

The Colors

by Lenore Hetrick

Aren't the colors bright and pretty
That our own flag wears?
The red is bright as big balloons
You see at county fairs.
The white is like the lovely snow
That falls in dark December,
And makes a scene of fairyland
You will always remember.
The blue is like the summer sky
In the rosy month of June.
Do you wonder when I see our flag
I burst right into a tune?

Red, White and Blue Robert Gehring Schaefer, 1917 **Greening the Red, White, and Blue** Thomas Jundt, 2014 In popular imagination environmentalism is often linked to Rachel Carson's *Silent Spring* and the political activism of the 1960s and 70s that moved increasing numbers of Americans to insist on a better quality of life open spaces clean air and water beautification campaigns But these interpretations have obscured the significant origins of environmentalism as a moral and intellectual broadside against the growing power of corporate capitalism both domestically and in the postwar liberal international order the United States was enacting abroad In *Greening the Red White and Blue* Thomas Jundt shows how many Americans came to view powerful corporations and a federal government bent on economic growth as threats to human health and the environment Fallout from atomic testing air and water pollution the proliferation of pesticides and herbicides all connected to the growing dominance of technology and corporate capitalism in American life led a variety of constituencies to seek solutions in what came to be known as environmentalism In addition to political and legal campaigns to effect change an alternative form of civic participation emerged beginning in the late 1940s as growing numbers of

citizens turned to what they deemed environmentally friendly consumption practices The goal of this politically charged consumption was not only to protect themselves and their families from harm but also to achieve social change at a time when many believed the government was placing the desires of business before the needs of its citizens Politicians responded to the growing environmental concerns of middle class Americans but in the end continual political compromises with corporate power meant weak laws and lax enforcement Many citizens sought refuge in an alternative green marketplace including organic foods natural fiber clothing alternative energy and everyday products designed to have minimal environmental impact In doing so they attempted to create a community for those who shared their concerns and frustrations as well as their vision for a different American Way Thomas Jundt s work highlights the intertwining of consumerism and environmentalism amidst the growing power of corporate capitalism and government in postwar America

Red, White, and Black Make Blue Andrea Feeser,2013-11-15 Like cotton indigo has defied its humble origins Left alone it might have been a regional plant with minimal reach a localized way of dyeing textiles paper and other goods with a bit of blue But when blue became the most popular color for the textiles that Britain turned out in large quantities in the eighteenth century the South Carolina indigo that colored most of this cloth became a major component in transatlantic commodity chains In Red White and Black Make Blue Andrea Feeser tells the stories of all the peoples who made indigo a key part of the colonial South Carolina experience as she explores indigo s relationships to land use slave labor textile production and use sartorial expression and fortune building In the eighteenth century indigo played a central role in the development of South Carolina The popularity of the color blue among the upper and lower classes ensured a high demand for indigo and the climate in the region proved sound for its cultivation Cheap labor by slaves both black and Native American made commoditization of indigo possible And due to land grabs by colonists from the enslaved or expelled indigenous peoples the expansion into the backcountry made plenty of land available on which to cultivate the crop Feeser recounts specific histories uncovered for the first time during her research of how the Native Americans and African slaves made the success of indigo in South Carolina possible She also emphasizes the material culture around particular objects including maps prints paintings and clothing Red White and Black Make Blue is a fraught and compelling history of both exploitation and empowerment revealing the legacy of a modest plant with an outsized impact
