Places In The Bone:

Places in the Bone Carol Dine, 2005-09-22 In a series of unflinching vignettes laced with heartbreak and often with humor Places in the Bone gives an unforgettable account of loss and survival childhood secrets banished from memory and the power of language to retrieve the missing parts of oneself and one's past Woven together with unmistakable lyricism Carol Dine's narrative moves back and forth in time and place from the childhood bedroom that fills her with fear to a hospital room after her surgery for breast cancer to an adobe hut in a New Mexico artists colony where she escapes and finds her voice This voice it turns out is a chorus a harmony of cries both anguished and triumphant Among them we hear a young girl speak about the abuse by her father we hear the tormented reflections of a mother who for several years after a divorce loses contact with her young son and we hear the testimony of a cancer survivor Through it all we feel the determination courage and creativity of a woman who has spent more than two decades confronting her past her body and her identity Despite her struggles Dine finds positive influences in her life including her mentor Anne Sexton who recognizes the fire in her words and Stanley Kunitz whose indomitable spirit provides enduring inspiration More than a story of personal loss the memoir moves us with its humanity its unnerving wit and its defiant faith As the fragments come together we experience Dine's joy in living and her reconciliation with the past that allow her to renew bonds with her son her sister and her mother In page after page we witness the power of art to refigure a body to transform suffering and ultimately to redeem
