Places of Pilgrimage H.-A. Theilen, 2003-03-04 Examination Thesis from the year 2002 in the subject English Language and Literature Studies Culture and Applied Geography grade 2 5 B University of Osnabrück FB Anglistics course Exams language English abstract Pilgrimage usually seen within a strictly religious context can be more usefully viewed as a voyage motivated by emotion a search for meaning and a craving to express one's community of belief at a special place Therefore the particular place is a location of spiritual union where pilgrims share transcendental experience and or proximity to a divinity human being or sacred event Naturally pilgrimage performed for religious reasons has a traditional character but one should not assume mistakenly that sacred journeys will disappear because science and technology are expanding Actually our computer age might increase spiritual actions and initiate an even greater longing for religious devotion One of the main questions I will work on deals with this issue A commonly prevalent perception still associates pilgrimage with traditional cultures and people in the Old World of Europe This shallow view does not account for the complexity of this devout act which includes not only pilgrimage to conventional sites but also that stemming from various individual motivations

Cyclopædia George Ripley, Charles Anderson Dana, 1875 **Pilgrimage in World Religions** Surinder Mohan Bhardwaj, 1988 Writing the Jerusalem Pilgrimage in the Late Middle Ages Mary Boyle, 2021

An examination of four written accounts of medieval pilgrimages to Jerusalem. What do the bursar of Eton College, a canon of Mainz Cathedral, a young knight from near Cologne, and a Kentish nobleman's chaplain have in common? Two Germans, residents of the Holy Roman Empire, and two Englishmen, just as the western horizons of the known world were beginning to expand. These four men—William Wey, Bernhard von Breydenbach, Arnold von Harff, and Thomas Larke—are amongst the thousands of western Christians who undertook the arduous journey to the Holy Land in the decades immediately before the Reformation. More importantly, they are members of a much more select group: those who left written accounts of their travels for the journey to Jerusalem in the late Middle Ages. This book examines the international literary phenomenon of the Jerusalem pilgrimage through the prism of these four writers. It explores the process of collective and individual identity construction as pilgrims came into contact with members of other religious traditions in the course of the expression of their own. It engages with the uneasy relationship between curiosity and pilgrimage and investigates both the relevance of genre and the advent of print to the development of pilgrimage writing. Ultimately, pilgrimage is revealed as a conceptual space with a near-liturgical status, unrestricted by geographical boundaries and accessible both literally and virtually.
