Redeeming Creation The Biblical Basis For Environmental Stewardship:

Redeeming Creation Fred H. Van Dyke, David C. Mahan, Joseph K. Sheldon, Raymond H. Brand, 1996-03-06 Biologists Fred Van Dyke David C Mahan Joseph K Sheldon and Raymond H Brand provide hope for today s environmental crisis and bring Scripture into dialogue with current scientific findings and commitments

Redeeming Creation Fred Van Dyke, 1993-06-01 **Christian Faith and Environmental Stewardship** Daniel K. Lagat, 2019-03-15 This book covers the contribution of Christianity in the care stewardship and management of the environment It uses ideas from the logical position of a Christian created in God s image redeemed by God and given responsibility to subdue and keep the earth arguing that a Christian has the responsibility and mandate to care for the environment It shows that successful stewardship happens when a Christian is aware of God s intention for creation exerts effort to increase it and is expected to give an account to God for their actions toward it The book presents environmental concerns in Kenya as an opportunity for change describing situations and why they could become opportunities for change Seven worldviews are presented that discourage Christians who want to do environmental stewardship and Christian theological doctrines are discussed that could be used to cause ecclesial participation in environmental stewardship Finally the book envisions a Conserving Church with specific activities the church can do to successfully influence people to do environmental stewardship

Christians, the Care of Creation, and Global Climate Change Lindy Scott, 2008-03-01 Christians the Care of Creation and Global Climate Change is a wake up call for Christians and others It is a cogent and persuasive call to love God and our neighbors by caring for creation especially in light of the dramatic climate changes occurring before our eyes This book is not the final word on the subject but it is a sincere invitation to examine the scientific evidence for global warming and to respond with individual and collective faithful actions CONTRIBUTORS Douglas Allen Jeffrey K Greenberg P J Hill Sir John T Houghton A Duane Litfin Ben Lowe Vincent E Morris L Kristen Page Lindy Scott Noah J Toly

Creation and the Environment Calvin Redekop, 2003-04-01 Recent years have seen a shift in the belief that a religious world view specifically a Christian one precludes a commitment to environmentalism Whether as stewards of God s creation or champions of environmental justice church members have increasingly found that a strong pro ecology stand on environmental issues is an integral component of their faith But not all Christian denominations are latecomers to the issue of environmentalism In Creation and the Environment Calvin W Redekop and his co authors explain the unique environmental position of the Anabaptists in particular the Mennonites After a brief survey of the major forces contributing to the world s present ecological crisis Creation and the Environment explores the uniquely Anabaptist view of our relationship to what they see as the created order In rural Amish and Mennonite communities they explain the environment especially the land is considered part of the Kingdom God plans to establish on earth In this view the creation is part of the divine order with the redemption of humankind inextricably linked to the redemption and restoration of the material world The well being a purpose of creation and human history are thus

seen as completely interdependent Contributors Donovan Ackley III Claremont Graduate School Kenton Brubaker Eastern Mennonite University Thomas Finger Claremont Graduate School Karen Klassen Harder Bethel College Kansas James Harder Bethel College Kansas Lawrence Hart Cheyenne Cultural Center Clinton Oklahoma Theodore Hiebert McCormick Theological Seminary Karl Keener Pennsylvania State University Walter Klaassen Conrad Grebel College David Kline Holmes County Ohio Calvin W Redekop Conrad Grebel College Mel Schmidt Dorothy Jean Weaver Eastern Mennonite University Michael Yoder Northwestern College Iowa The Nature of Environmental Stewardship Johnny Wei-Bing Lin, 2016-12-29

Environmental issues appear deceptively simple science tells us what the problems are and how to solve them and for Christians the Bible motivates us to care for creation And yet both in society in general as well as in the Christian church in particular we cannot seem to agree on what to do regarding environmental issues In The Nature of Environmental Stewardship climate scientist Johnny Wei Bing Lin argues that determining the content of environmental stewardship far from being a straightforward exercise is a difficult and complex endeavour He sets forth a general taxonomy drawing from worldviews ethical theories science epistemology sciencepolicy studies politics and economics that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues **Biblical Holism and Agriculture (Revised Edition):** David J. Evans, Ronald J. Vos, Keith P. Wright, 2020-04-22

