Reflexive Historical Sociology, The Oxford Handbook of Qualitative Research Patricia Leavy, 2020 The Oxford Handbook of Qualitative Research Second Edition presents a comprehensive interdisciplinary overview of the field of qualitative research Divided into eight parts the forty chapters address key topics in the field such as approaches to qualitative research philosophical perspectives narrative inquiry field research and interview methods text arts based and internet methods analysis and interpretation of findings and representation and evaluation The handbook is intended for students of all levels faculty and researchers across the disciplines and the contributors represent some of the most influential and innovative researchers as well as emerging scholars This handbook provides a broad introduction to the field of qualitative research to those with little to no background in the subject while providing substantive contributions to the field that will be of interest to even the most experienced researchers It serves as a user friendly teaching tool suitable for a range of undergraduate or graduate courses as well as individuals working on their thesis or other research projects With a focus on methodological instruction the incorporation of real world examples and practical applications and ample coverage of writing and representation this volume offers everything readers need to undertake their own qualitative studies

Max

Weber and Michel Foucault Arpad Szakolczai, 2013-09-13 Max Weber and Michael Foucault are among the most controversial and fascinating thinkers of our century This book is the first to jointly analyse them in detail and to make effective links between their lives and work it coincides with a substantial resurgence of interest in their writings The author's exciting interpretative approach reveals a new dimension in reading the work of Foucault and Weber it will be invaluable to students and those researching in sociology and philosophy

Ruling by Schooling Quebec Bruce Curtis, 2012-01-01 Ruling by Schooling Quebec provides a rich and detailed account of colonial politics from 1760 to 1841 by following repeated attempts to school the people This first book since the 1950s to investigate an unusually complex period in Quebec's educational history extends the sophisticated method used in author Bruce Curtis's double award winning Politics of Population Drawing on a mass of archival material the study shows that although attempts to govern Quebec by educating its population consumed huge amounts of public money they had little impact on rural ignorance while near universal literacy reigned in New England by the 1820s at best one in three French speaking peasant men in Quebec could sign his name in the insurrectionary decade of the 1830s Curtis documents educational conditions on the ground but also shows how imperial attempts to govern a tumultuous colony propelled the early development of Canadian social science He provides a revisionist account of the pioneering investigations of Lord Gosford and Lord Durham

Liminality and the Modern Bjørn Thomassen, 2016-05-06 This book provides the history and genealogy of an increasingly important subject liminality Coming to the fore in recent years in social and political theory and extending beyond its original use as developed within anthropology liminality has come to denote spaces and moments in which the taken for granted order of the world ceases to exist and novel forms emerge often in unpredictable ways Liminality and the Modern offers a comprehensive introduction to this concept discussing its development and laying out a conceptual and experiential framework for thinking about change in terms of liminality Applying this framework to questions surrounding the implosion of non spaces the analysis of major historical periods and the study of political revolution the book also explores its possible uses in social science research and its implications for our understanding of the uncertainty and contingency of the liquid structures of modern society Shedding new light on a concept central to social thought as well as its capacity for pushing social and political theory in new directions this book will be of interest to scholars across the social sciences and philosophy working in fields such as social political and anthropological theory cultural studies social and cultural geography and historical anthropology and sociology

Axial Civilizations And World History Jöðunn Pállsson, S. Shmuel Noah Eisenstadt, Björn Wittrock, 2005 A collection of essays by social theorists historical sociologists and area specialists in classical biblical and Asian studies The contributions deal with cultural transformations in major civilizational centres during the Axial Age the middle centuries of the last millennium BCE and their long term consequences

The houses of history Anna Green, Kathleen Troup, 2016-08-15 The houses of history is a clear jargon free introduction to the major theoretical approaches employed by historians This

innovative critical reader provides accessible introductions to fourteen schools of thought from the empiricist to the postcolonial including chapters on Marxist history Freud and psychohistory the Annales historical sociology narrative gender public history and the history of the emotions Each chapter begins with a succinct description of the ideas integral to a particular theory The authors then explore the insights and controversies arising from the application of this model drawing upon debates and examples from around the world Each chapter concludes with a representative example from a historian writing within this conceptual framework This newly revised edition of the highly successful textbook is the ideal basis for an introductory course in history and theory for students of history at all levels

