Placing The Poet Badr Shakir Al Sayyab And Postcolonial Iraq:

Placing the Poet Terri DeYoung, 1998-04-09 Makes available for the first time in English the work of a major modern Arab poet providing a framework for understanding his experience not only as an Arab writer but as a postcolonial one **The Postcolonial Subject** Vivienne Jabri, 2013 This book places the lens on postcolonial agency and resistance in a social and geopolitical context that has witnessed great transformations in international politics What does postcolonial politics mean in a late modern context of interventions that seek to govern postcolonial populations Drawing on historic and contemporary articulations of agency and resistance and highlighting voices from the postcolonial world the book explores the transition from colonial modernity to the late modern postcolonial era It shows that at each moment wherein the claim to politics is made the postcolonial subject comes face to face with global operations of power that seek to control and govern As seen in the Middle East and elsewhere these operations have variously drawn on war policing as well as pedagogical practices geared at governing the political aspirations of target societies The book provides a conceptualisation of postcolonial political subjectivity discusses moments of its emergence and exposes the security agendas that seek to govern it Engaging with political thought from Hannah Arendt to Frantz Fanon Michel Foucault and Edward Said among other critical and postcolonial theorists and drawing on art literature and film from the postcolonial world this work will be of great interest to students and scholars of critical international relations postcolonial theory and political theory *Edinburgh Companion to the Postcolonial Middle East* Ball Anna Ball, 2018-11-14 This Edinburgh Companion seeks to develop a postcolonial framework for addressing the Middle East The first collection of essays on this subject it assembles some of the world's foremost postcolonialists to explore the critical theoretical and disciplinary possibilities that inquiry into this region opens for postcolonial studies Throughout its twenty four chapters its focus is on literary and cultural critique It draws on texts and contexts from the late nineteenth to the early twenty first centuries as case studies and deploys the concept of post colonial modernity to reveal the enduring impact of colonial and imperial power on the shaping of the region And it covers a wide and significant range of political social and cultural issues in the Middle East during that period including the heritage of Orientalism in the region the roots and contemporary branches of the Israel Palestine conflict colonial history state formation and cultures of resistance in Egypt Turkey the Maghreb and the wider Arab world the clash of tradition and modernity in regional and transnational expressions of Islam the politics of gender and sexuality in the Arab world the ongoing crises in Libya Iraq Iran and Syria the Arab Spring and the Middle Eastern refugee crisis in Europe **State-Society Relations in Ba'thist Iraq** Achim Rohde, 2010-04-05 Examines whether traditional paradigms of totalitarian rule can be applied to Ba'thist Iraq This work examines state society relations and uncovers the nature of the regime and how Iraqis lived with it

The Poetics of Anti-Colonialism in the Arabic Qaṣīdah Hussein Kadhim, 2004-05-01 Representing the most sustained investigation of the aesthetics of Anti Colonialism in modern Arabic poetry this book chronicles the evolution of a distinct

poetics that sought to maintain the integrity of the qa dah without circumventing its historical moment It painstakingly analyses a selection of odes by four leading twentieth century poets A mad Shawq Ma r f al Ru f Badr Sh kir al Sayy b and Abd al Wahh b al Bay t It will be of particular interest to scholars and students of Arabic literature Islamic and Middle Eastern studies Postcolonial studies Comparative literature and Cultural studies *The Other Iraq* Orit Bashkin,2008-11-20

