Reflection Through Interaction:

Reflection Through Interaction Judith Watson, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company Reflection Through Interaction Judith Watson Moray House Institute of Education, 2019-06-19 First Published in 1996 Teaching approaches for pupils with learning difficulties have often emphasized the presentation and repetition of easily manageable tasks rather than exploration learning through mistakes and reflection However there is encouraging evidence that such pupils may be helped to develop effective learning approaches with marked improvements in their academic performance and self concept The importance of the teacher s role in facilitating pupils reflective activity cannot be overstated This book locates reflective experiences within classroom interaction and discusses a variety of ways in which teachers can foster reflection These include their classroom talk challenging activities and the creation of an ethos where expectations are high and pupils thinking and self awareness are shown to be valued Most but not all of the classroom research reported here was conducted in special schools for pupils with moderate learning difficulties but the findings have implications for teachers of a wide range of pupils in both special and ordinary schools The hope is that they will be stimulated to incorporate some of the ideas in this book into their own practice **Interaction in Action** Dave

Hewett, Melanie Nind, 2013-10-28 First Published in 1998 The authors aim in editing *Interaction in Action* is to follow up on the thinking and practical guidance contained in their previous work on *Intensive Interaction* They hope to illustrate that *Intensive Interaction* is not just something that goes on in hospital schools Here we see the approach used not only by teachers but also by speech therapists occupational therapists social workers psychologists and parents We see the approach used in people s homes as well as in education and day centres The contributors have been asked to share their insights the way they think about *Intensive Interaction* as well as the way that they do it This means that the chapters contain both reflective analysis and vivid description The contributions illustrate how *Intensive Interaction* has grown and developed as an educational approach and as a way of being with people and they illustrate the impact on all those involved
