**Tyranny of the Weak** Charles K. Armstrong, 2013-06-25 To much of the world North Korea is an impenetrable mystery its inner workings unknown and its actions toward the outside unpredictable and frequently provocative Tyranny of the Weak reveals for the first time the motivations processes and effects of North Korea s foreign relations during the Cold War era Drawing on extensive research in the archives of North Korea s present and former communist allies including the Soviet Union China and East Germany Charles K Armstrong tells in vivid detail how North Korea managed its alliances with fellow communist states maintained a precarious independence in the Sino Soviet split attempted to reach out to the capitalist West and present itself as a model for Third World development and confronted and engaged with its archenemies the United States and South Korea From the invasion that set off the Korean War in June 1950 to the collapse of the Soviet Union in 1991 Tyranny of the Weak shows how despite its objective weakness North Korea has managed for much of its history to deal with the outside world to its maximum advantage Insisting on a path of self reliance since the 1950s North Korea has continually resisted pressure to change from enemies and allies alike A worldview formed in the crucible of the Korean War and Cold War still maintains a powerful hold on North Korea in the twenty first century and understanding those historical forces is as urgent today as it was sixty years ago

*Storming the City* Alec Wahlman, 2015-10-15 In an increasingly urbanized world urban terrain has become a greater factor in military operations Simultaneously advances in military technology have given military forces sharply increased capabilities The conflict comes from how urban terrain can negate or degrade many of those increased capabilities What happens when advanced weapons are used in a close range urban fight with an abundance of cover Storming the City explores these issues by analyzing the performance of the US Army and US Marine Corps in urban combat in four major urban battles of the mid twentieth century Aachen 1944 Manila 1945 Seoul 1950 and Hue 1968 Alec Wahlman assesses each battle using a similar framework of capability categories and separate chapters address urban warfare in American military thought In the four battles across a wide range of conditions American forces were ultimately successful in capturing each city because of two factors transferable competence and battlefield adaptation The preparations US forces made for warfare writ large proved generally applicable to urban warfare Battlefield adaptation a strong suit of American forces filled in where those overall preparations for combat needed fine tuning From World War Two to Vietnam however there was a gradual reduction in tactical performance in the four battles

**A Continent Erupts** Ronald H. Spector, 2022-08-23 A Foreign Affairs Best Book of 2022 Marvelous Spector s gripping book helps us to understand why the legacy of these conflicts is still with us today Sheila Miyoshi Jager New York Times Book Review The end of World War II led to the United States emergence as a global superpower For war ravaged Western Europe it marked the beginning of decades of unprecedented cooperation and prosperity that one historian has labeled the long peace Yet half a world away in China Indonesia Vietnam Korea and Malaya the fighting never really stopped as these regions

sought to completely sever the yoke of imperialism and colonialism with all too violent consequences East and Southeast Asia quickly became the most turbulent regions of the globe Within weeks of the famous surrender ceremony aboard the U S S Missouri civil war communal clashes and insurgency engulfed the continent from Southeast Asia to the Soviet border By early 1947 full scale wars were raging in China Indonesia and Vietnam with growing guerrilla conflicts in Korea and Malaya Within a decade after the Japanese surrender almost all of the countries of South East and Southeast Asia that had formerly been conquests of the Japanese or colonies of the European powers experienced wars and upheavals that resulted in the deaths of at least 25 million combatants and millions of civilians With A Continent Erupts acclaimed military historian Ronald H Spector draws on letters diaries and international archives to provide for the first time a comprehensive military history and analysis of these little known but decisive events Far from being simply offshoots of the Cold War as they have often been portrayed these shockingly violent conflicts forever changed the shape of Asia and the world as we know it today

