the lives of visitors a nonfiction version of Eat Pray Love The Places and Spaces of Fashion, 1800-2007 John Potvin, 2013-01-11 The Places and Spaces of Fashion 1800 2007 brings together art design fashion and a much neglected concern for its spatial realities The spaces and places of fashion have often been overlooked in the writing of fashion history and visual culture More often than not however these

environments mitigate control inform and enhance how fashion is experienced performed consumed seen exhibited purchased appreciated and of course displayed Space as this volume attempts to illustrate is itself a representational strategy on par with and influencing the visibility and visuality of fashion Innovative and challenging the essays in this volume explore various physical and conceptual spaces moving from physical environments to the two dimensional with paintings illustrations and photographs to chart similarities differences and complex nuanced relationships between environments fashion identities and visuality The volume also navigates various sites both permanent and temporary of production circulation exhibition consumption and promotion of fashion that define meaning and knowledge about a culture or individual by providing for a bond between embodied consumers spectators and fashion objects The Places and Spaces of Fashion 1800 2007 is a compelling project with a thematic theoretical and historiographic approach that is at once both focused yet far reaching and original in its implications The volume engages with questions attending to the modern condition by seamlessly weaving interdisciplinary discussions of the visual with material culture to explore the spatial dimension s of fashion Some of the essays explore new and exciting spaces while others offer compelling revisionary analyses of relatively known sources Public Places and Spaces Irwin Altman,Erwin H. Zube,2012-12-06 This tenth volume in the series addresses an important topic of research design and policy in the environment and behavior field Public places and spaces include a sweeping array of settings including urban streets plazas and squares malls parks and other locales and natural settings such as aquatic environments national parks and forests and wilderness areas The importance of public settings is highlighted by difficult questions of access control and management unique needs and problems of different users including women the handicapped and various ethnic groups and the dramatic reshaping of our public environments that has occurred and will continue to occur in the foreseeable future The wide ranging scope of the topic of public places and spaces demands the attention of many disciplines and researchers designers managers and policymakers As in previous volumes in the series the authors in the present volume come from a variety of disciplinary backgrounds research and design orientations and affiliations They have backgrounds in or are affiliated with such fields as architecture geography landscape architecture natural resources psychology sociology and urban design Many more disciplines obviously contribute to our understanding and design of public places and spaces so that the contributors to this volume reflect only a sample of the possibilities and present state of knowledge about public settings Reclaiming Your Places and Spaces Jeff Davidson,2008 With sixty simple immediate techniques streamline your workday and boost your productivity and job satisfaction
