Radical Tradition:

The Radical Reader Timothy Patrick McCarthy, John Campbell McMillian, 2011-05-10 Radicalism is as American as apple pie One can scarcely imagine what American society would look like without the abolitionists feminists socialists union organizers civil rights workers gay and lesbian activists and environmentalists who have fought stubbornly to breathe life into the promises of freedom and equality that lie at the heart of American democracy The first anthology of its kind The Radical Reader brings together more than 200 primary documents in a comprehensive collection of the writings of America's native radical tradition Spanning the time from the colonial period to the twenty first century the documents have been drawn from a wealth of sources speeches manifestos newspaper editorials literature pamphlets and private letters From Thomas Paine's Common Sense to Kate Millett's Sexual Politics these are the documents that sparked guided and distilled the most influential movements in American history Brief introductory essays by the editors provide a rich biographical and historical context for each selection included **Black Marxism, Revised and Updated Third Edition** Cedric J. Robinson, 2020-12-16 In this ambitious work first published in 1983 Cedric Robinson demonstrates that efforts to understand Black people's history of resistance solely through the prism of Marxist theory are incomplete and inaccurate Marxist analyses tend to presuppose European models of history and experience that downplay the significance of Black people and Black communities as agents of change and resistance Black radicalism Robinson argues must be linked to the traditions of Africa and the unique experiences of Blacks on Western continents and any analyses of African American history need to acknowledge this To illustrate his argument Robinson traces the emergence of Marxist ideology in Europe the resistance by Blacks in historically oppressive environments and the influence of both of these traditions on such important twentieth century Black radical thinkers as W E B Du Bois C L R James and Richard Wright This revised and updated third edition includes a new preface by Tiffany Willoughby Herard and a new foreword by Robin D G Kelley Cape Radicals Crain Soudien, 2019-06-01 The history of a radical group of intellectuals who founded the New Era Fellowship which shaped human rights precedents and social justice policy in South Africa In 1937 a group of young Capetonians socialist intellectuals from the Workers Party of South Africa embarked on a project they called the New Era Fellowship NEF In doing so they sought to disrupt and challenge not only prevailing political narratives but the very premises class and race on which they were based In different forums public debates lectures study circles and cultural events the seeds of radical thinking were planted nurtured and brought to full flower Taking a position of non collaboration and non racialism the NEF played a vital role in challenging society's responses to events ranging from the problem of taking up arms during the Second World War for an empire intent on stripping people of colour of their human rights to the Hertzog Bills which foreshadowed apartheid in all its ruthless effectiveness In subsequent narratives of liberation their significance has been overlooked even disparaged and has never been fully understood and acknowledged By shining a contemporary light on the NEF and locating its contribution in

current sociological and political discourse educationist Crain Soudien shows how its members were at the forefront of redefining the debate about social difference in a racially divided society

Chartism, Commemoration and the Cult of the Radical Hero Matthew Roberts, 2019-08-15 Chartism the British mass movement for democratic and social rights in the 1830s and 1840s was profoundly shaped by the radical tradition from which it emerged Yet little attention has been paid to how Chartists saw themselves in relation to this diverse radical tradition or to the ways in which they invented their own tradition Paine Cobbett and other founding fathers dead and alive were used and in some cases abused by Chartists in their own attempts to invent a radical tradition By drawing on new and exciting work in the fields of visual and material culture cultures of heroism memory and commemoration critical heritage studies and the history of political thought this book explores the complex cultural work that radical heroes were made to perform

Glenn Burgess, Matthew Festenstein, 2007-02 An exploration of the place of radical ideas and activity in English political and social history over three centuries Its core concern is whether a long term history of radicalism can be written Are the things that historians label radical linked into a single complex radical tradition or are they separate phenomena linked only by the minds and language of historians Does the historiography of radicalism uncover a repressed dimension of English history or is it a construct that serves the needs of the present more than the understanding of the past The book contains a variety of answers to these questions As well as an introduction and eleven substantive chapters it also includes two afterwords which reflect on the implications of the book as a whole for the study of radicalism The distinguished list of contributors is drawn from a variety of disciplines including history political science and literary studies Radical Economics Bruce
