Penllyn Village: Lest We Forget E. Gloria Stewart

Jones, 2008-08-15 This book is written especially to honor the residents in a small black community whose time as a totally black community may be ending Not all Black Americans have lived in the urban areas of this country not a better life but different It is hoped that any who read this book would see that the hopes dreams and life styles of many Black Americans are no different than those of other Americans This story is about such people Just beyond the Bethlehem Baptist Church on the corner of Penllyn Blue Bell Pike and Trewellyn Avenue in the village of Penllyn Lower Gwynedd Township in Montgomery County Pennsylvania rests a predominantly black settlement The people who founded the church are the same people who established a firm foundation for the community But there is something more to the church and residents whose presence there dates back 120 years The author's purpose is to document their presence before their rich history is swept away by changing demographics The book's focus is on the black immigrants from Virginia who were recruited from the farmlands of Westmoreland County Virginia to those in Gwynedd and surrounding areas in Pennsylvania There is a brief acknowledgment of the settlement of the Welsh and other Eastern and Southern Europeans as well as the aristocracy who came before Also noted are the ties to the Revolutionary War and structures that could be considered as historic sites still remaining in the village A review of their southern roots was important to understanding the residents' success in their new home They had strong ties to their families and skills already gained back home Some came to make enough money to send home to buy the farmland back in Virginia that their forefathers had farmed under the yoke of slavery Some succeeded and returned home Others remained to find work in the mills and estates of the wealthy some were able to start small businesses of their own Their settlement began with a prayer group of nineteen people that met in a home in Springhouse PA in 1885 Told from the perspective of the elders in the community the expanding group had already become a community in faith and spirit if not in residence In 1888 having outgrown their meeting site they established a church in Penllyn Village and the first black resident moved into the village When malicious arson caused that church to burn down they built another For the greater part of 120 years the church was their anchor It is continually illustrated that the early church leadership encouraged them in developing business acumen political savvy and artistic talents Two major land investments established the village as a black community The first was the purchase of a block of land by young black entrepreneurs in the early 1900s It was during that time one sees the development of businesses and self sufficiency that held their community together The second and most challenging occurred in 1947 when they were able to develop what is believed to be the first Black corporation in the state of Pennsylvania in order to buy the Pershing estate The Penllyn Home Builders Association Inc sold stock for fifty dollars a share and bought the 40 acre estate As a result 50 more black owned homes were added to the community A discussion of their social and recreational activities from the early 1900s on are what has been observed in American culture throughout

Decolonizing International Service Learning Michael O'Sullivan,Harry Smaller,2023-04-24 Despite the existence of a robust literature reviewed throughout this text which critiques salvationist models of international Service Learning ISL including literature that advocates deeply reciprocal relationships between global northern sending organizations and global southern host organizations neocolonial models of ISL remain the dominant practice The authors pose an ISL model that puts north south reciprocity at the entre of ISL planning and implementation based on their research and engagement in multiple ISL experiences and importantly from the input of representatives of global southern host organizations at a south south gathering encuentro This constitutes a rupture with the current model that views the host village as an extension of a group leader s classroom rather it makes the host community a space for difficult learning based on what hosts want their visitors to take home The interruptions of ISL travel represented by COVID constituted an opportunity to consider alternative models despite the awareness of environmental impacts of travel it is likely that ISL trips will resume It is therefore increasingly important that the ISL experience becomes a means of generating solidarity rather than the reinforcement of neocolonial helping imperatives associated with the traditional model

Publishers' circular and booksellers' record ,1844 *My Birth was not Destiny* Whitman T. Browne,2024-10-16 For people who were poor black and from the working class growing up in a British Caribbean colony during the 1900s was a very difficult experience However from about the 1930s enlightenment ideological challenges and change were finding sound footing in the area more than ever before During that time British control and exploitation of the islands were being disrupted and challenged aggressively by labor unionists and Pan Africanists Further by the mid 1900s the British interest in and their ability to manage the islands successfully were failing At that time there was the disruptive political thrust from local labor unionists for changes in the islands story That emerging new leadership saw and promoted education as a necessary path to the future for working class people in the islands After the author learned to read having been encouraged by an older sister he read widely from the books available and his life began to experience transformation The author noted that his love for reading plus a growing exposure to education initiated the change and inspiration beyond the limiting society and thinking into which he was born In time Whitman s academic push helped him to become an educator mountain climber long distance swimmer photographer and more In all the changes which have come to the islands of St Kitts and Nevis he sees the local leaders push against the evils of British colonialism In time there was enlightenment and growth from education also through the love and inspiration of God Those were major forces which contributed to the reformation now seen in lives and around the islands In this book *My Birth Was Not Destiny* the author looks back at his life in Nevis and beyond He attributes his successes to focused struggles the illuminating power of

education and God's continuing intent to intervene in human lives always for good Dr Browne also expresses a truth that his children students the community and the wider world as a result of education and careful academic concentration can in time learn grow have their own sense of a transformative experience as their lives become inspired and refashioned Over time they too will reach toward the future intending to leave special markings on the sands of their time **Milwaukee**

Magazine, 2007-07 **The Castle** Seth Rogoff, 2024-10 Seth Rogoff's *The Castle* is a novel that engages with Franz Kafka's novel of the same title which famously ends mid sentence Built on a foundation of lost documents erased texts invented histories boxed manuscripts stolen sources and translations with no originals Rogoff writes an inverse reenactment of the original creative act the bringing forth of chaos from form in which the renowned translator Sy Kirschbaum travels out of the valley to the heart of the castle in a narrative that is at once a physical psychological literary and metaphysical journey into Kafka's abandoned world **National Magazine**, 1917 *Building the Workingman's Paradise* Margaret Crawford, 1995

This innovative and absorbing book surveys a little known chapter in the story of American urbanism the history of communities built and owned by single companies seeking to bring their workers homes and place of employment together on a single site By 1930 more than two million people lived in such towns dotted across an industrial frontier which stretched from Lowell Massachusetts through Torrance California to Norris Tennessee Margaret Crawford focuses on the transformation of company town construction from the vernacular settlements of the late eighteenth century to the professional designs of architects and planners one hundred and fifty years later Eschewing a static architectural approach which reads politics history and economics through the appearance of buildings Crawford portrays the successive forms of company towns as the product of a dynamic process shaped by industrial transformation class struggle and reformers efforts to control and direct these forces *Missionary Life Among the Villages in India* Thomas James Scott, 1876
