*Repetition, Deconstruction,
and the Hermeneutic Project*

JOHN D. CAPUTO

Radical Hermeneutics Repetition Deconstruction And The Hermeneutic Project

Marco Cascella

Radical Hermeneutics Repetition Deconstruction And The Hermeneutic Project:

Radical Hermeneutics John D. Caputo, 1988-01-22 Radical Hermeneutics forges a closer collaboration between hermeneutics and deconstruction than has previously been attempted For John D Caputo hermeneutics means radical thinking without transcendental justification attending to the ruptures and irregularities in existence before the metaphysics of presence has a chance to smooth them over Part One shows how Kierkegaardian repetition and Husserlian constitution are fused in Heidegger's classic of hermeneutic statement *Being and Time* Part Two takes up the radicalization of Husserl's and Heidegger's questioning carried out by Derrida Here Caputo urges a more radical reading of Heidegger as well as a more hermeneutic reading of Derrida Part Three argues that radical thinking is not an exercise in nihilism as its critics charge but a renewed vigilance about the gaps and differences inherent in our experience Caputo projects the possibility of a postmetaphysical conception of rationality an ethics of dissemination and a notion of faith liberated from the onto theologic Radical Hermeneutics addresses the most trenchant issues in recent Continental thought Deconstructing Undecidability Michael Oliver, 2020-02-06 Advancing current readings of the deconstructive work of Jacques Derrida *Deconstructing Undecidability* critically explores the problematic nature of decision including the inherent exclusivity that accompanies any decision In discourses where a pursuit of justice or liberation from systemic oppression is a primary concern Michael Oliver argues for an appreciation of the inescapability of making limited difficult decisions for particular forms of justice Oliver highlights a similarly precarious predicament in the context of philosophical and religious negotiations of divine decision pointing to the impossibility of safely navigating this issue While wholeheartedly affirming the problem of exclusivity that inevitably accompanies decision this book offers a renewed sense of undecidability that highlights a mistaken illusory position of indecision as a reflection of power and privilege Ultimately this book aims to gain a greater appreciation for the complexity of the problem of decision in order to be more rigorous and transparent in our continued engagement with it

The End of Philosophy of Religion Nick Trakakis, 2008-01-01 An expert examination of the analytic continental divide in the writing and study of philosophy of religion *The Philosophy of Derrida* Mark Dooley, Liam Kavanagh, 2014-12-18 For more than forty years Jacques Derrida has attempted to unsettle and disturb the presumptions underlying many of our most fundamental philosophical political and ethical conventions In *The Philosophy of Derrida* Mark Dooley examines Derrida's large body of work to provide an overview of his core philosophical ideas and a balanced appraisal of their lasting impact One of the author's primary aims is to make accessible Derrida's writings by discussing them in a vernacular that renders them less opaque and nebulous Derrida's unusual writing style which mixes literary and philosophical vocabularies is shown to have hindered their interpretation and translation Dooley situates Derrida squarely in the tradition of historicist hermeneutic and linguistic thought and Derrida's objectives and those of deconstruction are rendered considerably more convincing While Derrida's works are ostensibly diverse Dooley reveals an underlying cohesion to his writings From his early work on Husserl

Hegel and de Saussure to his most recent writings on justice hospitality and cosmopolitanism Derrida is shown to have been grappling with the vexed question of national cultural and personal identity and asking to what extent the notion of a pure identity has any real efficacy Viewed from this perspective Derrida appears less as a wanton iconoclast for whom deconstruction equals destruction but as a sincere and sensitive writer who encourages us to shed light on our historical constructions so as to reveal that there is much about ourselves that we do not know Mind the Gap: Borders, Limits and Frontiers Cahir Healy, 2025-05-19 How do borders define political cultural and social realms influencing identity and community Mind the Gap Borders Limits and Frontiers explores such questions and comprises two parts the first section compiles interdisciplinary essays from leading scholars to critique borders in our global yet divided world Topics include national borders such as the Northern Irish border as well as conceptual and ontological borders more generally Border issues are similarly key to the second part of the book which publishes for the first time the imprisonment memoir of Irish politician Cahir Healy 1877 1970 who was a leading figure in the protest against the Partition of Ireland His memoir offers a first hand account of the conditions faced by Healy and other border objectors who were illegally imprisoned for two years on board the Argenta ship in Belfast Lough c 1922 1924 This book therefore goes beyond mapping border theory it addresses the real life impact of borders on those who confront them daily and is a vital read for those interested in border studies

