Science, and Related Agencies**

Reentry Programs For Female Scientists:

Reentry Programs for Female Scientists Alma E. Lantz, Marna C. Whittington, 1980 **Women Scientists in America** Margaret W. Rossiter, 2012-04-02 With the thoroughness and resourcefulness that characterize the earlier volumes she recounts the rich history of the courageous and resolute women determined to realize their scientific ambitions *Women in Biomedical Careers*, 1992 Searching for Scientific Womanpower Laura Micheletti Puaca, 2014-06-02 This compelling history of what Laura Micheletti Puaca terms technocratic feminism traces contemporary feminist interest in science to the World War II and early Cold War years During a period when anxiety about America's supply of scientific personnel ran high and when open support for women's rights generated suspicion feminist reformers routinely invoked national security rhetoric and scientific manpower concerns in their efforts to advance women's education and employment Despite the limitations of this strategy it laid the groundwork for later feminist reforms in both science and society The past and present manifestations of technocratic feminism also offer new evidence of what has become increasingly recognized as a long women's movement Drawing on an impressive array of archival collections and primary sources Puaca brings to light the untold story of an important but largely overlooked strand of feminist activism This book reveals much about the history of American feminism the politics of national security and the complicated relationship between the two **Personnel Literature**, 1981 **Who Succeeds in Science?** Gerhard Sonnert, Gerald James Holton, 1995 Why don't more women become scientists And why do those who do become scientists often face more difficulties than their male counterparts Every year about a quarter of a million young men and women in the United States receive their first academic degree in science mathematics or engineering A small fraction will eventually become research scientists But many who start out with that goal fail to reach it for reasons that may have less to do with their scientific ability than with their gender Drawing on a wealth of information 699 questionnaires and 200 interviews from men and women who gave every promise of scientific achievement Gerhard Sonnert and Gerald Holton illuminate the partly gender driven dynamics of the leaky scientific pipeline At the heart of this book are gripping personal life stories of ten women and ten men half became highly successful scientists the rest left research science In their own voices they talk candidly about their career paths the obstacles and assists they encountered the difficulties and rewards of attempting to combine a family life with a science career This highly readable analysis of the gender dimension in scientific careers and its clear headed advice will be of great interest to everyone considering a career in science as well as to teachers parents and active scientists Academics in sociology of science and gender studies as well as decision makers in the areas of human resources and science policy will also welcome its discussions of general issues and policy recommendations Research on Women's Health, 1997 **NIH News & Features**, 1993 **National Policy Proposals Affecting Midlife Women** United States. Congress. House. Select Committee on Aging. Subcommittee on Retirement Income and Employment, 1979 *Resources in Education*, 1982 **Commerce, Justice, Science, and**

Related Agencies Appropriations for 2016 United States. Congress. House. Committee on Appropriations. Subcommittee on Commerce, Justice, Science, and Related Agencies, 2015 1983 National Science Foundation Authorization United States. Congress. House. Committee on Science and Technology. Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations for Fiscal Year 1997 United States. Congress. Senate. Committee on Appropriations. Subcommittee on Departments of Labor, Health and Human Services, Education, and Related Agencies, 1997 *Reauthorization of the National Science Foundation*, 1985 United States. Congress. Senate. Committee on Labor and Human Resources, 1984 *Back on the Career Track* Carol Fishman Cohen, Vivian Steir Rabin, 2008-08-18 If you're a stay at home mom considering going back to work these are some of the questions that have likely come to mind Returning to the workforce can be a daunting prospect It requires reigniting old contacts including those with coworkers once your junior marketing yourself strategically and building confidence whether you've been out of the workforce for two six or fifteen years Carol Fishman Cohen and Vivian Steir Rabin understand because they've been there As Harvard MBAs who successfully relaunched their own careers after staying home full time with their children they know it can be done with careful planning strategizing and creativity Now in BACK ON THE CAREER TRACK they offer a prescriptive seven step program that includes Assessing career options and updating job skills Networking and preparing for interviews Getting the family on board Packed with expert advice from career counselors and recruiters and insightful stories from others who have been through the process this book also offers an inside look at what employers and universities are doing to help relaunchers today including how many businesses are recognizing them as valuable assets As frequent speakers to women's groups professional schools and corporations Cohen and Rabin provide a thorough unique program from two experts on the topic of career reentry BACK ON THE CAREER TRACK is sure to become the classic guide in the field

Commerce, Justice, Science, and Related Agencies Appropriations for 2015 United States. Congress. House. Committee on Appropriations. Subcommittee on Commerce, Justice, Science, and Related Agencies, 2014 Science & Public Policy, 1981 **Removing Barriers** Jill M. Bystydzienski, Sharon R. Bird, 2006-03-20 Movement into academic science technology engineering and mathematics STEM fields has been slow for women and minorities Not only are women and minorities underrepresented in STEM careers there is strong evidence that many academic departments are resistant to addressing the concerns that keep them from entering careers in these fields In light of recent controversies surrounding these issues this volume examining reasons for the persistence of barriers that block the full participation and advancement of underrepresented groups in the sciences and addressing how academic departments and universities can remedy the situation is particularly timely As a whole the volume shows positive examples of institutions and departments that have been transformed by the inclusion of women and recommends a set of best practices for continuing growth in positive directions Women in Wildlife Science Carol L. Chambers, Kerry L. Nicholson, 2022-11-01

The first book to address the challenges and opportunities for women especially from underrepresented communities in wildlife professions *Women in Wildlife Science* is dedicated to the work of promoting equity diversity and inclusion in wildlife conservation and management Editors Carol L Chambers and Kerry L Nicholson collaborate with a diverse team of authors to analyze the status and celebrate the achievements of women in wildlife science They share proven models and propose new methods to increase the inclusion of women in wildlife professions based on an intersectional framework Centering perspectives from LGBTQ people women of color and members of other marginalized communities this is a groundbreaking and vitally important resource Covering academic and professional spheres *Women in Wildlife Science* draws on enlightening personal stories and peer reviewed scientific literature unavailable anywhere else to explain the challenges women face in the field of wildlife conservation and management The contributors tackle pivotal issues from recruitment into academic programs to hiring practices and ways to support career advancement in federal state local tribal and private sectors Each chapter includes practical advice and original exercises constructed to help administrators educators managers allies and mentors move intentions into action This pragmatic guide will help to ensure a more diverse just and equitable future for a workforce dedicated to preserving wildlife and the whole of the natural world
