The Rediscovery of Ireland's Past Jeanne Sheehy, George Mott, 1980-01-01 Ireland's Independence: 1880-1923

Oonagh Walsh, 2003-09-02 This timely introduction presents a clear balanced account of the rapid and complex events from 1880 leading up to the formation of the Irish Free State in 1922 **The Oxford Handbook of Victorian Medievalism**

Joanne Parker, Corinna Wagner, 2020-09-15 In 1859 the historian Lord John Acton asserted two great principles divide the world and contend for the mastery antiquity and the middle ages The influence on Victorian culture of the Middle Ages broadly understood then as the centuries between the Roman Empire and the Renaissance was both pervasive and multi faceted This medievalism led for instance to the rituals and ornament of the Medieval Catholic church being reintroduced to Anglicanism It led to the Saxon Witan being celebrated as a prototypical representative parliament It resulted in Viking raiders being acclaimed as the forefathers of the British navy And it encouraged innumerable nineteenth century men to cultivate the superlative beards we now think of as typically Victorian in an attempt to emulate their Anglo Saxon forefathers Different facets of medieval life and different periods before the Renaissance were utilized in nineteenth century Britain for divergent political and cultural agendas Medievalism also became a dominant mode in Victorian art and architecture with 75 per cent of churches in England built on a Gothic rather than a classical model And it was pervasive in a wide variety of literary forms from translated sagas to pseudo medieval devotional verse to triple decker novels Medievalism even transformed nineteenth century domesticity while only a minority added moats and portcullises to their homes the medieval style textiles produced by Morris and Co decorated many affluent drawing rooms The Oxford Handbook of Victorian Medievalism is the first work to examine in full the fascinating phenomenon of medievalism in Victorian Britain Covering art architecture religion literature politics music and social reform the Handbook also surveys earlier forms of antiquarianism that established the groundwork for Victorian movements In addition this collection addresses the international context by mapping the spread of medievalism across Europe South America and India amongst other places **Victorian Britain (Routledge Revivals)**

Fraser, 1996-01-01 State housing became an integral part of the relationship between Ireland and Great Britain from the 1880s until the early 1990s Using research from both Irish and Westminster sources this book shows that there was recurrent pressure for the state to intervene in housing in Ireland in a period when the Irish Question was the major domestic political issue The result was that the model of subsidized state housing subsequently introduced in Britain was first

developed in Ireland as a product of the tensions of British rule. An important corollary of innovative Irish housing policy was its influence even in a negative sense on developments in mainland Britain. This book also examines the cultural impact of imperialism and in particular the way in which British ideas of garden suburb housing and town planning design came significantly to reshape the Irish urban environment. Fraser not only presents hitherto unknown material but does so in a unique interdisciplinary blend of architectural planning, urban and socio-economic history. Nationalism and Archaeology in Europe Margarita Díaz-Andreu, Timothy Champion, 2014-10-24. Archaeologists from many different European countries here explore the very varied relationship between nationalistic ideas and archaeological activity through the course of the nineteenth and twentieth centuries. The resurgence of nationalism was one of the most prominent features of the European political scene in the 1990s when this book was originally published. The past provides a large supply of ideas and images to support the claims of national identity deeply rooted in remote generations. The remote past revealed by archaeology also plays a part: heroes, heroines, golden ages, long disappeared objects to admire and sites to provoke the memory, all called on to further the cause of nationalism. Drawing on the authoritative insights of the indigenous contributors, this book examines the issues throughout modern Europe. All of the chapters share a concern to see archaeology and the study of the past as intimately related to contemporary social and political questions. The present shapes the way we think about the past but the past also provides us with evidence for thinking about the present. These issues are timeless and this comprehensive examination of a host of issues remains important for historians and those pursuing nationalistic politics. Consumption and Culture in Sixteenth-century Ireland Susan Flavin, 2014. A detailed study of changing patterns of consumption showing how these related to wider political, social and economic developments. This book, based on extensive original research, argues that everyday Irish consumption underwent major changes in the 16th century. The book considers the changing nature of imported goods in relation especially to two major activities of daily living: dress and diet. It integrates quantitative data on imports with qualitative sources including wills, archaeological and pictorial evidence and contemporary literature and legislation. It shows that changes in Irish consumption mirrored changes occurring in England and across Europe and that they were a function of broader developments in the Irish economy, including the increasing participation of Irish merchants in European markets. The book also discusses how consumption was related to wider political, economic and cultural developments in Ireland, showing how the acquisition and interpretation of material goods were key factors in the mediation of political and social boundaries in a semi-colonised and contested society. Susan Flavin completed her doctorate in early modern history at the University of Bristol. *Icons of Irishness from the Middle Ages to the Modern World* M. Williams, 2012-12-10. From majestic Celtic crosses to elaborate knotwork designs, visual symbols of Irish identity at its most medieval abound in contemporary culture. Considering both scholarly and popular perspectives, this book offers a commentary on the blending of pasts and presents that finds permanent visualization in these contemporary signs. *Ireland's Heritages*

