## **Plague A Story Of Smallpox In Montreal:**

Plague Michael Bliss, 1991      *Respectable Burial* Brian Young, 2003-05-26 *Respectable Burial* also highlights how important a role Montreal played in Canada's history. The cemetery is the final resting place of politician Alexander Galt, poet F. R. Scott, hockey star Howie Morenz, explorer David Thompson, bank presidents, renegades, hangmen, and victims of the Titanic. This history of a model rural cemetery, an innovator in perpetual care and proprietor of the first crematorium in Canada, illustrates changing attitudes to burial and commemoration, including the relationships between Protestantism, Romanticism, and death. Young also shows how the cemetery, a site of great natural beauty that helped inspire Frederick Law Olmsted's adjacent Mount Royal Park, became a much-loved public urban space and examines how the evolution of its landscaping, architecture, and use reflect changing attitudes to the place of women, recreation, heritage, and the environment. Incorporating a rich collection of archival illustrations, walking maps, and a colour photo essay by photographer Geoffrey James, *Respectable Burial* will appeal to anyone interested in Canadian history, parks, and cities.      **Essays in Honour of Michael Bliss** Alison Li, Elsbeth Heaman, Shelley McKellar, 2008-01-01 A leading public intellectual, Michael Bliss has written prolifically for academic and popular audiences and taught at the University of Toronto from 1968 to 2006. Among his publications are a comprehensive history of the discovery of insulin and major biographies of Frederick Banting, William Osler, and Harvey Cushing. The essays in this volume, each written by former doctoral students of Bliss with a foreword by John Fraser and Elizabeth McCallum, do honour to his influence and at the same time reflect upon the writing of history in Canada at the end of the twentieth century. The opening essays discuss Bliss's career, his impact on the study of history, and his academic record. Bliss himself contributes an autobiographical essay that strengthens our understanding of the business of scholarship, teaching, and writing. In the second section, the contributors interrogate public mythmaking in the relationship between politics and business in eighteenth, nineteenth, and twentieth-century Canada. Further sections investigate the relationship between fatherhood, religion, and historiography, as well as topics in health and public policy. A final section on Medical Science and Practice deals with subjects ranging from early endocrinology, lobotomy, the mechanical heart, and medical biography as a genre. Going beyond a collection of dedicatory essays, this volume explores the wider subject of writing social and medical history in Canada in the late twentieth century.      Secondary Sources in the History of Canadian Medicine Charles G. Roland, Jacques Bernier, 2010-11-22 Volume Two of this retrospective bibliography is both a continuation and an expansion of Volume One (1984). It contains references to Canadian medical historical literature published between 1984 and 1998 and also includes much additional material published prior to 1984. Finally, it substantially enlarges the content of French language material. Every effort has been made to be as inclusive as possible of articles, theses, book chapters, and books, both in English and in French, relating to the history of medicine. No single electronic source can replace this bibliography. The contents are divided into three sections. The first is a listing of material expressly biographical. Section

*Taking to the Streets* Dan Horner, 2020-07-23 The 1840s were a period of rapid growth and social conflict in Montreal The city's public life was marked by a series of labour conflicts and bloody sectarian riots at the same time the ways that elites wielded power and ordinary people engaged in the political process were changing particularly in public space In *Taking to the Streets* Dan Horner examines how the urban environment became a vital and contentious political site during the tumultuous period from the end of the 1837-38 rebellions to the burning of Parliament in 1849 Employing a close reading of newspaper and judicial archives he looks at a broad range of collective crowd experiences including riots labour demonstrations religious processions and parades By examining how crowd events were used both to assert claims of political authority and to challenge their legitimacy Horner charts the development of a contentious democratic political culture in British North America *Taking to the Streets* is an important contribution to the political and urban history of pre Confederation Canada and a timely reminder of how Montrealers from all walks of life have always used the streets to build community and make their voices heard

*Tax, Order, and Good Government* E.A. Heaman, 2017-06-08 Was Canada's Dominion experiment of 1867 an experiment in political domination Looking to taxes provides the answer they are a privileged measure of both political agency and political domination To pay one's taxes was the sine qua non of entry into political life but taxes are also the point of politics which is always about the control of wealth Modern states have everywhere been born of tax revolts and Canada was no exception Heaman shows that the competing claims of the propertied versus the people are hardwired constituents of Canadian political history Tax debates in early Canada were philosophically charged politically consequential dialogues about the relationship between wealth and poverty Extensive archival research from private papers commissions the press and all levels of government serves to identify a rising popular challenge to the patrician politics that were entrenched in the Constitutional Act of 1867 under the credo Peace Order and good Government Canadians wrote themselves a new constitution in 1867 because they needed a new tax deal one that reflected the changing balance of regional racial and religious political accommodations In the fifty years that followed politics became social politics and a liberal state became a modern administrative one But emerging conceptions of fiscal fairness met with intense resistance from conservative statesmen culminating in 1917 in a progressive income tax and the bitterest election in Canadian history *Tax Order and Good Government* tells the story of Confederation without exceptionalism or misplaced sentimentality and in so doing reads Canadian history as a lesson in how the state works *Tax Order and Good Government* follows the money and returns taxation to where it belongs at the heart of Canada's political

Cover **Social Policy and Practice in Canada** Alvin Finkel, 2012-05-09 Social Policy and Practice in Canada A History traces the history of social policy in Canada from the period of First Nations control to the present day exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country While earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism's attack on social programs Alvin Finkel demonstrates that right wing and left wing forces have always battled to shape social policy in Canada He argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted Social Policy and Practice in Canada A History begins by exploring the non state mechanisms employed by First Nations to insure the well being of their members It then deals with the role of the Church in New France and of voluntary organizations in British North America in helping the unfortunate After examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in Canada in a variety of areas including health care treatment of the elderly child care housing and poverty

**Meeting of the People** Roderick MacLeod, Mary Anne Poutanen, 2004-06-03 In A Meeting of the People Roderick MacLeod and Mary Anne Poutanen look at the Protestant public education system and the communities that established and were served by its schools from the origins of public education in 1801 to the dissolution of confessional school boards in 1998 They focus on key issues such as class ethnicity religion gender health and welfare patriotism and the nature of local administration bringing to life the people who attempted to establish and maintain schools and considering relationships between school trustees parents teachers and the wider public Their analysis shows that communities recognized the importance of providing schooling despite what were often bleak circumstances The authors show that Protestant families often had to make a difficult choice between supporting better educational facilities in a central place far away or encouraging the survival of the local community through maintaining one of its key institutions the local school They explore the ambiguous nature of Protestant education at times understood as schooling reserved for a religious minority and at others as a liberal approach similar to public schooling across North America The Protestant community begun as a British element within a small colony has developed into a diverse array of people from across the religious spectrum periodically redefining itself to meet the needs of a changing Quebec society
