Radicalism In British Literary Culture 1650 1830 From Revolution To Revolution:

Radicalism in British Literary Culture, 1650-1830 Timothy Morton, Nigel Smith, 2002-01-03 This study examines the radical tradition in British literary culture from the English Revolution to the French Revolution It charts continuities between the two periods and examines the recuperation of ideas and texts from the earlier period in the 1790s and beyond The volume argues that the radical agendas of the mid seventeenth century intended to change society fundamentally did not disappear throughout the long eighteenth century only to be resuscitated at its close Rather through close textual analysis these essays indicate a more continuous transmission Shelley's Radical Stages Dana Van Kooy, 2016-03-31 Dana Van Kooy draws critical attention to Percy Bysshe Shelley as a dramatist and argues that his dramas represent a critical paradigm of romanticism in which history is staged Reading Shelley s dramas as a series of radical stages historical reenactments and theatrical reproductions Van Kooy highlights the cultural significance of the drama and the theatre in shaping and contesting constructions of both the sovereign nation and the global empire in the post Napoleonic era This book is about the power of performance to challenge and reformulate cultural memories that were locked in historical narratives and in Britain s theatrical repertoire It examines each of Shelley s dramas as a specific radical stage that reformulates the familiar cultural performances of war revolution slavery and domestic tyranny Shelley s plays invite audiences to step away from these horrors and to imagine their lives as something other than a tragedy or a melodrama where characters are entrapped in cycles of violence or struck blind or silent by fear Although Shelley s dramas are few in number they engage a larger cultural project of aesthetic and political reform that constituted a groundswell of activism that took place during the Romantic period **The Cambridge Companion to British Literature of the French Revolution in the 1790s** Pamela Clemit, 2011-02-10 The French Revolution ignited the biggest debate on politics and society in Britain since the Civil War 150 years earlier The public controversy lasted from the initial positive reaction to French events in 1789 to the outlawing of the radical societies in 1799 This Cambridge Companion highlights the energy variety and inventiveness of the literature written in response to events in France and the political reaction at home It contains thirteen specially commissioned essays by an international team of historians and literary scholars a chronology of events and publications and an extensive guide to further reading Six essays concentrate on the principal writers of the Revolution controversy Burke Paine Godwin and Wollstonecraft Others deal with popular radical culture counter revolutionary culture the distinctive contribution of women writers novels of opinion drama and poetry This volume will serve as a comprehensive yet accessible reference work for students advanced researchers and scholars History and the Law Carolyn Steedman, 2020-01-30 Reveals how people thought about used manipulated and resisted the law from the eighteenth to the twentieth century focusing on everyday legal experiences **Taboo and Transgression in British Literature from the Renaissance to the Present** S. Horlacher, S. Glomb, L. Heiler, 2010-03-15 Taboo and Transgression in British Literature from the Renaissance to the Present develops an

innovative overview of the interdisciplinary theoretical approaches to the topic that have emerged in recent years. Alongside exemplary model analyses of key periods and representative primary texts, this exciting new anthology of critical essays has been specifically designed to fill a major gap in the field of literary and cultural studies. This book traces the complex dynamic and ongoing negotiation of notions of transgression and taboo as an essential though often neglected facet to understanding the development, production and conception of literature from the early modern Elizabethan period through postmodern debates. The combination of a broad theoretical and historical framework covering almost fifty representative authors and works makes this essential reading for students and specialists alike in the fields of literary studies and cultural studies.

The Cosmopolitan Ideal Michael Scrivener, 2015-10-06 Examines the new internationalism which emerged in Europe during the Enlightenment. This is the study of cosmopolitanism which takes into account feminist and post colonial critiques of the Enlightenment. It also offers cosmopolitanism as a solution to contemporary struggles to reach a post national political identity.

Wordsworth and Coleridge Nicholas Roe, 2018 An updated reappraisal of Wordsworth's and Coleridge's radical careers before their emergence as major poets.

Antiformalist, Unrevolutionary, Illiberal Milton William Walker, 2016-04-15 On the basis of a close reading of Milton's major published political prose works from 1644 through to the Restoration, William Walker presents the anti formalist unrevolutionary illiberal Milton. Walker shows that Milton placed his faith not so much in particular forms of government as in statesmen he deemed to be virtuous. He reveals Milton's profound aversion to socio political revolution and his deep commitments to what he took to be orthodox religion. He emphasises that Milton consistently presents himself as a champion not of heterodox religion but of reformation. He observes how Milton's belief that all men are not equal grounds his support for regimes that had little popular support and that did not provide the same civil liberties to all. And he observes how Milton's powerful commitment to a single religion explains his endorsement of various English regimes that persecuted on grounds of religion. This reading of Milton's political prose thus challenges the current consensus that Milton is an early modern exponent of republicanism, revolution, radicalism and liberalism. It also provides a fresh account of how the great poet and prose polemicist is related to modern republics that think they have separated church and state.

The Shelley-Byron Circle and the Idea of Europe P. Stock, 2010-04-12 This book investigates how Lord Byron, Percy Shelley and their circle understood the idea of Europe. What geographical, cultural and ideological concepts did they associate with the term? What does this tell us about politics and identity in early nineteenth century Britain? In addressing these questions, Paul Stock challenges prevailing nationalist interpretations of Romanticism but without falling prey to imprecise alternative notions of cosmopolitanism or world citizenship. Instead, his book accounts for both the transnational and the local in Romantic writing, reassessing the period in terms of more complex, multi-layered identity politics.

John Clare Society Journal, 30 (2011) Ben Hickman, Marielle Risse, Jason Goldsmith, Mick Schrey, Brian Shields, John Goodridge, M. M. Mahood, Amanda Cottingham, C. M. Jackson-Houlston, 2011 The official Journal of the John

Clare Society published annually to reflect the interest in and approaches to the life and work of the poet John Clare