The Other Iraq challenges the notion that Iraq has always been a totalitarian artificial state torn by sectarian violence Chronicling the rise of the Iraqi public sphere from 1921 to 1958 this enlightening work reveals that the Iraqi intellectual field was always more democratic and pluralistic than historians have tended to believe Orit Bashkin demonstrates how Sunni Shi i and Kurdish intellectuals effectively created hyphenated Iraqi identities connoting pride in their individual heritages while simultaneously appropriating and integrating ideas and narratives of Arab and Iraqi nationalism Illustrating three developmental stages of Iraqi intellectual history she follows Iraqi intellectuals changing roles from agents of democracy to specialists who analyze the population to deeply entrenched members of society committed to change Based on previously unexplored material this eye opening work has significant contemporary implications **Iraq** Heather Bleaney,Roper,Peter Sluglett,2004-06-01 Well considered answers to the many questions raised by the situation in Iraq past and present are rare This first comprehensive thematically organised bibliography devoted to Iraq is based on the full Index Islamicus database and is drawn from a wide variety of European language journals and books Featuring an extensive introduction to the subject and its literature by Peter Sluglett this bibliography will help readers to find their way through the massive secondary literature now available Following the pattern established by the Index Islamicus both journal articles and book publications are included as well as important internet resources The editors have taken care to add much new material to bring its coverage up to date and supplement the previously published volumes while the most important and or influential publications are conveniently highlighted in the introduction An indispensable gateway for all those with a more than superficial interest in what is and what has been happening in this nation so much the focus of attention today The Undergraduate's Companion to Arab Writers and Their Web Sites Dona S. Straley,2004-08-30 This companion provides information on the lives and works of about 150 authors who write primarily in Arabic covering the first known works of Arabic literature in the 5th and 6th centuries A D to the present day While concentrating on literary authors writers from the fields of history geography and philosophy are also represented The individuals represented were chosen primarily from the Encyclopedia of Arabic Literature Among the major authors are Najib Mahfuz the 1988 Nobel laureate Nawal Saadawi the Egyptian physician who is the leading female literary author in the Arab world and the most frequently translated into English Abu al Ala al Ma arri the 11th century poet whose verses are taught to every Arab schoolchild and Avicenna the great physician and philosopher transmitter and interpreter of Aristotle whose work on medicine was long the standard not only in the Middle East but also in Latin translation in Europe In addition entries will be included for the anonymous romances so

common in Arabic literature such as *The Arabian Nights* a cycle of stories perhaps even better known in the West than in the Arab world Interest in the history and culture of the Arab world at U S universities has taken a quantum leap since the events of September 11 2001 In this book the author demonstrates that at least three major distinct literary and cultural traditions are included within the fields of Middle Eastern and Islamic studies Arabic Persian and Turkic The Arabic tradition is the oldest largest and most widely dispersed Undergraduate courses in Arabic literature and culture are now being taught at both lower and upper levels at many universities Such courses are often used by undergraduates to fulfill basic educational requirements for their degrees Students in such courses often have difficulty finding information on Arab writers and this volume fills the void [Encyclopedia of Postcolonial Studies](#) John Charles Hawley,2001-09-30 The collapse of empires has resulted in a remarkable flourishing of indigenous cultures in former colonies The end of the colonial era has also witnessed a renaissance of creativity in the postcolonial world as modern writers embrace their heritage The experience of postcoloniality has also drawn the attention of academics from various disciplines and has given rise to a growing body of scholarship This reference work overviews the present state of postcolonial studies and offers a refreshingly polyphonic treatment of the effects of globalization on literary studies in the 21st century The volume includes more than 150 alphabetically arranged entries on postcolonial studies around the world Entries on individual authors provide brief biographical details but primarily examine the author's handling of postcolonial themes So too entries on theoreticians offer background information and summarize the person's contributions to critical thought Entries on national literatures explore the history of postcoloniality and the ways in which writers have broadly engaged their legacy while those on important topics discuss the theoretical origin and current ramifications of key concepts in postcolonial studies Cross references and cited works for further reading are included while a comprehensive bibliography concludes the volume *Writing the Modern History of Iraq* Jordi Tejel,2012 The modern history of Iraq is punctuated by a series of successive and radical ruptures coups d'etat changes of regime military adventures and foreign invasions whose chronological markers are relatively easy to identify Although researchers cannot ignore these ruptures they should also be encouraged to establish links between the moments when the breaks occur and the *longue durée* in order to gain a better understanding of the period Combining a variety of different disciplinary and methodological perspectives this collection of essays seeks to establish some new markers which will open fresh perspectives on the history of Iraq in the twentieth and twenty first centuries and suggest a narrative that fits into new paradigms The book covers the various different periods of the modern state the British occupation and mandate the monarchy the first revolutions and the decades of Ba'athist rule through the lens of significant groups in Iraq society including artists film makers political and opposition groups members of ethnic and religious groups and tribes **New Babylonians** Orit Bashkin,2012-09-12 Although Iraqi Jews saw themselves as Iraqi patriots their community which had existed in Iraq for more than 2 500 years was displaced following the establishment of