Islam after Liberalism Faisal Devji, Zaheer Kazmi, 2017-12-01 Forged in the age of empire the relationship between Islam and liberalism has taken on a sense of urgency today when global conflicts are seen as pitting one against the other More than describing a civilizational fault line between the Muslim world and the West however this relationship also offers the potential for consensus and the possibility of moral and political engagement or compatibility The existence or extent of this correspondence tends to preoccupy academic as much as popular accounts of such a relationship This volume looks however to the way in which Muslim politics and society are defined beyond and indeed after it Reappraising the first wave of Islamic liberalism during the nineteenth century the book describes the long and intertwined histories of these categories across a large geographical expanse By drawing upon the contributions of scholars from a variety of disciplines including philosophy theology sociology politics and history it explores how liberalism has been criticised and refashioned by Muslim thinkers and movements to assume a reality beyond the abstractions that define its compatibility with Islam

The Technologisation of the Social Paul O'Connor, Marius Ion Bența, 2021-12-30 In an era of digital revolution artificial intelligence big data and augmented reality technology has shifted from being a tool of communication to a primary medium of experience and sociality Some of the most basic human capacities are increasingly being outsourced to machines and we increasingly experience and interpret the world through digital interfaces with machines becoming ever more social beings Social interaction and human perception are being reshaped in unprecedented ways This book explores this technologisation of the social and the attendant penetration of permanent liminality into those aspects of the lifeworld where individuals had previously sought some kind of stability and meaning Through a historical and anthropological examination of this phenomenon it problematises the underlying logic of limitless technological expansion and our increasing inability to imagine either ourselves or our world in other than technological terms Drawing on a variety of concepts from political anthropology including liminality the trickster imitation schismogenesis participation and the void it interrogates the contemporary technological revolution in a manner that will be of interest to sociologists social and anthropological theorists and scholars of science and technology studies with interests in the digital transformation of social life

Handbook of Contemporary European Social Theory Gerard Delanty, 2006-09-27 This innovative publication maps out the broad and interdisciplinary field of contemporary European

social theory It covers sociological theory the wider theoretical traditions in the social sciences including cultural and political theory anthropological theory social philosophy and social thought in the broadest sense of the term This volume surveys the classical heritage the major national traditions and the fate of social theory in a post national and post disciplinary era It also identifies what is distinctive about European social theory in terms of themes and traditions It is divided into five parts disciplinary traditions national traditions major schools key themes and the reception of European social theory in American and Asia Thirty five contributors from nineteen countries across Europe Russia the Americas and Asian Pacific have been commissioned to utilize the most up to date research available to provide a critical international analysis of their area of expertise Overall this is an indispensable book for students teachers and researchers in sociology cultural studies politics philosophy and human geography and will set the tone for future research in the social sciences

Reinventing Hierarchy and Bureaucracy Thomas Diefenbach, Rune Todnem By, 2012-05-10 This volume brings together leading scholars in the field of organisation studies to reflect on the universal phenomena of hierarchy vertical organisation of tasks and bureaucracy rule bound execution of tasks resulting in a colourful kaleidoscope of thought provoking critical and refreshingly non mainstream analysis *Godless Intellectuals?* Alexander Riley, 2010 Few have failed to recognize the return of the religious as a factor in social theory None so far has more cogently explained the contributions of French social thought to the challenge of the Sacred in our day than Riley a HARLES LEMERT author of Durkheim's Ghosts

Imaginative Methodologies in the Social Sciences Michael Hviid Jacobsen, Michael S. Drake, Anders Petersen, 2017-05-15 *Imaginative Methodologies in the Social Sciences* develops expands and challenges conventional social scientific methodology and language by way of literary poetic and other alternative sources of inspiration as sociologists social workers anthropologists criminologists and psychologists all rethink provoke and reignite social scientific methodology Challenging the mainstream orthodoxy of social scientific methodology which closely guards the boundaries between the social sciences and the arts and humanities this volume reveals that authors and artists are often engaged in projects parallel to those of the social sciences and vice versa thus demonstrating that artistic and cultural production does not necessarily constitute a specialist field but is in fact integral to social reality As such it will be of interest to scholars and students in the social sciences and across the arts and humanities working on the philosophy of social science methodology social theory creativity poetics pedagogy and other related topics *The French Revolution and Its Legacy* Camil Francisc Roman, 2025-06-30 This book offers an interpretation of the French Revolution and modern democracy arguing that the revolution gave rise to a democratic power that is liminal by nature and therefore unlimited unaccountable on principle and the basis for a state religion of continuous transformation It demonstrates these claims by focusing on the universally adulated but little understood sacred motto *libert egalit fraternit* and on the sacrifice and role of Louis XVI in the revolution Analysing the revolutionary process by which representative democratic government took the shape of political

metamorphosis the book shows that modern democracy does not represent the people but refers to the representation of representation and the existential condition of permanent displacement The present study will appeal to scholars from across the social political and human sciences with an interest in the French Revolution modern democracy political modernity contemporary politics and the history of art The Social Pathologies of Contemporary Civilization Kieran

