## **Plague Merchants:**

*The Plague Merchants* R. Darryl Fisher, 2000-04 The *Plague Merchants* describes the horrifying feasibility of a genetically engineered virus formed from AIDS and influenza that creates a doomsday weapon. If unleashed in a crowded subway, the resulting plague can sweep across the country, spread by airborne contagion, annihilating every other person. The creator of this weapon of mass destruction is the world renowned and enigmatic molecular biologist Michelle Exeter, cloistered in a testing facility of the Neogenics biotechnology company in the Texas Hill Country. Her clandestine biological weapons research is underwritten by covert Defense Department funds funneled through United States Senator Prentiss Standridge and company CEO Charles Dunn. A delirious Hispanic found wandering the roadside near the research laboratory is rescued by two policemen. His death in the local ER from fulminant lung hemorrhage mystifies physician Hector Morales, and he solicits the aid of Dr. Betty Freeman, a Neogenics director, in identifying the cause of death. Within 72 hours, one of the policemen exposed to the Hispanic dies a similar death, asphyxiating from hemorrhage into his lungs, confirming its infectiousness. When the scientific director of the company discovers the scope of viral weapons production, he is brutally silenced; his death made to appear a suicide. Then Chairman of the board, Nobel laureate Hadley Thorne, promptly disappears after his visit to the Hill Country research laboratory to shut down the illicit viral weapons program. Dr. Freeman tenaciously pursues the mystery of these deaths and disappearances, suffering the disbelief of her family and police when she accuses Dr. Michelle Exeter of developing a viral warfare weapon. Dr. Exeter, realizing that soon her life's work will be exposed by Betty Freeman and that she will be disarmed by the authorities, rushes to release her deadly recombinant virus in retribution for the Gulf War attack by the United States that killed her unborn child and her mother. Only Betty Freeman can prevent the impending viral epidemic that would wipe out half the United States as the authorities refuse to believe her. Cassandra's warnings. In a race against the clock, Betty chases Michelle and her engineer father, Abdel Azziz, from Texas to Washington DC, where Michelle plans to release her deadly air-borne virus at the Washington Mall during the July 4th festivities. In a standoff of biblical proportions, Betty confronts Michelle in the Metrorail subway station beneath the crowded Mall. Merchants, Interlopers, Seamen and Corsairs Marie-Christine Engels, 1997 The Merchants of Siberia Erika L. Monahan, 2016-04-01 In *The Merchants of Siberia*, Erika Monahan reconsiders commerce in early modern Russia by reconstructing the trading world of Siberia and the careers of merchants who traded there. She follows the histories of three merchant families from various social ranks who conducted trade in Siberia for well over a century. These include the Filat'evs, who were among Russia's most illustrious merchant elite; the Shababins, Muslim immigrants who mastered local and long distance trade while balancing private endeavors with service to the Russian state; and the Noritsyns, traders of more modest status who worked sometimes for themselves, sometimes for bigger merchants, and participated in the emerging Russia-China trade. Monahan demonstrates that trade was a key component of how the Muscovite state sought to assert its authority in the Siberian

periphery The state's recognition of the benefits of commerce meant that Russian state and empire building in Siberia were characterized by accommodation in this diverse borderland instrumentality trumped ideology and the Orthodox state welcomed Central Asian merchants of Islamic faith This reconsideration of Siberian trade invites us to rethink Russia's place in the early modern world The burgeoning market at Lake Yamys' an inner Eurasian trading post along the Irtysh River illuminates a vibrant seventeenth century Eurasian caravan trade even as Europe Asia maritime trade increased By contextualizing merchants and places of Siberian trade in the increasingly connected economies of the early modern period Monahan argues that commercially speaking Russia was not the outlier that most twentieth century characterizations portrayed