Post-deconstructive Subjectivity and History Aniruddha Chowdhury, 2013-09-19 In Post Deconstructive Subjectivity and History Aniruddha Chowdhury argues that deconstruction is not only not a dissolution of subject as it is often opined but an affirmation of the singular ethical subject and singular history singularity conceived as alterity difference and non identity Part of the emphasis of the singular history is to conceive the historical relation as figural and as one of repletion with difference One of the distinctive aspects of the book is that it not only focuses on the tradition of phenomenology but also extends deconstruction to critical theory and postcolonial theory Through his intimate reading of the canonical texts of the Continental philosophical tradition phenomenology and critical theory and postcolonial thought Chowdhury illuminates pertinent issues in Continental thought and postcolonial theory **Phenomenology** Leonard Lawlor, 2014-09-03 After Husserl the study of phenomenology took off in different directions The ambiguity inherent in phenomenology between conscious experience and structural conditions lent itself to a range of interpretations Many existentialists developed phenomenology as conscious experience to analyse ethics and religion Other phenomenologists developed notions of structural conditions to explore questions of science mathematics and conceptualization Phenomenology Responses and Developments covers all the major innovators in phenomenology notably Sartre Merleau Ponty and the later Heidegger and the major schools and issues The volume also shows how phenomenological thinking encounters a limit a limit most apparent in the aesthetical and hermeneutical development of phenomenology The volume closes with an examination of the furthering of the division between analytic and continental philosophy **The Routledge Companion to the Study of**

Religion John Hinnells, 2009-09-10 The Routledge Companion to the Study of Religion is a major resource for courses in Religious Studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues such as gender science fundamentalism ritual and new religious movements Written by renowned international specialists this new edition includes eight new chapters including post structuralism religion and economics religion and the environment religion and popular culture and sacred space surveys the history of religious studies and the key disciplinary approaches explains why the study of religion is relevant in today's world highlights contemporary issues such as globalization diaspora and politics includes annotated reading lists a glossary and summaries of key points to assist student learning

International Encyclopedia of Education, 2009-04-17 The field of education has experienced extraordinary technological societal and institutional change in recent years making it one of the most fascinating yet complex fields of study in social science Unequalled in its combination of authoritative scholarship and comprehensive coverage International Encyclopedia of Education Third Edition succeeds two highly successful previous editions 1985 1994 in aiming to encapsulate research in this vibrant field for the twenty first century reader Under development for five years this work encompasses over 1 000 articles across 24 individual areas of coverage and is expected to become the dominant resource in the field Education is a multidisciplinary and international field drawing on a wide range of social sciences and humanities disciplines and this new edition comprehensively matches this diversity The diverse background and multidisciplinary subject coverage of the Editorial Board ensure a balanced and objective academic framework with 1 500 contributors representing over 100 countries capturing a complete portrait of this evolving field A totally new work revamped with a wholly new editorial board structure and brand new list of meta sections and articles Developed by an international panel of editors and authors drawn from senior academia Web enhanced with supplementary multimedia audio and video files hotlinked to relevant references and sources for further study Incorporates ca 1 350 articles with timely coverage of such topics as technology and learning demography and social change globalization and adult learning to name a few Offers two content delivery options print and online the latter of which provides anytime anywhere access for multiple users and superior search functionality via

The Adventure of Weak Theology Štefan Štofaník, 2018-10-16 In this distinctive exploration of John D Caputo's work Štefan Štofaník traces Caputo's journey of philosophical discovery from his earlier more conventional academic writings to his later almost confessional works of weak theology and his deep engagement with Derrida Štofaník draws upon Caputo's life story to help explain sudden shifts in Caputo's thinking offers intricate readings of philosophical passages that have all too often been taken for granted and joins in Caputo's effort to find a theology that can be trusted and that does not rely upon dogmatic and hierarchical authority At the same time Štofaník subtly disagrees with aspects of Caputo's view and turns to the work of Antoine de Saint Exupéry as a

way to suggest that one cannot take leave of the tradition of theology as easily as Caputo thinks. At times *The Adventure of Weak Theology* reads like a letter to Caputo and to fan his own passion for theology, his deep understanding of Caputo's work and his gift for writing makes this an immensely appealing book for both admirers and critics of Caputo.

Immerse yourself in heartwarming tales of love and emotion with Crafted by is touching creation, Experience Loveis Journey in **Radical Hermeneutics Repetition Deconstruction And The Hermeneutic Project** .
