Exercise: Geometric Shapes

A shape is an image in space.

In creative work, we see all kinds of shapes. How do shapes play a role in your art? There are two kinds of shapes I want you to think about: geometric shapes and organic shapes. Geometric shapes, such as circles, triangles, squares, etc., are often used in mathematics, and most buildings, logos, and icons are geometric shapes. Organic shapes are free forms that we find in nature, and most living things are organic shapes. They are familiar to us and inspired by the natural world.

Instructions: Sketch some of your designs on top of the geometric shapes in the template below. Place your designs in different areas of the shapes and see how they look.