Because the World Matters New generations are championing responsibility for both the environment and those peoples who depend upon it in all new ways Biblical Holism and Agriculture addresses the urgent need for constructing a holistic perspective grounded in the Bible to appraise the economic social ecological environmental and spiritual impact of globalization and the unprecedented impact of powerful agricultural technologies and marketing systems The holistic biblical perspectives within reference ancient Hebrew insights about responsible freedom for keeping the land by people created in the image of God as representatives commissioned to stewardship and justice Salvation Means Creation Healed Howard A. Snyder, Joel Alan Scandrett, 2011-07-13 The Bible promises the renewal of all creation a new heaven and earth based on the incarnation life death and resurrection of Jesus Christ For centuries this promise has been sidelined or misunderstood because of the church's failure to grasp the full meaning of biblical teachings on creation and new creation The Bible tells the story of the broken and restored relationship between God people and land not just God and people This is the full gospel and it has the power to heal the church's long theological divorce between earth and heaven Jesus resurrection in the power of the Holy Spirit is the key and the church as Christ's body is the primary means by which God is reconciling all things through Jesus Christ Jesus ultimate healing of all creation is the great hope and promise of the gospel and he calls the church to be his healing community now through evangelism discipleship and prophetic mission **Toward an Evangelical Public Policy** Ronald J. Sider, Diane Knippers, 2005-02 Deepens thinking about biblical and other conceptual foundations for political engagement in order to unify and give consistency to evangelicals involvement in politics **Reading the Bible in an Age**

of Crisis Bruce Worthington, 2015 We live in an age in which economic ecological and political crises are not the exception but the rule The Cold War polarities that shaped an earlier political exegesis have been replaced Bruce Worthington argues that increasingly crisis is the engine of a global turbo capitalism In this volume edited by Worthington biblical scholars and activists describe and exemplify the shape of a biblical interpretation that takes contemporary crisis seriously as its most important context Succinct opening essays summarize the salient aspects of our critical situation especially in relation to the dominance of capitalism and its pervasive values in later parts contributions address themes of economic political and environmental crisis in dialogue with texts from the First and Second Testaments Throughout the volume the authors are careful to describe the basis for making interpretive analogies across historical cultural and socioeconomic distances between the world of the Hebrew Bible the New Testament and our own Richard A Horsley writes a postscript pointing to next steps in political interpretation The Spirit Renews the Face of the Earth Amos Yong, 2009-04-01 The twelve chapters here represent both Pentecostal reflections responses to the science religion discussion and Pentecostal contributions to the ongoing exchange by biblical studies specialists historians and theologians among those trained in other disciplines Together the essayists model an actual dialogue in which Pentecostal scholarly reflection is impacted by science religion discourses on the one hand while Pentecostals reach deep into their own tradition to explore how their pre understandings and commitments might enable them to speak with their own voice into pre existing conversations on the other hand From publisher s description *Introducing Evangelical Ecotheology* Daniel L. Brunner, Jennifer L. Butler, A. J. Swoboda, 2014-10-14 Today s church finds itself in a new world one in which climate change and ecological degradation are front page news In the eyes of many the evangelical community has been slow to take up a call to creation care How do Christians address this issue in a faithful way This evangelically centered but ecumenically informed introduction to ecological theology ecotheology explores the global dimensions of creation care calling Christians to meet contemporary ecological challenges with courage and hope The book provides a biblical theological ecological and historical rationale for earthcare as well as specific practices to engage both individuals and churches Drawing from a variety of Christian traditions the book promotes a spirit of hospitality civility honesty and partnership It includes a foreword by Bill McKibben and an afterword by Matthew Sleeth Spiritual Disciplines Handbook Adele Ahlberg Calhoun, 2015-11-19 Adele Calhoun s *Spiritual Disciplines Handbook* has become a standard for those who want to expand their knowledge of spiritual practices Now this beloved resource has been revised throughout and expanded to include thirteen new disciplines along with a new preface by the author giving us practical guidance in our continuing journey toward intimacy with Christ **Blood Cries Out** A. J. Swoboda, 2014-11-11 John McConnell Jr was the famed founder and visionary of Earth Day McConnell s vision was one of creating a day of remembrance solitude and action to restore the broken human relationship to the land Little acknowledged are McConnell s religious convictions or background McConnell grew up in a Pentecostal home In fact

McConnell's parents were both founding charter members of the Assemblies of God in 1914. His own grandfather had an even greater connection to the origins of Pentecostalism by being a personal participant at the Azusa Street Revival in Los Angeles in 1906. Earth Day thus began with strong religious convictions. McConnell, seeing the ecological demise through his religious background, envisioned a day where Christians could show the power of prayer, the validity of their charity, and their practical concern for Earth's life and people. In the spirit of McConnell, today's Pentecostal and Charismatic theology has something to say about the earth. *Blood Cries Out* is a unique contribution by Pentecostal and Charismatic theologians and practitioners to the global conversation concerning ecological degradation, climate change, and ecological justice.