Mark McCarthy, 2017-09-29 This book is the first sustained attempt to incorporate critical scholarship and thought at the cutting edge of contemporary geography history and archaeology into the burgeoning field of Irish heritage studies It seeks to illustrate the validity of multiple depictions of the Irish past showing how scrutiny of heritage practices and meanings is so essential for illuminating our understanding of the present Examining Ireland's heritages from a critical perspective that celebrates notions of heterogeneity and uniqueness the distinguished contributors to this book scrutinise the multiplicity of complex relations between heritage history memory commemoration economy and cultural identity within various historical geographical and archaeological contexts Using several examples and case studies this book raises issues not only from a uniquely Irish perspective but also investigates the memorialisation and marketing of the Irish past in overseas locations such as the USA and Australia

Whose Middle Ages? Andrew Albin, Mary C. Erler, Thomas O'Donnell, Nicholas L. Paul, Nina Rowe, 2019-10-15 An ethical and accessible introduction to a historical period often implicated in racist narratives of nationalism and imperialism Sierra Lomuto Assistant Professor of Global Medieval Literature Rowan University A collection of twenty two essays *Whose Middle Ages* gives nonspecialists access to the richness of our historical knowledge while debunking damaging misconceptions about the medieval past Myths about the medieval period are especially beloved among the globally resurgent far right from crusading emblems on the shields borne by alt right demonstrators to the on screen image of a purely white European populace defended from actors of color by Internet trolls This collection attacks these myths directly by insisting that readers encounter the relics of the Middle Ages on their own terms Each essay uses its author's academic research as a point of entry and takes care to explain how the author knows what she or he knows and what kinds of tools bodies of evidence and theoretical lenses allow scholars to write with certainty about elements of the past to a level of detail that might seem unattainable By demystifying the methods of scholarly inquiry *Whose Middle Ages* serves as an antidote not only to the far right's errors of fact and interpretation but also to its assault on scholarship and expertise as valid means for the acquisition of knowledge In example after example the authors show how people shape the Middle Ages to reflect their fears and dreams for themselves and for society The results range from the amusing to the horrifying from video games to genocide *Whose Middle Ages* Everyone's but not everyone's in the same way Michelle R Warren author of *Creole Medievalism*

Grant Allen Terence Rodgers, 2017-03-02 A strikingly interdisciplinary figure in Victorian literary history Grant Allen 1848 1899 has thus far managed to elude the focused scrutiny of contemporary scholarship This collection offers a valuable analytical and bibliographical resource for the exploration of the man and his work Grant Allen was a prolific novelist essayist and man of letters who is best remembered today for his *The Woman Who Did* 1895 which gained fame and notoriety almost overnight through its exploration of female independence and sexuality outside marriage precipitating rabid denunciations of the new woman Allen engaged with a span of literary and cultural concerns in the late Victorian period that extended beyond gender politics however equally important was his sustained intervention in debates about Darwinism

