**The Placing of T.S. Eliot** Jewel Spears Brooker, 1991 Fourteen essays assess Eliot's place geographically culturally philosophically and within the context of literary history The contributions originated as invited lectures for the T S Eliot Society as memorial lectures between 1984 and 1989 or as centennial lectures in 1988 Annotation copyrighted by Book News Inc Portland OR Handbook of Literary Apologetics Thomas L. Martin, 2025-08-18 Literature's probative force travels across the realm of sense in this world to what lies beyond it When we speak of what is beyond our grasp in this world we think most immediately of the world of the spirit Shakespeare famously celebrates literature's power to explore the forms of things unknown How many great works of literature guide us through a familiar world to the edge of the spiritual unknown Not only Shakespeare but Dante Milton Dostoevsky Hopkins Eliot O'Connor and many others in these pages carry us there This book follows their quest Literary apologetics is the study of the characteristic moves by the authors who take readers on their journey of faith with them Most notably that tradition begins with Latin authors spreads across Europe in a continuous literary culture and extends over world literature to the present day While early apologetics is proclamation rhetoric philosophy and poetry above all it is witness to the faith manifesting itself in time The early faith community produces a distinct literary culture as Christian witness takes all these forms and more From then until now this kind of literature probes ultimate questions adumbrates numinous experience and extrapolates ethical outcomes of Christian teachings across a wide variety of literary forms The Handbook of Literary Apologetics provides an authoritative introduction to the scope of this tradition and its major figures **Placing the Poet** Terri DeYoung, 1998-04-09 Makes available for the first time in English the work of a major modern Arab poet providing a framework for understanding his experience not only as an Arab writer but as a postcolonial one **Placing Elysium in Renaissance Britain** Patrick Cheney, 2025-10-02 Placing Elysium in Renaissance Britain Poetry Politics Theology Eros is the first study of Elysium as a place in English Renaissance culture The absence of such a study in the fields of literature and geography is surprising from its captivating origin in the oceanic margins of Homer's Odyssey to its presence in the Eden of Milton's Paradise Lost Elysium is a destination to be desired it is the land of the blessed As such Elysium becomes a geographical site for an author's most valued space In Britannia Camden provides leadership for this project by citing Plutarch as locating the blessed place in Britain Following Camden Spenser centralizes the idea of Britain as Elysium Subsequently English authors make the Elysian place the site of a liberating sublimity as the height of artistic renown This authorial template becomes the site for literary inflections in the realms of politics theology and eros However Kyd and Marlowe darken the Spenserian project recalling Virgil's geographical positioning of Elysium next to Hell In turn Drayton Chapman and Marston champion the Spenserian idea of Britain as Elysium As this conversation suggests English authors make Elysium the central place of the Renaissance period concept and they do so in the nation building genre of epic In The Muses Elizium Drayton crowns the Spenserian tradition by making the

blessed place the monomyth of national poetry At the centre of the monomyth is the cherished ideal of Renaissance culture the Elysian capacity of the human to become divine **Philip Larkin and the Place of Writing** Ujjwal Kr.

Panda,2025-01-10 This book extensively investigates the integral nature of spatiality and spatial imagination in the works of Philip Larkin It addresses Larkin s idea of space and place both private and public and reflects upon his early fictional works as well as poems To do so the book also emphasizes the essential spatiality of modern British literature with suitable examples from other great poets of the early 20th century modernist movement including T S Eliot W B Yeats W H Auden and Dylan Thomas By including detailed analysis of many unpublished poems and his early fictions the book aspires to be a comprehensive study of Larkin s oeuvre and thus examines how Larkin s sense of place changed as he developed as a writer starting with Brunette Coleman novels and going on to High Windows Featuring suitable references from his biographies and letters the book will examine Larkin s works in relation to a number of relevant ideas from the interdisciplinary spheres of literature geography and Spatial Humanities **Italian American Poetics of Place** Sabrina Vellucci,2024-11-19 This