Encyclopedia of Biodiversity, Revised Edition Stanley Rice, 2020-06-01. Praise for the previous edition makes high-level scientific concepts accessible to secondary students. Library Journal clearly written and well organized. School Library Journal Fulfilling educational benchmarks identified by the National Academy of Sciences, this encyclopedia is an excellent choice for both public and academic libraries. Recommended Choice, a thorough and informative work provides accessible information. There is simply no other work that compares to this. High school and public libraries will welcome such a well-researched title. Booklist The text is suitable for high school students but advanced enough for adult readers too. Presents important biodiversity topics, a handy overview for term papers and class presentations. Library Journal Biodiversity and ecology are founded in evolutionary science. In order to understand why species of organisms occupy different parts of the world, it is important to comprehend how they evolved. *Encyclopedia of Biodiversity, Revised Edition* examines this evolutionary framework with the help of more than 150 entries and five essays averaging at least 2,000 words each. High school teachers can use these entries grouped by topic to meet many of the science education goals established by the National Academy of Sciences. Written by a leading expert in the field, this comprehensive full-color encyclopedia makes information about groups of organisms from bacteria to mammals and about ecological concepts and processes such as biogeography and ecological succession clearly and readily available to students and the general public. Tables at the end of each entry have a consistent structure allowing readers to see how environmental conditions and biodiversity have changed through evolutionary time. Entries include Acid rain and fog, Biodiversity in the Jurassic period, Darwin's finches, Galapagos Islands, Peter and Rosemary Grant, Life in bogs, Natural selection, Population genetics, Seedless plants, Tropical rainforests and deforestation, Alfred Russel Wallace. **Values in Sustainable Development** Jack Appleton, 2013-08-22. To enhance sustainable development research and practice, the values of the researchers, project managers, and participants must first be made explicit. *Values in Sustainable Development* introduces and compares worldviews and values from multiple countries and perspectives, providing a survey of empirical methods available to study environmental values as affected by sustainable development. The first part is methodological, looking at what values are, why they are important, and how to include values in sustainable development. The second part looks at how values differ across social contexts, religions, and viewpoints.

demonstrating how various individuals may value nature from a variety of cultural social and religious points of view The third and final part presents case studies ordered by scale from the individual and community levels through to the national regional and international levels These examples show how values can motivate be incorporated into and be an integral part of the success of a project This thought provoking book gives researchers students and practitioners in sustainable development a wealth of approaches to include values in their research Stewards in the Kingdom R. Scott Rodin,2000-01-10 R Scott Rodin unpacks a theology of the abundant life which encompasses our world life and possessions and appropriately begins with the very being of the Creator **Biodiversity Conservation Ethics in Major Religions** H. S. A. Yahya,2010-10-22 Covering three broader issues biodiversity conservation religious doctrine and environment the book Biodiversity Conservation Ethics in Major Religions is the result of a unique approach It attempts to initiate scientific discourse through the fabric of religions Spread across 15 chapters the book covers the essence of 10 religions on biodiversity encompassing a wide range of issues related to conservation The book promises to be a useful resource for biodiversity students researchers and protected area managers and also for religious scholars who are invited to look at the broader themes of religions beyond theology **A New Vision, a New Heart, a Renewed Call** David Claydon,2005 An Invitation to Environmental Sociology Michael Bell,2009 I love your book it is one of the most fascinating I have ever read certainly the most riveting textbook The ideas you present are so on key I just wanted to let you know how incredible you book is Thank you for writing it Student at U Mass Boston Michael Bell covers the broad range of topics in environmental sociology with a personal passion rarely seen in sociology texts An Invitation to Environmental Sociology 3 e challenges readers with the complexity of environmental puzzles After reading this book students will be informed and enabled to make their own private and public choices and inspired to care about the social footprints on the planet
