Becoming a Subject Marcia Cavell, 2006-02-23

Marcia Cavell draws on philosophy, psychoanalysis, and the sciences of the mind in an investigation of human subjectivity. She describes the ideal of a subject as an agent doing things for reasons and able to assume responsibility for itself. The book investigates what might stand in the way of this. **Reflections on Philosophy** Leemon B. McHenry, Frederick Adams, 2000

Reflections on

Naturalism José Ignacio Galparsoro, Alberto Cordero, 2013-09-04 To naturalists, there is no such thing as complete justification for any claim, and so requiring complete warrant for naturalist proposals is an unreasonable request. The proper guideline for naturalist proposals seems thus clear: develop it using the methods of science if this leads to a fruitful stance; then explicate and reassess. The resulting offer will exhibit virtuous circularity if its explanatory feedback loop involves critical reassessment as the explanations it encompasses play out. So viewed, naturalism is a philosophical perspective that seeks to unite in a virtuous circle the natural sciences and non-foundationalist, broadly based empiricism. Other common lines of antinaturalist complaint are that naturalization efforts seem fruitful only in some areas, also that several endeavors outside the sciences serve as sources of knowledge into human life and the human condition, especially in areas where science does not reach terribly far as yet. It seems hard not to grant some truth to many allegories from literature, art, and some religions. Naturalism has room for knowledge gathered outside science provided the imported claims satisfy also by naturalistic methods. Naturalism and the debate about its scope and limits thrive on discrepancy. We hope that collectively the selected essays that follow will give a fair view of the vitality and tribulations of naturalism as a variegated contemporary philosophical perspective. **The Philosophical I** George Yancy, 2002-11-19

Philosophy is shaped by life and life is shaped by philosophy. This is reflected in *The Philosophical I*, a collection of 16 autobiographical essays by prominent philosophers.

Candid and philosophically insightful these personal narratives critically call into question the belief that philosophy should be kept separate from the personal experience of philosophers Each contributor traces the fundamental influences both philosophical and otherwise that have shaped his or her identity In this postmodern world the self is often viewed as irreparably fragmented and fractured but the reflections in this volume point to a self that is a continuous though dynamic storyline What shines through in each of these essays is that philosophy is a profoundly personal adventure *The Philosophy of Reflection* Shadworth H Hodgson,2016-05-21 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
