Plains Of The Great West Their Inhabit:

Mestengo Melinda Roth, 2013-09-18 Exhausted by her job as a political press secretary Melinda Roth found the courage to escape Her goal a simpler life in rural Illinois that would let her pursue her passion for writing But then real life intervened A fire at a neighboring farm and a misinterpreted gesture of kindness transformed her into the reluctant caretaker of a homeless menagerie of animals Roth coauthor of the New York Times bestseller *From Baghdad with Love* writes vividly movingly and often humorously of the chaos that descended into her life One of her new tenants was a wild mustang broken but not bowed his restless spirit propelling him to escape the fences and pens that enclosed him a far different life than before he was violently captured by a government sponsored round up Ultimately these two fiercely independent characters each provide the catalyst for the other s life changing and life affirming decisions Mestengo is a captivating emotional account that taps into readers love of animals Marley and Me meets The Horse Whisperer An entertaining and delightful read it is a cinematic sometimes tense but always beautiful story of the power of healing

Catalogue Cadmus Book Shop, 1919 **Mr. Hornaday's War** Stefan Bechtel, 2012-05-15 He was complex quirky pugnacious and difficult He seemed to create enemies wherever he went even among his friends A fireplug of a man who stood only five feet eight inches in his stocking feet he began as a taxidermist and an adventurer who tracked tigers in Borneo with friendly headhunters lead crocodile hunting expeditions in the Orinoco and scouted the last remaining bison in the Montana territories William Temple Hornaday 1854 1937 was also a man ahead of his time He was the most influential conservationist of the nineteenth century second only to his great friend and ally Theodore Roosevelt When this one time big game collector witnessed the wanton destruction of wildlife prevalent in the Victorian era he experienced an awakening and devoted the rest of his life to protecting our planet s endangered species Hornaday founded the National Zoo in Washington D C served for thirty years as director of the renowned Bronx Zoo and became a fierce defender of wild animals and wild places He devoted fifty years to fighting gun manufacturers poachers scandalously lax game protection laws and the vast apathy of the American public He waged the Plume Wars against the feathered hat industry and is credited with having saved both the Alaskan fur seal and the American bison from outright extinction Mr Hornaday s War restores this major figure to his rightful place as one of the giants of the modern conservation movement But Stefan Bechtel also explores the grinding contradictions of Hornaday s life Though he crusaded against the wholesale slaughter of wildlife he was at one time a trophy hunter and what happened in 1906 at the Bronx Zoo when Hornaday displayed an African man in an ethnographic exhibit shows a side of him that is as baffling as it is repellant This gripping book takes an honest look at a fascinating enigmatic man who both represented and transcended his era s paradoxical approach to wildlife and who profoundly changed the course of the conservation movement for generations to come *Proceedings of the American Society of Civil Engineers* American Society of Civil Engineers, 1878 Complete Dictionary Catalogue of the Public School Library of Grand

Rapids, Michigan Grand Rapids Public Library (Grand Rapids, Mich.),1892 Ecology and Ethnogenesis Adam R. Hodge,2019-04-01 In Ecology and Ethnogenesis Adam R Hodge argues that the Eastern Shoshone tribe now located on the Wind River Reservation in Wyoming underwent a process of ethnogenesis through cultural attachment to its physical environment that proved integral to its survival and existence He explores the intersection of environmental indigenous and gender history to illuminate the historic roots of the Eastern Shoshone bands that inhabited the intermountain West during the nineteenth century Hodge presents an impressive longue dur e narrative of Eastern Shoshone history from roughly 1000 CE to 1868 analyzing the major developments that influenced Shoshone culture and identity Geographically spanning the Great Basin Rocky Mountain Columbia Plateau and Great Plains regions Ecology and Ethnogenesis engages environmental history to explore the synergistic relationship between the subsistence methods of indigenous people and the lands that they inhabited prior to the reservation era In examining that history Hodge treats Shoshones other Native peoples and Euroamericans as agents who through their use of the environment were major components of much broader ecosystems The story of the Eastern Shoshones over eight hundred years is an epic story of ecological transformation human agency and cultural adaptation Ecology and Ethnogenesis is a major contribution to environmental history ethnohistory and Native American history It explores Eastern Shoshone ethnogenesis based on interdisciplinary research in history archaeology anthropology and the natural sciences in devoting more attention to the dynamic and often traumatic history of precontact Native America and to how the deeper past profoundly influenced the postcontact era **Proceedings** American Society of Civil Engineers,1876 **Farnham's Travels in the Great Western Prairies, Etc., May 21-[December 4, 1839] ...** Thomas Jefferson Farnham,1906 *West American History* Hubert Howe Bancroft,1902 **Crazy Horse Called Them Walk-a-heaps** Neil B.
