Plain Seeing:

Hidden in Plain Sight John T. Matthews, 2020-04-22 For as long as the United States owed its prosperity to a New World plantation complex from colonial settlement until well into the twentieth century the toxic practices associated with its permutations stimulated imaginary solutions to the contradiction with the nation's enlightenment ideals and republican ideology. Ideals of liberty, democracy, and individualism could not be separated from a history of forcible coercion, oligarchic power, and state-protected economic opportunism. While recent historical scholarship about the relation of capitalism to slavery explores the depths at which U.S. ascension was indebted to global plantation slave economies, John T. Matthews probes how exemplary works of literature represented the determination to deny the open secret of a national atrocity. Difficult truths were hidden in plain sight, allowing beholders at once to recognize and disavow knowledge they would not act on. What were the habits of mind that enabled free Americans to acknowledge what was intolerable yet act as if they did not? In what ways did non-slave-owning Americans imagine a relation to slavery that both admitted its iniquity and accepted its benefits? How did the reconfiguration of the plantation system after the Civil War elicit new literary forms for dealing with its perpetuation of racial injustice, expropriation of labor, and exploitation for profit of the land? *Hidden in Plain Sight* examines signal nineteenth-century works by Edgar Allan Poe, Nathaniel Hawthorne, Herman Melville, and Joel Chandler Harris to show how writers portrayed a nation founded on the unseen seen of slavery's capitalism. **Proving Federal Crimes** James C. Cissell, 1980

Hidden in Plain View Jacqueline L. Tobin, Raymond G. Dobard, 2011-05-25 The fascinating story of a friendship, a lost tradition, and an incredible discovery revealing how enslaved men and women made encoded quilts and then used them to navigate their escape on the Underground Railroad. In *Hidden in Plain View*, historian Jacqueline Tobin and scholar Raymond Dobard offer the first proof that certain quilt patterns, including a prominent one called the Charleston Code, were in fact essential tools for escape along the Underground Railroad. In 1993, historian Jacqueline Tobin met African American quilter Ozella Williams amid piles of beautiful handmade quilts in the Old Market Building of Charleston, South Carolina. With the admonition to write this down, Williams began to describe how slaves made coded quilts and used them to navigate their escape on the Underground Railroad. But just as quickly as she started, Williams stopped informing Tobin that she would learn the rest when she was ready. During the three years it took for Williams's narrative to unfold and as the friendship and trust between the two women grew, Tobin enlisted Raymond Dobard, Ph.D., an art history professor and well-known African American quilter, to help unravel the mystery. Part adventure and part history, *Hidden in Plain View* traces the origin of the Charleston Code from Africa to the Carolinas, from the low-country island Gullah peoples to free blacks living in the cities of the North, and shows how three people from completely different backgrounds pieced together one amazing American story. With a new afterword, illustrations, and photographs throughout, including a full-color photo insert.
