is based on one's share in common property. We must return to the forgotten dimension of sharing not as a sharing of things that we can contain and own but as a process that divides us up and shares us out in community with one another. This book traces this problem through a wide array of fields ranging from biopolitics, communitarianism, existentialism, phenomenology, political economy, radical philosophy, and social theory.

Roberto's Dream: The Courage to Construct Pasquale De Marco, *Roberto's Dream: The Courage to Construct* is a heartwarming story about a young termite with a big dream. Roberto wants to be an architect but his family and friends don't believe in him. They tell him that he should follow in their footsteps and become a termite exterminator. Roberto isn't discouraged. He knows that he has the talent and the determination to succeed. So he leaves his home and sets off on a journey to the big city where he hopes to find a place where he can pursue his dream. Along the way, Roberto meets a cast of colorful characters who help him on his journey. There's the wise old owl who shares his knowledge of architecture with Roberto. There's the friendly spider who helps Roberto find a place to live in the big city. And there's the hardworking ant who teaches Roberto the importance of perseverance. Despite the challenges he faces, Roberto never gives up on his dream. He works hard, learns from his mistakes, and eventually achieves his goal of becoming an architect. Roberto's story is an inspiration to us all. It shows us that anything is possible if we set our minds to it and never give up. Roberto's Dream is also a story about the importance of community. When Roberto arrives in the big city, he is alone and afraid. But he soon finds a community of friends who support him and help him achieve his dreams. Roberto's story shows us that we are all stronger when we work together. Roberto's Dream is a story that will stay with you long after you finish reading it.