volume examines the significance of place in contemporary Italian American literature from an ecocritical perspective It fills a gap in the theoretical discourse on Italian American culture whose concerns about environmental justice have been mostly overlooked From mid twentieth century poets such as John Ciardi and Diane di Prima to late twentieth and twenty first century fiction writers such as Carole Maso and Salvatore Scibona the study combines Italian American literary criticism with the spatial turn that over the last decades has asserted the interpretive significance of place and the environment in literary texts Questioning the prejudice that sees Italian American culture as detached from ecological issues these works show that such diasporic heritage has helped forge different modes of relationship and new forms of expression in contact with the American land Their relevance lies not so much in defining or redefining Italian American ethnicity but in forging ideas and futures beyond their immediate framework and subject matter By focusing on the intersection of gender and ethnicity with local and transnational spaces and aesthetic practices Italian American Poetics of Place contributes to the growing field of inquiry that explores the resources of the literary in laying the basis for more dialogic and inclusive forms of awareness and community with both the human and other than human **Research and Social Work in Time and Place**

Ian Shaw,2023-02-24 This volume which brings together chapters and journal articles published by renowned academic Ian Shaw focusses on the practice research relationship within social work a theme that has preoccupied much of his writing over the last 40 or more years These pieces show the academic development of his understanding of the complexity and challenge of that relationship as well as the shifts which have occurred in it over time Divided into four sections Forming Professional Practice Forming Social Work Research Chicago Sociology and Social Work Critical Tributes and Debates and comprised of 31 chapters it will be of interest to all scholars of social work and allied subjects including sociology allied health social policy and disability studies **The Place and the Writer** Marshall Moore,Sam Meekings,2021-04-08 The

combined experience of authors throughout the ages offers a wealth of valuable information about the practice of creative writing. However, such lore can also be problematic for students and practitioners as it can be inherently additive, making it difficult to abandon processes that do not work. This adherence to lore also tends to be a US-centric endeavor. In order to take a nuanced approach to the uses and limitations of lore, *The Place and the Writer* offers a global perspective on creative writing pedagogy that has yet to be fully explored. Featuring a diverse array of cultural viewpoints from Brazil to Hong Kong, Finland to South Africa, this book explores the ongoing international debate about the best approaches for teaching and practicing creative writing. Marshall Moore and Sam Meekings challenge areas of perceived wisdom that persist in the field of creative writing, including aesthetics and politics in institutionalized creative writing, the process of workshopping, tuition and talent anxiety in the classroom, unifying theory and lore, and teaching creative writing in languages other than English.

**No Place of Grace** T.J. Jackson Lears, 2021-08-26 A new edition of a classic work of American history that eloquently examines the rise of antimodernism at the turn of the twentieth century. First published in 1981, T.J. Jackson Lears's *No Place of Grace* is a landmark book in American studies and American history, acclaimed for both its rigorous research and the deft fluidity of its prose. A study of responses to the emergent culture of corporate capitalism at the turn of the twentieth century, *No Place of Grace* charts the development of contemporary consumer society through the embrace of antimodernism, the effort among middle and upper class Americans to recapture feelings of authentic experience. Rather than offer true resistance to the increasingly corporatized bureaucracy of the time, however, antimodernism helped accommodate Americans to the new order; it was therapeutic rather than oppositional, a striking forerunner to today's self-help culture. And yet, antimodernism contributed a new dynamic as well as an eloquent edge of protest, as Lears puts it, which is evident even today in anticonsumerism, sustainable living, and other practices. This new edition, with a lively and discerning foreword by Jennifer Ratner-Rosenhagen, celebrates the fortieth anniversary of this singular work of history.

*Heidegger and the Thinking of Place* Jeff Malpas, 2017-03-03 The philosophical significance of place in Heidegger's work and as the focus of a distinctive mode of philosophical thinking. The idea of place (*topos*) runs through Martin Heidegger's thinking almost from the very start. It can be seen not only in his attachment to the famous hut in Todtnauberg but in his constant deployment of topological terms and images and in the situated, placed character of his thought and of its major themes and motifs. Heidegger's work argues, Jeff Malpas exemplifies the practice of philosophical topology. In *Heidegger and the Thinking of Place*, Malpas examines the topological aspects of Heidegger's thought and offers a broader elaboration of the philosophical significance of place. Doing so, he provides a distinct and productive approach to Heidegger as well as a new reading of other key figures, notably Kant, Aristotle, Gadamer, and Davidson, but also Benjamin Arendt and Camus. Malpas expands arguments he made in his earlier book *Heidegger's Topology* (MIT Press, 2007), discussing such topics as the role of place in philosophical thinking, the topological character of the transcendental, the convergence of Heideggerian topology with Davidsonian triangulation, the

