Classical Sociology Beyond Methodological Nationalism, 2014-04-17 Classical Sociology Beyond Methodological Nationalism defends classical sociology from the accusation of methodological nationalism To reject such accusation the volume presents three arguments The first contends that classical sociology has not failed to deal with the global world Part I The second that classical sociology has more frequently dealt with the transnational category of the social rather than with the national Part II The third that where classical sociology has analysed national society the latter has never been envisaged as a rigidly confined entity within its political boundaries Part III The outcome is a re evaluation of classical sociological thought as a more functional tool for analysing the political forms of modernity in the era of globalisation Contributors include Vittorio Cotesta David Inglis Austin Harrington Massimo Pendenza Michael Schillmeier Emanuela Susca Dario Verderame and Federico Trocini

The Ethnological Imagination Fuyuki Kurasawa, 2004 Fuyuki Kurasawa unearths what he terms the ethnological imagination a substantial countercurrent of thought that interprets and contests Western modernity's existing social order through comparison and contrast to a non Western other Kurasawa traces and critiques the writings of some of the key architects of this way of thinking Jean Jacques Rousseau Karl Marx Max Weber Emile Durkheim Claude Levi

Strauss and Michel Foucault In the work of these thinkers Kurasawa finds little justification for two of the most prevalent claims about social theory the wholesale postmodern dismissal of the social theoretical enterprise because of its supposedly intractable ethnocentrism and imperialism or on the other hand the traditionalist and historicist revival of a canon stripped of its intercultural foundations Kurasawa's book defends a cultural perspective that eschews both the false universalism of end of history scenarios and the radical particularism embodied in the vision of the clash of civilizations It contends that the ethnological imagination can invigorate critical social theory by informing its response to an increasingly multicultural world a response that calls for a reconsideration of the identity and boundaries of the West *The Social Thought of Emile*

some as the most important level of human reality while others deny its existence outright Taking the example of France between the Enlightenment and the Second World War this book recounts the debates among thinkers and scholars on the nature of the social By way of an original analysis of the work of many key figures in the history of French thought the author convincingly demonstrates the strength of the connection between social theories and political projects He pays particular attention to conceptual and terminological developments thereby shedding a new light on the history of some core concepts of the human sciences such as society culture and civilisation **Durkheim Today** W. Graeber, 2001-12-13 Now a widely cited classic this innovative book is the first comprehensive synthesis of economic political and cultural theories of value David Graeber reexamines a century of anthropological thought about value and exchange in large measure to find a way out of ongoing quandaries in current social theory which have become critical at the present moment of ideological collapse in the face of Neoliberalism Rooted in an engaged dynamic realism Graeber argues that projects of cultural comparison are in a sense necessarily revolutionary projects He attempts to synthesize the best insights of Karl Marx and Marcel Mauss arguing that these figures represent two extreme but ultimately complementary possibilities in the shape such a project might take Graeber breathes new life into the classic anthropological texts on exchange value and economy He rethinks the cases of Iroquois wampum Pacific kula exchanges and the Kwakiutl potlatch within the flow of world historical processes and recasts value as a model of human meaning making which far exceeds rationalist reductive economist paradigms