City Room Arthur Gelb, 2004-11-02 A New York Times Notable Book Arthur Gelb was hired by The New York Times in 1944 as a night copyboy the paper's lowliest position Forty five years later he retired as its managing editor Along the way he exposed crooked cops and politicians mentored a generation of our most talented journalists was the first to praise the as yet undiscovered Woody Allen and Barbra Streisand and brought Joe Papp instant recognition From D Day to the liberation of the concentration camps from the agony of Vietnam to the resignation of a President from the fall of Joe McCarthy to the rise of the Woodstock Nation Gelb gives an insider's take on the great events of this nation's history what he calls the happiest days of my life

**Forbidden Bookshelf Presents Christopher Simpson** Christopher Simpson, 2018-10-23 Three provocative exposés from a National Jewish Book Award winning journalist address the CIA's recruitment of Nazis and use of psychological warfare The Splendid Blond Beast This groundbreaking investigation into the CIA's post World War II liberation and recruitment of Nazi war criminals including the pivotal role played by CIA director Allen Dulles traces the roots not only of US government malfeasance but of mass murder as an instrument of financial gain and state power from the Armenian genocide during World War I to Hitler's Holocaust through the practice of genocide today Revelatory and shocking Kirkus Reviews Blowback The true story of how US intelligence organizations employed Nazi war criminals in clandestine warfare and propaganda against the USSR anticolonial revolutionaries and progressive movements worldwide that were claimed to be Soviet pawns The story is one that needs to be told and Blowback makes a major contribution to its telling supplementing a thorough collation of known cases with ample new research The New York Times Science of Coercion Drawing on long classified documents from the Pentagon the CIA and other national security agencies Simpson exposes secret government funded research into psychological warfare and reveals that many of the most respected pioneers in the field of communication science were knowingly complicit as their findings were employed for the purposes of propaganda subversion intimidation and counterinsurgency during the Cold War era An intriguing picture of the relations between state

power and the intellectual community Noam Chomsky Massachusetts Institute of Technology [Sin City High Phil Cummings](#), **Air Corps News Letter**, 1951 **The Urban Community** Nels Andersen, 2013-03-07 Part of the Sociology of the City series originally published in 1959 this volume looks at the urban community bringing together rural and urban sociology It advises that areas need to be looked at in terms the way of the life of the inhabitants and not by size and that urban sociology needs to assume a more global perspective not just locally **The Making of the Cold War Enemy** Ron Theodore Robin, 2009-04-30 At the height of the Cold War the U S government enlisted the aid of a select group of psychologists sociologists and political scientists to blueprint enemy behavior Not only did these academics bring sophisticated concepts to what became a project of demonizing communist societies but they influenced decision making in the map rooms prison camps and battlefields of the Korean War and in Vietnam With verve and insight Ron Robin tells the intriguing story of the rise of behavioral scientists in government and how their potentially dangerous American assumptions about human behavior would shape U S views of domestic disturbances and insurgencies in Third World countries for decades to come Based at government funded think tanks the experts devised provocative solutions for key Cold War dilemmas including psychological warfare projects negotiation strategies during the Korean armistice and morale studies in the Vietnam era Robin examines factors that shaped the scientists thinking and explores their psycho cultural and rational choice explanations for enemy behavior He reveals how the academics intolerance for complexity ultimately reduced the nation s adversaries to borderline psychotics ignored revolutionary social shifts in post World War II Asia and promoted the notion of a maniacal threat facing the United States Putting the issue of scientific validity aside Robin presents the first extensive analysis of the intellectual underpinnings of Cold War behavioral sciences in a book that will be indispensable reading for anyone interested in the era and its legacy *Modernizing Minds in El Salvador* Héctor Lindo-Fuentes, Erik Ching, 2012-04-15 This book present a number of intertwined arguments about the origins course success and effects of El Salvador s 1968 educational reform It explores how education reform became enmeshed in debates on theories of modernization and the politics of anticommunism It also examines how the movement shoved El Salvador into the types of brutal conflict that were taking place throughout the third world as the US and the USSR tried to impose their political ideologies on developing nations
