Chinese Companies and the Hong Kong Stock Market Flora Xiao Huang, Horace Yeung, 2013-10-30. Listing by companies from one country on the stock market of another country is a device often used both to raise capital in and to increase bonding with the target country. This book examines the listing by Chinese companies on the Hong Kong stock market. It discusses the extent of the phenomenon, compares the two different regulatory regimes and explores the motivations for the cross listing. It argues that a key factor, in addition to raising capital and bonding with the Hong Kong market, is Chinese companies' desire to encourage legal and regulatory reforms along Hong Kong lines in mainland China in order to develop and open up China's domestic capital markets. **Law Reform and Financial Markets** K.

Alexander, Niamh Moloney, 2012-01-01. *Law Reform and Financial Markets* addresses how law reform can be used to support strong financial markets and draws on the Global Financial Crisis as a case study. This edited collection reflects recent developments, including the EU institutional reforms and Dodd-Frank Act 2010. The different contributions adopt a range of theoretical, contextual and substantive perspectives, examine different domestic, regional and international contexts and assess public and private law frameworks in considering how legal and regulatory reforms can be most effectively designed for strong financial markets. This comprehensive book will appeal to academics and postgraduates in the field of financial regulation and in cognate fields, including finance and economics, as well as to regulators and policymakers.