Spencerism and evolution on which subjects he was recognized as an authority and as the foremost popularizer alongside T H Huxley and Benjamin Kidd Not only did Allen s work link the literary and the scientific it traversed the boundaries between elite and popular culture demonstrating their interconnectedness This was notable in his travel and environmental writings and in his experiments in orientalist and detective fiction fantasy and science fiction The contributors to this collection approach the figure of Allen from diverse fields within Victorian studies showing him to be a late Victorian innovator but also an example of fin de si cle modernity Grant Allen Literature and Cultural Politics at the Fin de Si cle revisits the richly variegated profile of one of the most intriguing and significant polymaths of the turn of the century recognizing his contribution to and influence on the key modernizing debates of the period A New History of Ireland Volume VII J. R. Hill,2003-12-04 A New History of Ireland is the largest scholarly project in modern Irish history In 9 volumes it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the Middle Ages down to the present day Volume VII covers a period of major significance in Ireland s history It outlines the division of Ireland and the eventual establishment of the Irish Republic It provides comprehensive coverage of political developments north and south as well as offering chapters on the economy literature in English and Irish the Irish language the visual arts emigration and immigration and the history of women The contributors to this volume all specialists in their field provide the most comprehensive treatment of these developments of any single volume survey of twentieth century Ireland **Ireland and Empire** Stephen Howe,2000-04-06 A growing band of historians political commentators and cultural critics has sought to analyse Ireland s past and present in colonial terms For some including Irish Republicans it is the only proper framework for understanding Ireland Others reject the very use of the colonial label for Ireland s history while using the term for the present arouses outrage especially amongst Ulster Unionists This book evaluates and analuses these controversies ranging from debates over the ancient and medieval past to those in current literary and postcolonial theory Scholarly at times polemical it is the most comprehensive study of these themes ever to appear and will undoubtedly stimulate discussion for years to come Britain, the Empire, and the World at the Great Exhibition of 1851 Jeffrey A. Auerbach,2016-04-15 Britain the Empire and the World at the Great Exhibition is the first book to situate the Crystal Palace Exhibition of 1851 in a truly global context Addressing national imperial and international themes this collection of essays considers the significance of the Exhibition both for its British hosts and their relationships to the wider world and for participants from around the globe How did the Exhibition connect London England important British colonies and significant participating nation states including Russia Greece Germany and the Ottoman Empire How might we think about the exhibits visitors and organizers in light of what the Exhibition suggested about Britain s place in the global community Contributors from various academic disciplines answer these and other questions by focusing on the many exhibits publications visitors and organizers in Britain and elsewhere The essays expand our understanding of the meanings

roles and legacies of the Great Exhibition for British society and the wider world as well as the ways that this pivotal event shaped Britain's and other participating nations' conceptions of and locations within the wider nineteenth century world

Expressions of Nationhood in Bronze & Stone Síghle Bhreathnach-Lynch, 2019-06-21 At the time of his death in 1945 Albert Power was the leading nationalist sculptor in the Irish Free State yet within a few decades he was almost forgotten This first major examination of his life and career tells of one artist's contribution to national identity before and after political independence In sculpture at that time the emphasis was on creating a pantheon of new Irish heroes by means of monumental and portrait commissions Power's work however sprang from deeply held nationalist beliefs and he felt that subject matter alone was insufficient to ensure a distinctive Irish art Wherever possible he deliberately chose native stone believing that this best conveyed a nationalist sentiment such as the limestone he used in the beloved monument to Padraic Conaire in Galway His political commissions from 1922 onward reveal the new State's desire for a national political and cultural identity and in this book Power's sculpture is explored both at the time of its production and within the broader context of writers and artists who wished to contribute to the new nation's cultural identity a legacy that modern Ireland enjoys today

Defining Neomedievalism(s) II Karl Fugelso, 2011 The focus on neomedievalism at the 2007 International Conference on Medievalism in ever more sessions at the annual International Congress on Medieval Studies and by many recent or forthcoming publications has left little doubt that this important new area of study is here to stay and that medievalism must come to terms with it In response to an essay in *Studies in Medievalism XVIII* defining medievalism in relationship to neomedievalism this volume therefore begins with seven essays defining neomedievalism in relationship to medievalism
