Plan 9 From Outer Space:

Plan 9 from Outer Space: the Original Uncensored Screenplay Edward Wood, 2013-04-15 It's been called the worst movie of all time. Now is YOUR chance to read the original uncensored screenplay of Ed Wood's infamous film Plan 9 from Outer Space and judge for yourself. Originally titled Grave Robbers from Outer Space, Wood reportedly wrote the film's script from start to finish in a matter of days following the untimely death of the film's star Bela Lugosi. The movie became Plan 9 from Outer Space when, according to legend, the Baptist church funding part of the project found the original title to be highly offensive. Both titles are contained on the script you have before you, a found and unaltered copy of the script that many believe to be the working version used by Ed Wood while filming the movie. Featuring hand-written annotations and corrections alongside the dialogue and scene descriptions that were hammered out on a typewriter back in 1956, including content that never made it to the finished version of the film, this is a definitive collector's item for any fans of Plan 9, Ed Wood, or horror sci-fi B movie mania in general.

Zombie Movies Glenn Kay, 2008-10 Featuring chronological reviews of more than 300 zombie films from 1932's *White Zombie* to George A. Romero's 2008 release *Diary of the Dead*, this thorough uproarious guide traces the evolution of one of horror cinema's most popular and terrifying creations. Fans will learn exactly what makes a zombie a zombie, go behind the scenes with a chilling production diary from *Land of the Dead*, peruse a bizarre list of the oddest things ever seen in undead cinema, and immerse themselves in a detailed rundown of the 25 greatest zombie films ever made. Containing an illustrated zombie rating system ranging from Highly Recommended to Avoid at All Costs, and so bad it's good, the book also features lengthy interviews with numerous talents from in front of and behind the camera.

Ed Wood, Mad Genius Rob Craig, 2009-09-12 Filmmaker Ed Wood was controversial and critically maligned, even labeled the worst director of all time, yet he achieved cult status and remains of great interest today. This book frames Wood's work, such as the cross-dressing-themed *Glen or Glenda* and the haphazard *Bride of the Monster*, as reflections of the culture of their era. Wood invariably worked with infinitesimal budgets, shooting at breakneck speed, incorporating plot twists that defied all logic. Yet there was a tangible, if unfocused, thematic thrust to Wood's films, which meditate fitfully on gender, religion, and society, revealing a holy trinity of fixations: sex, death, and resurrection. Wood's infamous *Plan 9 From Outer Space* encapsulates the fixations and flaws that were his hallmarks, and with 22 other films, is explored here. A filmography and 47 photographs are included.

along which biopics traverse and showcase American lives even as they modify the various notions of the national character. A provocative critically astute study, this collection examines the biopic as a reflexive refractive modernist film genre. Admirably researched essays provide close compelling readings of chosen films while exploring the multilayered matrices of historical fact, biographical and autobiographical literature, popular media representations and cultural histories shaping not only the lives and narratives of the performers, artists and political historical figures represented but also the practices of the filmmakers as they worked within or on the margins of the Hollywood industry. Cynthia Lucia Rider, University of The South. The volume's greatest strengths include its range, its variety of ideas on the significance of the biopic and its research definitive in several cases into the relation between historical figures and their cinematic counterparts. James Morrison, author of *Passport to Hollywood: Hollywood Films, European Directors*. **Once Upon a Time** Peter Kivy, Aaron Meskin, 2019-08-07. *Once Upon a Time* is a collection of essays in the philosophy of literature with two central themes: the significance of story telling for us and the question of whether the novel, perhaps the art form most closely associated with story telling, is a legitimate source of human knowledge. Leading philosopher of art Peter Kivy explores why human beings are so enthralled by being told stories and whether story telling is a significant source of knowledge. Starting with a study of Aristotle's *Poetics*, Kivy then undertakes a critical discussion of Noel Carroll's suggestion that our interaction with the artists of the past is a kind of conversation. He goes on to defend the thesis that one of the legitimate artistic pleasures we take in novel reading is the acquiring of knowledge and furthermore that the silent reading of a novel is a kind of performance making the novel one of the performing arts. The volume concludes with a chapter about jokes and in particular whether it is immoral to tell or be amused by an immoral joke. This volume of essays is a must read for anyone seriously interested in literature and the conceptual problems it may raise for philosophers.