the state of Israel New Babylonians chronicles the lives of these Jews their urban Arab culture and their hopes for a democratic nation state It studies their ideas about Judaism Islam secularism modernity and reform focusing on Iraqi Jews who internalized narratives of Arab and Iraqi nationalisms and on those who turned to communism in the 1940s As the book reveals the ultimate displacement of this community was not the result of a perpetual persecution on the part of their Iraqi compatriots but rather the outcome of misguided state policies during the late 1940s and early 1950s Sadly from a dominant mood of coexistence friendship and partnership the impossibility of Arab Jewish coexistence became the prevailing narrative in the region and the dominant narrative we have come to know today *A Short History of Iraq* Thabit

Abdullah,2014-05-12 This accessible guide has been fully updated to take into account the Iraq War and subsequent developments whilst retaining its character as a non partisan and approachable text for students and interested readers alike The twentieth century witnessed the transformation of the area known currently as Iraq from a backward region of the Ottoman Empire to one of the most important and dynamic states in the Middle East The rise of modern Iraq has its roots in the second half of the nineteenth century when Ottoman reforms led to gradual state modernization and increasing integration in the World Economy British control after World War I was one of the determining factors in the establishment of the current borders of the country and the nature of its subsequent national identity The other important factor was the highly heterogeneous nature of Iraqi society being divided along tribal ethnic religious and sectarian lines This book focuses on the interaction between the old and the new or between continuity and change as it is manifested in the nature of social development nation building the state and the political opposition An entirely new chapter focusing on the recent conflict has been added and will contain sections on The new chapter will have the following sections The Question of American Intervention Invasion and the Fall of Saddam Looting the Collapse of the Central State The Provisional Authoritys Reforms The Nature of the Resistance Iraqs New Political Reality Elections and the Rise of Sectarian Parties Social Economic Transformations The Challenge of the Future The Dangers of Poetry Kevin M. Jones,2020-09-01 Poetry has long

dominated the cultural landscape of modern Iraq simultaneously representing the literary pinnacle of high culture and giving voice to the popular discourses of mass culture As the favored genre of culture expression for religious clerics nationalist politicians leftist dissidents and avant garde intellectuals poetry critically shaped the social political and cultural debates that consumed the Iraqi public sphere in the twentieth century The popularity of poetry in modern Iraq however made it a dangerous practice that carried serious political consequences and grave risks to dissident poets The Dangers of Poetry is the first book to narrate the social history of poetry in the modern Middle East Moving beyond the analysis of poems as literary and intellectual texts Kevin M Jones shows how poems functioned as social acts that critically shaped the cultural politics of revolutionary Iraq He narrates the history of three generations of Iraqi poets who navigated the fraught relationship between culture and politics in pursuit of their own ambitions and agendas Through this historical analysis of

