Five Things I've Learned About Life from Working in a Nursing Home Ana Lydia Peeks, 2018-10-16 This book is not scientific in nature nor is it heavily embedded with literature or references on the aging process Instead I share my reflections about themes that emerged in my work as a professional in a nursing home At times I will share my own experiences to illustrate a point This book is written as an invitation to guide readers to lift the veil into what could be viewed as a complex process that is the aging process While we are all headed toward this developmental benchmark as we grow older the path of aging influences us all This book is not psychotherapy and residents are not identified as case studies Rather the aim of this book is for readers to reflect on the themes highlighted in each chapter It is as if we are sitting together and exchanging viewpoints about the various thematic chapters in this book In each chapter I

use metaphors to underscore my observations The book s format is divided into chapters Each chapter has a title and a subtitle describing each theme as a jewel To understand this picture yourself sitting in your favorite chair with a cup of tea and reading a chapter in this book Questions poised in the chapters in this book are questions that I reflected on in my own discovery about aging and thus I feel compelled to share them with you Since a jewel is the subtitle of each chapter why not experiment and develop your own treasure chest There are numerous arts and crafts stores that carry boxes that can be decorated to resemble a treasure chest as we all have the ability to be creative Further as part of this process consider choosing a favorite color or colors as your own personal jewel s place it inside your personalized treasure chest and pour your hopes dreams and aspirations onto it It is surprising what this process may reveal Even more imagine having your own treasure chest and as you raise the lid a beautiful golden light emerges revealing five sparkling jewels As you read each chapter imagine holding one of these beautiful jewels in your hand As you study the jewel s brilliance coupled with the themes in each chapter it is my hope that you too will discover a treasure trove of jewels that embody the golden years

Daisys Will Grow Anywhere Elizabeth Ammons,2001-05-11 Elizabeth Ammons grew up as the youngest member in a family of eight children in a household governed by survival of the strongest Against the greatest of odds she managed to survive a childhood filled with memories of incest rape and torture Yet her survival carried a price and that price was the shattering of her soul By the time Elizabeth was born her family had become a distorted and wicked caricature of the perfect American families depicted on television in the early 50 s Neglected and abused from birth she was forced at a very early age to protect herself from the evil that surrounded her At the age of three the first of thirty two alter personalities was formed Stone Child was a catatonic unfeeling toddler who could endure almost anything even the violent savage rape by her father while being held down by her older sister Elizabeth s ability to insulate herself from an unbearable existence served her well as a child it enabled her survival but it created havoc in her life as an adult She began to experience longer and longer periods of lost time sometimes hours sometimes days sometimes months when she was unaware of her surroundings or her actions Life became even more chaotic for Elizabeth following a thwarted suicide attempt on her fortieth birthday It was while hospitalized she was diagnosed with Multiple Personality Disorder and began therapy After being told by a psychiatrist and several therapists she was not the birth person but simply another personality Elizabeth set out to prove otherwise by forcing the alters to give up their secrets Essentially Elizabeth had created an alter to cope with each aspect of her life Among the thirty two there were the children Molly and Rachel who scribbled on walls and loved lollipops Carl the mechanic

who also handled bathroom duties Jennifer the cold efficient businesswoman Sarah the religious fanatic Ginny the 18 year old who loved to have sex for teddy bears and Cuemaster who delegated the duties and maintained control The memories of the traumatic events which caused these alters and others to be created had been left with them not Elizabeth Through eight months of intensive therapy Elizabeth reclaimed those memories uncovering secrets kept hidden for years in the dark recesses of her mind Shortly after being diagnosed with MPD in 1990 Elizabeth formed a support group for survivors of incest and child abuse The name Daisys In Recovery was taken from her childhood spelling for daisies Daisys gained non profit status in 1992 and implemented an outreach jail program called Victims No More in 1995 Although Elizabeth s story is a grim chronicle of a child s shattered soul it is more importantly the successful triumph of the human spirit It is a portrait of a woman who embodies the true meaning of forgiveness Her story has become an inspiration to many who have endured abuse and is one of hope and encouragement for all in the face of despair Dimly Lit Room Daniel Beaupre,2014-02-24 A man attempts to commit suicide fails and awakens in a hospital room He then goes on a trip to attempt to discover who he is
