Redemption and Utopia Michael Löwy, 2017-03-28 Towards the end of the nineteenth century there appeared in Central Europe a generation of Jewish intellectuals whose work was to transform modern culture Drawing at once on the traditions of German Romanticism and Jewish messianism their thought was organized around the cabalistic idea of the tikkoun redemption Redemption and Utopia uses the concept of elective affinity to explain the surprising community of spirit that existed between redemptive messianic religious thought and the wide variety of radical secular utopian beliefs held by this important group of intellectuals The author outlines the circumstances that produced this unusual combination of religious and non religious thought and illuminates the common assumptions that united such seemingly disparate figures as Martin Buber Franz Kafka Walter Benjamin and Georg Lukcs

author of *German Jews A Dual Identity* **Archaeology of the Unconscious** Alessandra Aloisi, Fabio Camilletti, 2019-07-10 In reconstructing the birth and development of the notion of unconscious historians of ideas have heavily relied on the Freudian concept of Unbewussten retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany *Archaeology of the Unconscious* aims to challenge this perspective by adopting an unusual and thought provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI when Italo Svevo's *La coscienza di Zeno* provides Italy with the first example of a psychoanalytic novel Italy's vibrant culture of the long nineteenth century characterised by the sedimentation circulation intersection and synergy of different cultural philosophical and literary traditions proves itself to be a privileged object of inquiry for an archaeological study of the unconscious a study whose object is not the alleged origin of a pre made theoretical construct but rather the stratifications by which that specific construct was assembled In line with Michel Foucault's *Archéologie du savoir* 1969 this volume will analyze the formation and the circulation across different authors and texts of a network of ideas and discourses on interconnected themes including dreams memory recollection desire imagination fantasy madness creativity inspiration magnetism and somnambulism Alongside questioning pre given narratives of the history of the unconscious this book will employ the Italian difference as a powerful perspective from whence to address the undeveloped potentialities of the pre Freudian unconscious beyond uniquely psychoanalytical viewpoints **Ethics and Social Survival** Milton Fisk, 2016-05-20 When speaking of society's role in ethics one tends to think of society as regimenting people through its customs *Ethics and Social Survival* rejects theories that treat ethics as having justification within itself and contends that ethics can have a grip on humans only if it serves their deep seated need to live together It takes a social survival view of ethical life and its norms by arguing that ethics looks to society not for regimentation by customs but rather for the viability of society Fisk traces this theme through the work of various philosophers and builds a consideration of social divisions to show how rationalists fail to realize their aim of justifying ethical norms across divisions The book also explores the relation of power and authority to ethics without simply dismissing them as impediments and explains how personal values such as honesty modesty and self esteem still retain ethical importance Finally it shows that basing ethics on avoiding social collapse helps support familiar norms of liberty justice and democracy and strives to connect global and local ethics **Nationalism, Zionism and Ethnic Mobilization of the Jews in 1900 and Beyond** Michael Berkowitz, 2004-02-01 This volume engages diverse topics such as art music and radio broadcasting in the development of modern Jewish nationalism by leading scholars in their respective fields It contains richly detailed studies that challenge existing historiography from personal struggles with nationalism to the lesser known origins of the Balfour Declaration from boisterous demonstrations on the streets of pre World War I Galicia to skirmishes between Jews in present day Jerusalem It examines how nationalism has worked in theory and practice for Jews and at times

Gordon,2020-11-24 A beautifully written exploration of religion s role in a secular modern politics by an accomplished scholar of critical theory Migrants in the Profane takes its title from an intriguing remark by Theodor W Adorno in which he summarized the meaning of Walter Benjamin s image of a celebrated mechanical chess playing Turk and its hidden religious animus Nothing of theological content will persist without being transformed every content will have to put itself to the test of migrating in the realm of the secular the profane In this masterful book Peter Gordon reflects on Adorno s statement and asks an urgent question Can religion offer any normative resources for modern political life or does the appeal to religious concepts stand in conflict with the idea of modern politics as a domain free from religion s influence In answering this

question he explores the work of three of the Frankfurt School's most esteemed thinkers Walter Benjamin Max Horkheimer and Theodor W Adorno His illuminating analysis offers a highly original account of the intertwined histories of religion and secular modernity