necessity of mortality in the possibility of human life the role of materiality in the working of art the significance of nostalgia and the nature of philosophy as beginning in wonder Philosophy Malpas argues begins in wonder and begins in place and the experience of place The place of wonder of philosophy of questioning he writes is the very topos of thinking      **Poetics of Place** Dermot McCarthy,1991 Ralph Gustafson's personal growth as a poet during a career which spans more than half a century in many ways reflects the development of modern Canadian poetry as a whole A Poetics of Place provides the only available examination of the career of this pre eminent Canadian poet as well as insightful new readings of almost all his poems      **Finding the Place** Kees Fens,1994 This is a collection of essays on major English literary figures by the leading Dutch critic Kees Fens Although most of them are on nineteenth and twentieth century literature dealing with among others Newman Hopkins Wilde Shaw and Greene authors from earlier periods such as Thomas More and George Herbert are not excluded Kees Fens holds that great cultural achievements are creative responses to a large diversity of traditions The most important of these constitute the cultural heritage that is preserved and passed on in education religion reading and writing For Fens culture is first and foremost a continuity of experience starting in one's youth when one goes to school and to church In assimilating the tradition one learns that all aspects of life are culturally significant for better or worse Creativity is the urge to continue to learn on all occasions What one learns is that one's knowledge necessarily remains incomplete Fens has a sharp eye for inconsistencies and paradoxes in authors as well as in their work He responds to these with humour since in his view they illustrate a permanent striving for perfection What a great author leaves behind is his language Language is saturated with many kinds of traditions an author uses language to reshape the traditions he wants to perfect A great author becomes a great teacher when he makes his readers experience his own need for perfection      **Poe and Place** Philip Edward Phillips,2018-10-23 This collection of fifteen original essays and one original poem explores the theme of place in the life works and afterlife of Edgar A Poe 1809-1849 Poe and Place argues that place is an important critical category through which to understand this classic American author in new and interesting ways The geographical places examined include the cities in which Poe lived and worked specific locales included in his fictional works imaginary places featured in his writings physical and imaginary places and spaces from which he departed and those to which he sought to return places he claimed to have gone and places that have embraced him as their own The geo critical and geo spatial perspectives in the collection offer fresh readings of Poe and provide readers new vantage points from which to approach Poe's life literary works aesthetic concerns and cultural afterlife      **The Reimagining of Place in English Modernism** Sam Wiseman,2015 Analyses key texts by D H Lawrence John Cowper Powys Mary Butts and Virginia Woolf charting their respective attempts to forge new identities perspectives and literary approaches that reconcile tradition and modernity belonging and exploration the rural and the metropolitan      **Public Life and the Place of the Church** Michael Brierley,2017-11-28 The work of Richard Harries Bishop of Oxford from 1987 to 2006 has been highly distinctive for the consistency of its engagement with

contemporary society It represents a model of the Church which is outward looking a Church which is as ready to learn from others as it is to offer its own wisdom and resources This book reflects on Richard Harries ministry in the borderlands of society and Church and engages deeply with the nature of modern society and the place of the Church within it Taking Richard Harries contributions as their inspiration key figures each of them major commentators on areas of pressing contemporary concern probe the important questions which people are asking about a range of social issues Arms and violence the role of the media in public life spirituality multifaith Britain sex capitalism the second chamber and medical ethics are all discussed building up a serious debate on the kind of society in which we live and making suggestive comments about the part which the Church might play Contributors Sabina Alkire Michael Bourke Melvyn Bragg John Drury Claire Foster Jonathan Gorsky Anthony Howard Douglas Hurd Eric James Julia Neuberger Edmund Newell Christopher Rowland Jane Shaw Margaret Shepherd Roger Wagner Keith Ward Rowan Williams Shirley Williams and James Woodward **People and Place** Michael S. Lutwack takes a dynamic view of the relationship between place and the action or thought in a work. Drawing comparisons over a wide range of works, principally American and British literature of the nineteenth and twentieth centuries, he illustrates how writers have charged different environments with symbolic and psychological meaning.
