The Bible History of Prayer Charles Augustus Goodrich, 1851 *Scriptural Reflections on History* K. J. Popma, 2020-11-19 K J Popma a teacher of classical languages and a special professor of Reformed philosophy at the universities of Groningen and Utrecht wrote his book during the trying times of the Second World War The work outlines a philosophy of history rooted in Scripture and takes the account provided by Scripture seriously without eliminating its historical character either by spiritualizing its message or by undercutting it through an appeal to science It takes its cues from the Scriptural narrative creation and fall the tower of Babel Abraham and Israel Daniel s Four Empires and the principal division in world history the coming of Christ Popma s fresh and challenging approach to history utilizes the perspective of the Calvinistic philosophy associated with Herman Dooyeweerd but it does so in Popma s unique and idiosyncratic way and in a style that belies the learning that underlies it Nor does one need to have any special acquaintance with the specifics of Dooyeweerd s philosophy to profit from it At the same time the relation between history and theology is especially important the researcher who never took a peek in the workshop of theology will always be a bungler p 85 History is a unity and a continuity of the sacred and the secular of the course of salvation history and secular history of the here and the hereafter Nor does it end at the resurrection from the dead Our earthly task continues first in our task in heaven presently in our task on the new earth Thus it is not true that our earthly task comes to an end For heaven and earth belong together and our task never ends p 116 So then history is not something disconnected from eternity but continues into eternity There is a unity between heaven and earth between culture here and now and life in the renewed creation hereafter The aim of this book is to point to the splendour of the structure that God has built to history in its unity and course He who learns to see something of that splendour will foster a burning interest for what has happened and is still happening and will happen He will be afraid of nothing so much as the danger of shutting oneself up in a spiritual prison that makes it impossible to see the real history even if such a prison displays the finest inscriptions over its entrance and is comfortably and even luxuriously furnished Nor will he become discouraged when he discovers that history is full of injustice For he knows that those who hunger and thirst after righteousness will be satisfied p 133

we see certain human circumstances ones that are among the deepest and most decisive for the outer course of human history expressed through a relationship to art Rudolf Steiner Rudolf Steiner understood that the history of art is a field in which the evolution of consciousness is symptomatically and transparently revealed This informal sequence of thirteen lectures was given during the darkest hours of World War I It was a moment when the negative consequences of what he called the age of the consciousness soul which began around 1417 were made most terribly apparent In these lectures he sought to provide an antidote to pessimism After describing the movement of consciousness from Greece into Rome coupled with influences from the Orthodox East he showed how these influences transformed as the Middle Ages became the Renaissance The process that begins with Cimabue and Giotto develops deepens and becomes more conscious in the great Renaissance masters Leonardo Michelangelo and Raphael Then this movement continues with the Northern masters Dürer and Holbein as well as the German tradition One entire lecture is devoted to Rembrandt followed by one on Dutch and Flemish paintings Themes are woven together to show how past epochs of consciousness and art live again in our consciousness soul period Replete with interesting information and more than 600 color and black and white images these lectures are rich and dense with ideas enabling us to understand both the art of the Renaissance and the transformation of consciousness it announced These lectures demonstrate to paraphrase Shelley that artists truly are the unacknowledged legislators of the age Art History as a Reflection of Inner Spiritual Impulses is a translation from German of Kunstgeschichte als Abbild innerer geistiger Impulse GA 292 Rudolf Steiner Verlag 2000

History, Archaeology and The Bible Forty Years After Historicity Ingrid Hjelm, Thomas L. Thompson, 2016-02-22 In History Archaeology and the Bible Forty Years after Historicity Hjelm and Thompson argue that a crisis broke in the 1970s when several new studies of biblical history and archaeology were published questioning the historical critical method of biblical scholarship The crisis formed the discourse of the Copenhagen school's challenge of standing positions which together with new achievements in archaeological research demand that the regional history of ancient Israel Judaea and Palestine be reconsidered in all its detail This volume examines the major changes that have taken place within the field of Old Testament studies since the ground breaking works of Thomas Thompson and John van Setters in 1974 and 1975 both republished in 2014 The book is divided in three sections changing perspectives in biblical studies history and cult and ideology and history presenting new articles from some of the field's best scholars with comprehensive discussion of historical archaeological anthropological cultural and literary approaches to the Hebrew Bible and Palestine's history The essays question How does biblical history relate to the archaeological history of Israel and Palestine and Can we view the history of the region independently of a biblical perspective by looking at the problem from alternative angles and questioning long held interpretations Unafraid to break new ground History Archaeology and the Bible Forty Years after Historicity is a vital resource to students in the field of Biblical and East Mediterranean Studies and anyone with an interest in the archaeology history and religious development in

Palestine and the ancient Near East A Biblical History of Israel, Second Edition Iain Provan,V. Philips Long,Tremper Longman III,2015-10-23 For over a decade A Biblical History of Israel has gathered praise and criticism for its unapologetic approach to reconstructing the historical landscape of ancient Israel through a biblical lens In this much anticipated second edition the authors reassert that the Old Testament should be taken seriously as a historical document alongside other literary and archaeological sources Significantly revised and updated A Biblical History of Israel Second Edition includes the authors direct response to critics In part 1 the authors review scholarly approaches to the historiography of ancient Israel and negate arguments against using the Bible as a primary source In part 2 they outline a history of ancient Israel from 2000 to 400 BCE by integrating both biblical and extrabiblical sources The second edition includes updated archaeological data and new references The text also provides seven maps and fourteen tables as useful references for students **Theological Reflection: Methods, 2nd Edition** Elaine Graham,Heather Walton ,Frances Ward ,2019-02-27 Theological Reflections Methods offers a comprehensive collection of models of theological reflection By bringing this diverse collection together in one place the editors create a unique reference work that allows a clear and visible contrast and comparison as each model is treated formally and in a standard format Throughout each chapter the distinguishing features of the model are examined the geneology and origins are discussed worked examples of the model applied to contemporary theology are provided and critical commentary future trends and exercises and questions are provided Now firmly established as an essential text on theological reflection this new edition has been revised and updated with a new introduction updated examples and refreshed bibliographies *A Biblical History of Israel* Iain William Provan,V. Philips Long,Tremper Longman,2003-01-01 In this much anticipated textbook three respected biblical scholars have written a history of ancient Israel that takes the biblical text seriously as an historical document While also considering nonbiblical sources and being attentive to what disciplines like archaeology anthropology and sociology suggest about the past the authors do so within the context and paradigm of the Old Testament canon which is held as the primary document for reconstructing Israel s history In Part One the authors set the volume in context and review past and current scholarly debate about learning Israel s history negating arguments against using the Bible as the central source In Part Two they seek to retell the history itself with an eye to all the factors explored in Part One **Rewriting Biblical History** Pancratius Cornelis Beentjes,2011 Old Testament texts frequently offer a theological view of history This is very evident in the Books of Chronicles and in the final section of Ben Sira Ecclesiasticus Today there is renewed interest in both these works as significant theological and cultural Jewish documents from the centuries before Jesus Both Chronicles and Ben Sira aim to recreate a national identity centered on temple piety Some chapters in this volume consider the portrayal of Israelite kings like David Hezekiah and Josiah while others deal with prophets like Samuel and Elijah