Skepsis and Antipolitics: The Alternative of Gustav Landauer ,2022-12-12 Gustav Landauer was an unconventional anarchist who aspired to a return to a communal life His antipolitical rejection of authoritarian assumptions is based on a radical linguistic scepticism that could be considered the theoretical premise of his anarchism The present volume aims to add to the existing scholarship on Landauer by shedding new light on his work focussing on the two interrelated notions of skepsis and antipolitics In a time marked by a deep doubt concerning modern politics Landauer's alternative can help us to more seriously address the struggle for a different articulation of our communitarian and ecological needs

Reconstructing Lenin Tamás Krausz,2015-02-27 Vladimir Ilyich Lenin is among the most enigmatic and influential figures of the twentieth century While his life and work are crucial to any understanding of modern history and the socialist movement generations of writers on the left and the right have seen fit to embalm him endlessly with superficial analysis or dreary dogma Now after the fall of the Soviet Union and actually existing socialism it is possible to consider Lenin afresh with sober senses trained on his historical context and how it shaped his theoretical and political contributions

Reconstructing Lenin four decades in the making and now available in English for the first time is an attempt to do just that Tam s Krausz an esteemed Hungarian scholar writing in the tradition of Gy rgy Luk cs Ferenc Tokei and Istv n M sz ros makes a major contribution to a growing field of contemporary Lenin studies This rich and penetrating account reveals Lenin busy at the work of revolution his thought shaped by immediate political events but never straying far from a coherent theoretical perspective Krausz balances detailed descriptions of Lenin's time and place with lucid explications of his intellectual development covering a range of topics like war and revolution dictatorship and democracy socialism and utopianism Reconstructing Lenin will change the way you look at a man and a movement it will also introduce the English speaking world to a profound radical scholar

Salvation and Hell in Classical Islamic Thought Marco Demichelis, 2018-07-12 *Salvation and Hell in Classical Islamic Thought* uses classical Islamic sources to trace the development of Islamic eschatology during the formative centuries of Islamic intellectual history. Marco Demichelis draws on classical Islamic scholars including Ibn Sina, al-Ghazali, Ibn Taymiyya, and Ibn Qayyim al-Jawziyya to bring together concepts from Islamic philosophy, theology, and mysticism, including proto-Sufism, to examine the interplay of these concepts between these traditions. The doctrines of salvation from Hell are examined in depth, in particular the theory of the annihilation of Hell, which proposes the idea that there will be a time when Hell will be empty and no longer inhabited. This is the first book to examine Islamic eschatology in the classical period and adds to the growing scholarship on Islamic views on salvation and the eternity of Hell. It will be essential reading for scholars of Islamic intellectual history, theology, and comparative religion.

The Cambridge History of Judaism: Volume 8, The Modern World, 1815-2000 Mitchell B. Hart, Tony Michels, 2017-09-28 The eighth and final volume of *The Cambridge History of Judaism* covers the period from roughly 1815 to 2000. Exploring the breadth and depth of Jewish societies and their manifold engagements with aspects of the modern world, it offers overviews of modern Jewish history as well as more focused essays on political, social, economic, intellectual, and cultural developments. The first part presents a series of interlocking surveys that address the history of diverse areas of Jewish settlement. The second part is organized around the emancipation. Here, chapter themes are grouped around the challenges posed by, and to, this elemental feature of Jewish life in the modern period. The third part adopts a thematic approach organized around the category culture, with the goal of casting a wide net in terms of perspectives, concepts, and topics. The final part then focuses on the twentieth century, offering readers a sense of the dynamic nature of Judaism and Jewish identities and affiliations.
