Reflections of a Common Man Scott Eagan,      The Philosophical Reflection of Man in Literature Anna-Teresa Tymieniecka,2012-12-06      *Soren Kierkegaard and the Common Man* Jorgen Bukdahl,2009-03-10 Originally published in 1961 this study challenges the stereotype of Kierkegaard as being socially aloof and politically conservative Bukdahl does a thorough job of contextualizing Kierkegaard in nineteenth century Denmark shedding light on his relationships with his family various religious groups and the leading intellectual figures of his time At the same time Kierkegaard's fundamental interest in the plight of the common man is revealed both from his writings and his social encounters In addition to crafting a fine translation Bruce Kirmmse has expanded the usefulness of Bukdahl's work by including a significant biographical introduction informative notes identifying events and figures referenced in the text and a guide pointing readers to English translations of all of Kierkegaard's writings      **Collected Prefaces** Nicholas Hagger,2022-04-29 Nicholas Hagger's 55 books include innovative works on literature history philosophy and international politics In his first published literary work he revived the Preface which had fallen into disuse after Wordsworth and Shelley He went on to write Prefaces sometimes called Prologues Introductions or Introductory Notes for all his subsequent books *Collected Prefaces* a collection of 55 Prefaces excluding the Preface to this book sets out his thinking and the reader can follow the development of his philosophy of Universalism of which he is the main exponent his literary approach particularly his combination of Romanticism and Classicism which he calls neo Baroque and his metaphysical thinking His Prefaces can be read as essays and as in T S Eliot's *Selected Essays* there is an interaction between adjacent Prefaces that brings an entirely new perspective to Hagger's works These Prefaces cover an enormous range Nicholas Hagger is a Renaissance man at home in many disciplines His Universalism focuses on humankind's relationship to the whole universe as reflected in seven key disciplines seen as wholes the whole of literature history philosophy and the sciences mysticism religion international politics and statecraft and world culture Behind all the Prefaces is Hagger's fundamental perception of the unity of the universe as the One and of humankind's position in it These Prefaces complement his *Selected Letters* a companion volume also published by O Books and contain startling insights that illumine and send readers to the works the Prefaces introduce      The Monthly Magazine ,1826

**Introduction to Ethical Literary Criticism** Nie Zhenzhao,2023-09-15 The title is a thorough introduction to ethical literary criticism a critical methodology designed to interpret literature from the perspective of ethics including a whole set of concepts theories and working mechanisms Drawing on ideas from both Western ethical criticism and the Chinese tradition of moral criticism ethical literary criticism contrasts with the former in its occasional lack of a theoretical foundation and applicable methodologies and the latter that tends to make subjective moral judgments Its most groundbreaking argument is that while natural selection answers how humans are different from animals physically ethical selection

endows human beings with reason and ethical consciousness The ethical nature and edifying function of literature is therefore asserted seeking to unfold in the literary text the ethical choices of human beings as a way to complete ethical selection in society within historical context The arguments and theoretical toolbox inject a unique ethical dimension into literary criticism and help understand anew the ethical and social potency of literature The theoretical elucidation exemplary textual analyses and a supplement of key terminologies and ancillary materials make this book an essential guide for students and general readers interested in ethical literary criticism and scholars of literary criticism ethical criticism and literary theory

**Power and Image in Early Modern Europe** Jessica Goethals, Valerie McGuire, 2009-05-27 Are images and spectacles fundamental mediators of power relationships in the West This book draws upon the language of cultural studies to investigate a contemporary hypothesis in the shifting ideological landscape of early modern Europe Apparently aesthetic choices by artists may also have been the means to consolidate and subvert institutionalized or non institutionalized bodies of power Meanwhile communities in Europe reacted to the intrinsic power of the image in literature and letters commenting upon both its use and abuse Both diachronic and geographic connections are made among disparate but important moments of image making in the twelfth through seventeenth centuries The influence of Descartes is traced from La Rochefoucauld and the communal spectacles of the Ancien R gime salon to the Netherlands and Rembrandt s sketch Death of the Virgin Shakespeare bears similar anxieties about Joan of Arc s transgression of gender boundaries in Henry VI as does Castiglione s Courtier when serving the Renaissance Prince Spenser s dilemma about the non difference between fiction and history resolves itself in the same way as does the Byzantine rejection of iconoclasm Other articles in the collection examine anomie in Vatican frescoes by Giorgio Vasari corporeal decay and the supernatural as spectacle on the early modern English stage and affective self perception and subjectivity in the scoring of Italian opera not as just a conference volume but as an organic group of essays on early modernity The essays span an impressive number of cultures from Byzantium to England Italy and Spain to the Netherlands and theorize the image from a number of disciplinary vantage points Not surprisingly art history and theatre are well represented but so are music history and literary studies Most of the essays are short but sufficiently developed to allow for thoughtful arguments on the status of the visual in early modern culture on the stage on the page and as artistic and musical representation they do deliver fine close readings and leave me sufficiently intrigued to want to return to or familiarize myself with the original texts I come away from this collection encouraged about the state of graduate studies in Europe and North America Jane Tylus Professor of Italian and Comparative Literature and Vice Provost for Academic Affairs New York University The essays are interdisciplinary and touch upon many themes that lie outside my own field of specialization I was therefore surprised and pleased to find them not only original and instructive but also inviting and accessible to the non specialist Although they range far with respect to chronology and theoretical suppositions they are coherently united in their concern for the functioning of the image in the conservation revision or critique of socio political power in their respective cultural contexts I will mention three essays representing three different fields as striking examples of disparate images used to consolidate reconstruct or overthrow the dominant powers of their times Kathryn Falzareno s essay Mother s Milk and Deborah s Sword is a close reading of Shakespeare s portrayal of Joan of Arc in Henry VI It is a close analysis of the paradoxical status of Joan Saint of the French strumpet for the English Christian warrior maiden contrasting with Deborah in the Ancient Testament The dominant and totally unexpected image which brings together the contradictions embodied by Joan are the breasts the source of nurture in the figure of Mary but an encumbrance for the

mythological amazons who removed one breast to facilitate their use of the bow Ljubica Ilic s Echo and Narcissus Labyrinths of the Self is an elegant reading of echo music the apparently impossible translation of the Ovidian story into music and opera Ovid s story represents the nymph Echo as the auditory equivalent of Narcissus reflection echoing sound as reflecting light Ovid s echo myth undoubtedly influenced opera by Jacopo Peri during the time of the Medici and then Monteverdi in the musical setting of Orfeo Finally Elissa Auerbach s Taking Mary s Pulse Cartesianism and Modernity in Rembrandt s Death of the Virgin is a brilliant commentary on the Dutch painter s rendering of an ancient theme the dormition of the Virgin but at the center of the painting is the figure of a physician taking the pulse of her limp hand The intrusion of this scientific element in the ancient iconography of the event of Mary s death is the unmistakeable sign of the wave of modernity that swept over the Netherlands with the popularity of Cartesian philosophy and science John Freccero Professor of Italian and Comp Lit NYU **Research Papers** Georgia State University School of Arts and Sciences,1968 **The Book Monthly** James Milne,1905
