Radical Artifice Writing Poetry In The Age Of Media:

Radical Artifice Marjorie Perloff, 1991 Explores the intricate relationships of postmodern poetics to the culture of network television advertising layout and the computer Perloff argues that poetry today like the visual arts and theater is always contaminated by the language of mass media Among the many poets Perloff discusses are John Ashbery George Oppen Susan Howe Clark Coolidge Lyn Hejinian Leslie Scalapino Charles Bernstein Johanna Drucker Steve McCaffery and preeminently John Cage Publisher **The Testimonies of Russian and American Postmodern Poetry** Albena

Lutzkanova-Vassileva, 2016-06-30 This book challenges the belief in the purely linguistic nature of contemporary poetry and offers an interpretation of late twentieth century Russian poetry as a testimony to the unforeseen annulment of communist reality and its overnight displacement by a completely unfathomable post totalitarian order Albena Lutzkanova Vassileva argues that because of the sudden invalidation of a reality that had been largely seen as unattained and everlasting this shift remained secluded from the mind and totally resistant to cognition thus causing a collectively traumatic psychological experience The book proceeds by inquiring into a school of contemporary American poetry that has been likewise read as cut off from reality Executing a comparative analysis Vassileva advances a new understanding of this poetry as a testimony to the overwhelming and traumatic impact of contemporary media which have assailed the mind with far more signals than it can register digest and furnish with semantic weight **Poetic Acts & New Media** Tom O'Connor, 2006 Poetic Acts New Media

advances the fields of literary and new media studies by clarifying boundaries between competing genres and media through the creation of a new artistic genre media poetry This aesthetic mode of expression becoming seeks to transform mass culture our codes of communication by self consciously acknowledging how textual audio and or visual signs are constructed according to their simulation and not their representation This study draws heavily upon literary media theories that intersect with Gilles Deleuze's philosophy of Sense as a simulated power of sensory transformations Media poetry becomes a complex power of Sense by blending conventional mass media codes with poetic simulations that provide alternative forms of creating meaning Poetic Acts New Media specifically examines the works of several poets that exemplify this multi sensory approach to printed text poetry especially Langston Hughes Tony Medina David Wojahn John Kinsella David Trinidad It also analyzes several contemporary films that embody the multi modal logic of media poetry David Lynch's Mullholland Drive Cameron Crowe's Vanilla Sky Spike Jonze's Being John Malkovich In addition this study interprets two influential primetime TV shows as exemplars of media poetry Twin Peaks and Buffy the Vampire Slayer All media poetry regardless of genre or medium allows readers viewers to envision reality production as a rewriteable and poetic enterprise that can productively remediate any transparent abstraction or common sense realism **Poetry in the Digital Age** Claudia Benthien, Vadim Keylin, Henrik Wehmeier, 2025-10-14 As a multifaceted and intermedial phenomenon poetry in the digital age not only demands a rethinking and expansion of the traditional paradigms of literary studies but also attracts increasing attention

from other humanities This interdisciplinary handbook is thus addressed both to literary scholars and to the broadest academic audience interested in contemporary poetry research It offers 50 contributions by an international collective of authors that highlight the diversity of contemporary poetry examining it from a wide variety of complementing theoretical and methodological angles The handbook focuses on contemporary modes of poetry presentation that are often located beyond the book e g on stages in public spaces as multi as well as transmedia publications or on digital platforms Such intermedial poetic practices which may supplement poetic language with elements borrowed from music visual art cinema or theater and performance are transforming the forms and functions of poetry It four parts thus 1 adapt established concepts and parameters of poetry research to the digital age 2 explore established genres and emerging formats 3 introduce interdisciplinary perspectives and new research fields and 4 engage in current debates

The Oxford History of the Novel in English Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

essential aspect of media studies **Contemporary Poets** Harold Bloom, 2010 From the modernist explorations of the first half of the 20th century to the diverse styles and practitioners of the 21st century contemporary American poetry has forged a vital and enduring tradition This volume explores the genre's recent history and development as succeeding generations of poets have taken up the American idiom and molded it into their own unique modes of expression This new edition explores contemporary poetry through a selection of critical essays and also features an introductory essay by esteemed professor Harold Bloom The Poetics of Scale Conrad Steel, 2024-02-19 Since the start of the twentieth century poets have been irresistibly drawn to the image of the poem as a kind of data handling a way of mediating between the divergent scales of aesthetics and infrastructure language and technology Conrad Steel shows how the history of poetry with its particular formal affordances and the particular hopes and fears we invest it with has always been bound up with our changing logistics of macroscale representation The Poetics of Scale takes us back to the years before the First World War in Paris where the poet Guillaume Apollinaire claimed to have invented a new mode of poetry large enough to take on the challenges of the coming twentieth century This history follows Apollinaire's ideas across the Atlantic and examines how and why his work became such a vital source of inspiration for American poets through the era of intensive American economic expansion and up to the present day Threading together Apollinaire's work in the 1910s with three of his American successors Louis Zukofsky in the 1930s Allen Ginsberg in the 1950s and Alice Notley from the 1970s onward it shows how poetry as a cultural technique became the crucial test case for the scale of our collective imagination *Contemporary Irish Women Poets* Lucy Collins, 2015-09-14 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library This study examines the intersection of private and public spheres through the representation of memory in contemporary poetry by Irish women Collins explores how memory shapes creativity in the work of well known poets such as Eavan Boland Eilín Ní Chuiléain and Medbh McGuckian as well as in that of an exciting group of younger poets This book analyses for the first time the complex responses to the past recorded by contemporary women poets in Ireland and the implications these have for the concept of a national tradition **Bookend** Joe Amato, 1997-07-10 Bookend challenges distinctions between prose and poetry as well as between popular and academic culture embodying a wide array of poetic techniques to argue that form and structure are themselves essential to artistic and cultural meaning It critiques the current media environs a hybrid reality in which the individual encounters his or her public and private selves in the midst of a crisis of values Each of the five anatomies represents both a personal and a local account of where the author finds himself in social and educational terms and an attempt is made throughout to situate this individual experience against a global imperative Mass Media James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events

and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes
