Reflecting Black:

Reflecting Black Michael Eric Dyson, 1993-01-01 *Reflecting Black* Michael Eric Dyson, Professor of Communication Studies Michael Eric Dyson, 1993 From rap music to preaching from Toni Morrison to Leonard Jeffries from Michael Jackson to Michael Jordan *Reflecting Black* explores as never before the varied and complex dimensions of African American culture through personal reflection expository journalism scholarly investigation and even homily **Black Women Abolitionists** Shirley J. Yee, 2024-09-04 By virtue of being both black and female in antebellum America black women abolitionists confronted a particular set of tensions Whether they supported the movement directly or indirectly cooperated with whites or primarily with other blacks worked in groups or independently were well off financially or struggled to make ends meet their lives reflected the complex dynamics of race sex and class Against the background of slavery constructing a life in freedom meant adopting many of the values of free white society symbolized in part by male dominance and female subordination In championing both their race and their sex female black abolitionists found themselves caught between the sexism of the antislavery movement and the racism of the white women s movement Throughout their writing speeches petitions and participation in antislavery and self help organizations these women established a pattern of black female activism centered on community building political organizing and forging a network of friendships with other activists that served as a model for later generations of black women Drawing on a wide array of previously untapped primary sources Shirley Yee examines the activism of black women in the Northeast the Midwest and to some extent California and Canada The activists experiences render heartbreakingly clear the pervasiveness of middle class white values in antebellum America and the contradictions and ironies inherent in prevailing conceptions of freedom Shaping Our Responses to Violent and Demeaning Imagery in Popular Music United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Juvenile Justice, 1995 Distributed to some depository libraries in microfiche **African American Nationalist Literature of the 1960s** Sandra Hollin Flowers, 2019-09-25 Bringing together political theory and literary works this study recreates the political climate which made the 1960s an unforgettable era for young black Americans A chapter on The Many Shades of Black Nationalism for instance explains why black nationalism is known by more than a dozen different names how events in Africa influenced black nationalism in America why Malcolm X s death had a greater impact on nationalism than did his life and how the United States government unwittingly became nationalism s ally Another chapter explores the bitter feud between the dominant factions of the 1960s cultural and revolutionary nationalists This feud erupted in both verbal and armed warfare and generated an abundance of political theory and literary works much of which is out of circulation but is examined in the study Nationalist poetry theater and fiction are each treated in separate chapters which exemplify the aesthetic and political concerns of this memorable period in American history and letters Aside from its unique combination of artistic and political works what makes this book important is the current revival of nationalist sentiment in African

American life and arts Though this revival is closely identified with the nationalism of the 1960s it lacks the focus of that period This study explains what gave the nationalism of the 1960s its focus how that focus was expressed in art forms and why 1960s nationalism continues to influence the African American identity and will probably do so well into the twenty first century

Civility in the City Jennifer Lee, 2002 Hollywood and the news media have repeatedly depicted the inner city retail store as a scene of racial conflict and acrimony *Civility in the City* uncovers a quite different story Jennifer Lee examines the relationships between African American Jewish and Korean merchants and their black customers in New York and Philadelphia and shows that in fact social order routine and civility are the norm Lee

illustrates how everyday civility is negotiated and maintained in countless daily interactions between merchants and customers While merchant customer relations are in no way uniform most are civil because merchants actively work to manage tensions and smooth out incidents before they escalate into racially charged anger Civility prevails because merchants make investments to maintain the day to day routine recognizing that the failure to do so can have dramatic consequences How then do minor clashes between merchants and customers occasionally erupt into the large scale conflicts we see on television Lee shows how inner city poverty and extreme inequality coupled with the visible presence of socially mobile newcomers can provide fertile ground for such conflicts The wonder is that they occur so rarely a fact that the media ignore **Ebony** ,1974-10 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine Women of Color and Social Media Multitasking Sonja M.
