Radiation Accidents Emergencies In Med:

Medical Management of Radiation Accidents Theodor M. Fliedner, I. Friesecke, K. Beyrer, 2001 This text from the British Institute of Radiology provides an international standard for the evaluation of radiation induced health impairments which should make a useful contribution to the harmonization and standardization of the Medical Management of Radiation Accidents Medical Management of Radiation Accidents Kenneth S. Cohen, 2001-03-28 Although radiation accidents are rare and often complex in nature they are of great concern not only to the patient and involved medical staff but to the media and public as well Yet there are few if any comprehensive publications on the medical management of radiation accidents Medical Management of Radiation Accidents provides a complete reference

Emergency and Disaster Medicine C. Manni, S.I. Magalini, 2012-12-06 C Manni The focusing of general interest and of many disciplines on disaster medicine is an interesting and recent phenomenon in our society Disasters have by now left the historical and philosophical sphere and finally entered the operational arena Modern man in other words no longer accepts disasters in a passive and fatalistic manner but claims to be able to control them like so many other forces of nature The new approach is aimed at preventing containing and remedying the invariably tragic consequences of these events The role of medicine in this context is of fundamental importance and is characterized by two main aspects application of techniques of intervention appropriately and effectively and collaboration with the general organization assuming responsibility for the protection of health and the treatment of injuries Following a period of more or less chaotic growth during which sectionalism and empirical interests prevailed and localized aspects of this new discipline underwent considerable development a need is now felt to propose and realize a more comprehensive scientific approach It has become necessary to identify and to rationally analyze the individual components of this branch of medicine As in any analysis the recognition of the object of the research is of fundamental importance hence the title of this first round table

Types and Events of Disaster Medical Management of Radiation Injuries IAEA, 2020-06-11 This publication focuses on the medical management of individuals involved in radiation emergencies especially those who have been exposed to high doses of ionizing radiation Its primary objective is to provide practical information to be used for treatment decisions by medical personnel during a radiation emergency It also addresses general and specific measures for the medical management of individuals who have been internally contaminated with radionuclides This publication is complementary to other publications developed by the IAEA in the medical area of radiation emergencies