Keohane,2016-03-03 The Social Pathologies of Contemporary Civilization explores the nature of contemporary malaises diseases illnesses and psychosomatic syndromes examining the manner in which they are related to cultural pathologies of the social body Multi disciplinary in approach the book is concerned with questions of how these conditions are not only manifest at the level of individual patients bodies but also how the social bodies politic are related to the hegemony of reductive biomedical and individual psychologistic perspectives Rejecting a reductive biomedical and individualistic diagnosis of contemporary problems of health and well being The Social Pathologies of Contemporary Civilization contends that many such problems are to be understood in the light of radical changes in social structures and institutions extending to deep crises in our civilization as a whole Rather than considering such conditions in isolation both from one another and from broader contexts this book argues that health and well being are not just located at the level of the individual body the integral human person or even collective social bodies rather they encompass the health of humanity as a whole and our relationship with Nature A ground breaking analysis of social malaise and the health of civilization this book will be of interest to scholars of sociology social theory social psychology philosophy and anthropology *Modernity and*

Postmodernity Gerard Delanty,2000-04-19 This accessible and comprehensive overview of the main issues on the modernity postmodernity controversy is the first clear sighted book on the subject It surveys modern social theory from Kant to Weber with economy and masterly precision And evaluates the work of the Frankfurt School Arendt Strauss Luhmann Habermas Heller Castoriadis and Touraine before moving on to consider the approaches of the leading writers on postmodernity Lyotard Vattimo Derrida Foucault and Jameson The result is a new way of conceptualizing the modernity postmodernity debate and an exciting new approach to the roots of contemporary social theory The Politics of Becoming European

Maria Mälksoo,2009-10-26 This book weaves together perspectives drawn from critical international relations anthropology and social theory in order to understand the Polish and Baltic post Cold War politics of becoming European Approaching the study of Europe s eastern enlargement through a post colonial critique author Maria Mälksoo makes a convincing case for a rethinking of European identity Drawing on the theorist Edward Said she contends that studies of the European Union are marked by a prevailing Orientalism rarely asking who has traditionally been able to define European identity and whether this identity should be presented as an historical process rather than a static category The central argument of this book is that the historical experience of being framed as simultaneously in Europe and yet not quite in Europe informs the current self understandings and security imaginaries of Poland and the Baltic States Exploring this existential condition of liminal

Europeaness among foreign and security policy making elites the book considers its effects on key security policy issues including relations with Western Europe Russia and the United States Supported by solid empirical analyses this book provides an innovative and interdisciplinary approach to the post Cold War predicament of Poland and the Baltic States It will be of interest to students and scholars of International Relations European Studies Social and Political Theory and Anthropology

Rethinking Civilizational Analysis Said Amir Arjomand, Edward A Tiryakian, 2004-06-09 At last a volume on civilization that truly reflects the complexity of multiple civilizations The wealth of contributions Arjomand and Tiryakian have assembled demonstrates the value of an old concept for understanding the awful dilemmas confronting human kind in the global age Its thoroughgoing renewal here establishes this book as the essential benchmark for future scholars of civilization Martin Albrow Founding Editor of International Sociology and author of The Global Age winner of the European Amalfi Prize 1997 In our tension filled world many are heralding and others fearing a clash of civilizations The contributors to this volume provides a healthy and persuasive argument about why this clash need not and certainly should not take place They do so moreover not by rejecting the concept of civilization but by developing a less primordial homogenous and essentialist concept of it An important collection that provides illumination in this sometimes frighteningly dark time Jeffrey Alexander Professor and Chair of Sociology at Yale University The concept of civilization may well replace the notions of globalization and identity as the core component in the vocabulary of 21st century sociology The authors contribute a great deal to the clarification of fashionable controversies around the clash of civilizations and multiculturalism They go a long way toward purging the concept of civilization of its ideological overtones and they succeed admirably in turning it into powerful analytic tool of an emerging field of macrosociology known already as civilizational analysis Piotr Sztompka President International Sociological Association Although the concept of civilization has deep roots in the social sciences there is an urgent need to re think it for contemporary times This book points to an exhaustion in using the nation state and world system as the basic macro units of social analysis because they do not get to grips with the soft power variable of cultural factors involved in global aspects of development Also globalization requires us to reconsider the link between civilization and a fixed or given territory This book focuses upon the dynamic aspect of civilizations Among the topics covered are Civilizational analysis and social theory Global civilization and local cultures Civilizational forms Rationalization and Civilization Civilizations as zones of prestige Historical and comparative dimensions of civilization The clash of civilizations
