**PLAIDOYER POUR L'AVENIR** LOUIS. ARMAND, Drancourt, 1981 **The Bressonians** Codruța Morari, 2017-07-01 How should we understand film authorship in an era when the idea of the solitary and sovereign auteur has come under attack with critics proclaiming the death of the author and the end of cinema The Bressonians provides an answer in the form of a strikingly original study of Bresson and his influence on the work of filmmakers Jean Eustache and Maurice Pialat Extending the discourse of authorship beyond the idea of a singular visionary it explores how the imperatives of excellence function within cinema's pluralistic community Bresson's example offered both an artistic legacy and a creative burden within which filmmakers reckoned in different often arduous and altogether compelling ways **The European Sisyphus** Stanley Hoffmann, 2019-06-18 Bringing together all of Stanley Hoffmann's significant essays on the development and difficulties of European integration this collection highlights the intractability of the divisions that plagued the European Union from its very beginning Just as the process of integration has displayed the same ambiguities hesitations and failings over the *The Radiance of France, new edition* Gabrielle Hecht, 2009-07-31 How it happened that technological prowess and national glory or radiance which also means radiation in French became synonymous in France as nowhere else In the aftermath of World War II as France sought a distinctive role for itself in the modern postcolonial world the nation and its leaders enthusiastically embraced large technological projects in general and nuclear power in particular The Radiance of France asks how it happened that technological prowess and national glory or radiance which also means radiation in French became synonymous in France as nowhere else To answer this question Gabrielle Hecht has forged an innovative combination of technology studies and cultural and political history in a book that as Michel Callon writes in the new foreword to this edition not only sheds new light on the role of technology in the construction of national identities but is also a seminal contribution to the history of contemporary France Proposing the concept of technopolitical regime as a way to analyze the social political cultural and technological dynamics among engineering elites unionized workers and rural communities Hecht shows how the history of France's first generation of nuclear reactors is also a history of the multiple meanings of nationalism from the postwar period and France's desire for post Vichy redemption to 1969 and the adoption of a Frenchified American design This paperback edition of Hecht's groundbreaking book includes both Callon's foreword and an afterword by the author in which she brings the story up to date and reflects on such recent developments as the 2007 French presidential election the promotion of nuclear power as the solution to climate change and France's aggressive exporting of nuclear technology **France in the Age of Organization** Jackie Clarke, 2011-06-01 In interwar France there was a growing sense that organization was the solution to the nation's perceived social economic and political ills This book examines the roots of this idea in the industrial rationalization movement and its manifestations in areas as diverse as domestic organization and economic planning In doing so it shows how experts in fields ranging from engineering to the

biological sciences shaped visions of a rational socio economic order from the 1920s to Vichy and beyond **Writing Quebec** Hubert Aquin,1988 No description *To Resist or to Surrender?* Paul Tournier,2012-09-01 No one has the right to equate Christianity with weakness or to imagine that the Bible teaches us always to surrender The biblical message proclaims the sovereign greatness of God which transcends all lesser principles or standards which we might wish to draw from it Man s great temptation is to want to know by himself what is good and what is evil He wants to know whether he should withstand or not but without needing any counsel from God What is good in the Bible is not this thing or that It is not a matter of resisting or giving in It is doing what God wants and when he wants it it is total dependence upon his person not upon a moral code **Cash Cow** Elise Desaulniers,2015-08-19 A popular and respected blogger in Qu bec Canada lise Desaulniers is a food ethics and animal rights advocate who is also interested in public policy philosophy and feminism In Cash Cow she takes a hard look at the dairy industry and how it has persuaded the general public of the naturalness and value of cows milk in the human diet Desaulniers asks just who really benefits from the promotion of dairy and just how effectively animal welfare and small farming operations can be protected in an age of consolidation and confinement

Piers Ludlow,Bernd Rother,2012-03-01 Exploring the visions of the end of the Cold War that have been put forth since its inception until its actual ending this volume brings to the fore the reflections programmes and strategies that were intended to call into question the bipolar system and replace it with alternative approaches or concepts These visions were associated not only with prominent individuals organized groups and civil societies but were also connected to specific historical processes or events They ranged from actual thoroughly conceived programmes to more blurred utopian aspirations or simply the belief that the Cold War had already in effect come
