Placing And Displacing Romanticism:

Placing and Displacing Romanticism Peter J. Kitson, 2001 The essays collected in this volume all address the crucial current issues of place and displacement placing and displacing in Romantic period studies These terms are used with dexterity and imagination explored and interrogated in both their literal and figurative manifestations Overall this volume of essays takes forward these seminal terms in contemporary criticism of Romantic writing in a series of fresh and subtle readings of texts and contexts historical philosophical social political and scientific Familiar texts are revisited with new insight and unfamiliar texts are placed in meaningful contexts Despite the claim that Romantic writing denies and evades history and the social tensions of its time this volume shows how such writing is replete with both explicit and implicit contributions to the essential debates of the time The contributors to this volume all leading scholars in their field combine the virtues of close textual reading with an informed awareness of the historical political and social pressures of the Romantic period encouraging a critical stance of historically engaged formalist critique *Women, Epic, and Transition in British Romanticism* Elisa Beshero-Bondar, 2011-05-31 *Women Epic and Transition in British Romanticism* argues that early nineteenth century women poets contributed some of the most daring work in modernizing the epic genre The book examines several long poems to provide perspective on women poets working with and against men in related efforts contributing together to a Romantic movement of large scale genre revision Women poets challenged longstanding categorical approaches to gender and nation in the epic tradition and they raised politically charged questions about women's importance in moments of historical crisis **Romanticism and the Uses of Genre** David Duff, 2009-11-12 This wide ranging book explores the generic innovations that drive the Romantic revolution in literature but also the fascination with archaic forms such as the ballad sonnet epic and romance whose revival and transformation make Romanticism a retro as well as a revolutionary movement **Romantic Literature, Race, and Colonial Encounter** P. Kitson, 2016-04-30 In a fresh investigation of primary sources and original readings Kitson traces the origins of contemporary ideas about race though a variety of late Eighteenth and early Nineteenth century literary texts by Coleridge Byron Shelley De Quincey and other published and unpublished writings about travel and exploration and natural history **The Ecology of British Romantic Conservatism, 1790-1837** Katey Castellano, 2013-10-11 Analyzing Romantic conservative critiques of modernity found in literature philosophy natural history and agricultural periodicals this book finds a common theme in the intergenerational imagination This impels an environmental ethic in which obligations to past and future generations shape decisions about inherited culture and land Class and the Canon K. Blair, M. Gorji, 2012-11-13 Examining how labouring class poets constructed themselves and were constructed by critics as part of a canon and how they situated their work in relation to contemporaries and poets from earlier periods this book highlights the complexities of labouring class poetic identities in the period from Burns to mid late century Victorian dialect poets *John Clare and Community* John

Goodridge,2013 John Clare 1793 1864 is one of the most sensitive poetic observers of the natural world Born into a rural labouring family he felt connected to two communities his native village and the Romantic and earlier poets who inspired him The first part of this study of Clare and community shows how Clare absorbed and responded to his reading of a selection of poets including Chatterton Bloomfield Gray and Keats revealing just how serious the process of self education was to his development The second part shows how he combined this reading with the oral folk culture he was steeped in to create an unrivalled poetic record of a rural culture during the period of enclosure and the painful transition to the modern world In his lifelong engagement with rural and literary life Clare understood the limitations as well as the strengths in communities the pleasures as well as the horrors of isolation **Romantic Diasporas: French Émigrés, British Convicts, and Jews** T.

Romantic Climates Anne Collett,Olivia Murphy,2019-06-29 This book seeks to uncover how today s ideas about climate and catastrophe have been formed by the thinking of Romantic poets novelists and scientists and how these same ideas might once more be harnessed to assist us in the new climate challenges facing us in the present The global climate disaster following Mt Tambora s eruption in 1815 the Year without a Summer is a starting point from which to reconsider both how the Romantics responded to the changing climates of their day and to think about how these climatic events shaped the development of Romanticism itself As the contributions to this volume demonstrate climate is an inescapable aspect of Romantic writing and thinking Ideologies and experiences of climate inform everything from scientific writing to lyric poetry and novels The Diodati circle that assembled in Geneva in 1816 Lord Byron Percy and Mary Shelley John Polidori and John Cam Hobhouse and the gothic novelist MG Monk Lewis is synonymous with the literature of that dreary uncanny season Essays in this collection also consider the work of Jane Austen John Keats and William Wordsworth along with less well

Wright, 2009-09-10 This volume contains primary materials and introductory essays on the historical, critical, and theoretical study of national literature, focusing on the years 1550-1850 and the impact of ideas of nationhood from this period on contemporary literature and culture. The book is helpfully divided into three comprehensive parts. Part One contains a selection of primary materials from various English-speaking nations written between the early modern and the early Victorian eras. These include political essays, poetry, religious writing, and literary theory by major authors and thinkers ranging from Edmund Spenser, Anne Bradstreet, and David Hume to Adam Kidd and Peter Du Ponceau. Parts Two and Three contain critical essays by leading scholars in the field. Part Two introduces and contextualizes the primary material, and Part Three brings the discussion up to date by discussing its impact on contemporary issues such as canon formation and globalization. The volume is prefaced by an extensive introduction to and overview of recent studies in nationalism, the history and debates of nationalism through major literary periods, and discussion of why the question of nationhood is important. *Reading the Nation in English* is a comprehensive resource offering coherent, accessible readings on the ideologies, discourses, and practices of nationhood.
