Narrative Ontology Axel Hutter,2021-11-18 This book is a critical inquiry into three ideas that have been at the heart of philosophical reflection since time immemorial freedom God and immortality Their inherent connection has disappeared from our thought We barely pay attention to the latter two ideas and the notion of freedom is used so loosely today that it has become vacuous Axel Hutter s book seeks to remind philosophy of its distinct task only in understanding itself as human self knowledge that articulates itself in these three ideas will philosophy do justice to its own concept In developing this line of argument Hutter finds an ally in Thomas Mann whose novel *Joseph and His Brothers* has more to say about freedom God and immortality than most contemporary philosophy does

Through his reading of Mann's novel *Hutter* explores these three ideas in a distinctive way. He brings out the intimate connection between philosophical self-knowledge and narrative form. Mann's novel gives expression to the depth of human self-understanding and thus demands a genuinely philosophical interpretation. In turn, philosophical concepts are freed from abstractness by resonating with the novel's motifs and its rich language. *Narrative Ontology* is both a highly original work of philosophy and a vigorous defence of humanism. It brings together philosophy and literature in a creative way; it will be of great interest to students and scholars in philosophy, literature, and the humanities in general.

Human Communication as Narration Walter R. Fisher, 2021-06-03. This book addresses questions that have concerned rhetoricians, literary theorists, and philosophers since the time of the pre-Socratics and the Sophists: How do people come to believe and to act on the basis of communicative experiences? What is the nature of reason and rationality in these experiences? What is the role of values in human decision-making and action? How can reason and values be assessed? In answering these questions, Professor Fisher proposes a reconceptualization of humankind as *homo narrans*, that all forms of human communication need to be seen as stories, symbolic interpretations of aspects of the world occurring in time and shaped by history, culture, and character, that individuated forms of discourse should be considered good reasons, values, or value-laden warrants for believing or acting in certain ways, and that a narrative logic, that all humans have natural capacities to employ, ought to be conceived of as the logic by which human communication is assessed.

Listen Leader Guide Bishop Rueben P. Job, 2014-01-07. We live in a world of noise. Everywhere we go, we hear sounds that compete for our minds and hearts. Listening to God requires a deliberate choice to shut out the chaos around us and focus our thoughts. *Listen* by Rueben P. Job is a 40-day experience created to offer help to those new to prayer, those with a daily prayer routine, and those whose lives seem too busy to pray. With a focus on listening prayer and prayer as a two-way conversation, the experience will assist individuals and groups in building and deepening a personal prayer practice and spiritual discernment. As we learn to listen, we find a new depth and fulfillment in our relationship with God and a new experience of God as guide and companion in our lives. The daily prayer pattern includes an invitation, silence, Bible reading, a story, guided time for reflecting and listening, and practical help for developing six specific prayer practices. *Listen* is perfect for use by individuals, small groups, or congregations during Lent, Easter, or any time of year.