thousands of poems published in newspapers recited in popular demonstrations and disseminated in secret whispers this book reveals the overlooked contribution of these poets to the spirit of rebellion in modern Iraq *The Shi'ites of Lebanon* Rula Jurdi Abisaab, Malek Abisaab, 2014-12-09 The complex history of Lebanese Shi'ites has traditionally been portrayed as rooted in religious and sectarian forces The Abisaabs uncover a more nuanced account in which colonialism the modern state social class and provincial politics profoundly shaped Shi'ite society The authors trace the sociopolitical economic and intellectual transformation of the Shi'ites of Lebanon from 1920 during the French colonial period until the late twentieth century They shed light on the relationship of contemporary Islamic militancy with traditions of religious modernism and leftism in both Lebanon and Iraq Analyzing the interaction between sacred and secular features of modern Shi'ite society the authors clearly follow the group's turn toward religious revolution and away from secular activism This book transforms our understanding of twentieth century Lebanese history and demonstrates how the rise of Hizbullah was conditioned by Shi'ites consistent marginalization and neglect by the Lebanese state Modernism and the Middle East Sandy Isenstadt, Kishwar Rizvi, 2011-03-01 This provocative collection of essays is the first book length treatment of the development of modern architecture in the Middle East Ranging from Jerusalem at the turn of the twentieth century to Libya under Italian colonial rule postwar Turkey and on to present day Iraq the essays cohere around the historical encounter between the politics of nation building and architectural modernism's new materials methods and motives Architecture as physical infrastructure and as symbolic expression provides an exceptional window onto the powerful forces that shaped the modern Middle East and that continue to dominate it today Experts in this volume demonstrate the political dimensions of both creating the built environment and subsequently inhabiting it In revealing the tensions between achieving both international relevance and regional meaning Modernism in the Middle East affords a dynamic view of the ongoing confrontations of deep traditions with rapid modernization Political and cultural historians as well as architects and urban planners will find fresh material here on a range of diverse practices *No Exit* Yoav Di-Capua, 2018-03-30 It is a curious and relatively little known fact that for two decades from the end of World War II until the late 1960s existentialism's most fertile ground outside of Europe was in the Middle East and Jean Paul Sartre was the Arab intelligentsia's uncontested champion In the Arab world neither before nor since has another Western intellectual been so widely translated debated and celebrated By closely following the remarkable career of Arab existentialism Yoav Di Capua reconstructs the cosmopolitan milieu of the generation that tried to articulate a political and philosophical vision for an egalitarian postcolonial world He tells this story by touring a fascinating selection of Arabic and Hebrew archives including unpublished diaries and interviews Tragically the warm and hopeful relationships forged between Arab intellectuals Sartre Simone de Beauvoir and others ended when on the eve of the 1967 war Sartre failed to embrace the Palestinian cause Today when the prospect of global ethical engagement seems to be slipping ever farther out of reach *No Exit* provides a timely humanistic account of the intellectual hopes struggles and victories that

shaped the Arab experience of decolonization and a delightfully wide ranging excavation of existentialism's non Western history

Sex and Desire in Muslim Cultures Aymon Kreil, Lucia Sorbera, Serena Tolino, 2020-12-10 What have different ideas about sex and gender meant for people throughout the history of the Middle East and North Africa This book traces sex and desire in Muslim cultures through a collection of chapters that span the 9th to 21st centuries Looking at spaces and periods where sexual norms and the categories underpinning them emerge out of multiple subjectivities the book shows how people constantly negotiate the formulation of norms their boundaries and their subversion It demonstrates that the cultural and political meanings of sexualities in Muslim cultures as elsewhere emerge from very specific social and historical contexts The first part of the book examines how people constructed discussed and challenged sexual norms from the Abbasid to the Ottoman period The second part looks at literary and cinematic Arab cultural production as a site for the construction and transgression of gender norms The third part builds on feminist historiography and social anthropology to question simplistic dichotomies and binaries Each of the contributions shows how understanding of sexualities and the subjectivities that evolve from them are rooted in the mutually constitutive relationships between gender and political power In identifying the plurality of discourses on desires the book goes beyond the dichotomy of norm and transgression to glimpse what different sexual norms have meant at different times across the Middle East

Arabic Poetry

Muhsin J. al-Musawi, 2006-09-27 Since the late 1940s Arabic poetry has spoken for an Arab conscience as much as it has debated

positions and ideologies nationally and worldwide This book tackles issues of modernity and tradition in Arabic poetry as manifested in poetic texts and criticism by poets as participants in transformation and change It studies the poetic in its complexity relating to issues of selfhood individuality community religion ideology nation class and gender Al Musawi also explores in context issues that have been cursorily noticed or neglected like Shi i poetics Sufism women s poetry and expressions of exilic consciousness Arabic Poetry employs current literary theory and provides comprehensive coverage of modern and post modern poetry from the 1950s onwards making it essential reading for those with interests in Arabic culture and literature and Middle East studies
