**Reflexivity in Tristram Shandy** James E. Swearingen, 1977-01-01      **Reflexivity in Tristram Shandy** James E. Swearingen,      **Laurence Sterne and the Visual Imagination** W.B. Gerard, 2016-12-05 The first full length and comprehensive study of the illustrations of Sterne s work this book explores the ability of Sterne s texts to inspire the visual imagination It helps to explain why scores of editions of his fiction have been illustrated some profusely to fulfill the reader s desire as well as the artist s compulsion to visualize Sterne s words Gerard places his subject in a clear and innovative theoretical framework which opens the field to general word and image studies The author begins by examining the distinct varieties of pictorialism in Sterne s texts The remainder of the study takes into account three remarkable series of illustrations representing Trim reading the sermon didactic sentimentalism in *A Sentimental Journey* and Henry Mackenzie s *Man of Feeling* and the many and diverse portrayals of poor Maria to demonstrate the ways in which culture projects these texts differently through the various artists      **The Reflexive Thesis** Malcolm Ashmore, 1989-08-02 This unusually innovative book treats reflexivity not as a philosophical conundrum but as a practical issue that arises in the course of scholarly research and argument In order to demonstrate the concrete and consequential nature of reflexivity Malcolm Ashmore concentrates on an area in which reflexive problems are acute the sociology of scientific knowledge At the forefront of recent radical changes in our understanding of science this increasingly influential mode of analysis specializes in rigorous deconstructions of the research practices and textual products of the scientific enterprise Through a series of detailed examinations of the practices and products of the sociology of scientific knowledge Ashmore turns its own claims and findings back onto itself and opens up a whole new era of exploration beyond the common fear of reflexive self destruction

**Laurence Sterne in Modernism and Postmodernism** David Pierce, Peter de Voogd, 2023-04-17 Laurence Sterne s *Tristram Shandy* is the most wayward and in some respects the most powerful critique of Locke s theory of knowledge while his interest in the gulf between biological and clock time makes him a contemporary of Proust and Bergson In obscuring the fine line between autobiography and fiction Sterne belongs to the generation of modern writers that includes Joyce and Nabokov In his deliberate refusal to construct a goahead plot Sterne commends himself to contemporary narratologists In his concern with personal identity he anticipates the Derridean stress on trace In his promiscuous borrowings from past authors he offers himself as a suitably perverse model for the school of postmodern theory In his attention to matters of typography and to a visual language he provides a running commentary on almost every aspect of the relationship between word and image Himself influenced by Rabelais Montaigne Cervantes and Burton Sterne has influenced writers as diverse as Cabrera Infante Kundera Marquez Rushdie and Beckett And James Joyce These influences are traced here by sixteen scholars from Europe and the USA proof if any were needed that Laurence Sterne today is as rewardingly puzzling as he was in his own century

*The Age of Reasons* Wendy Motooka, 2013-05-13 Wendy Motooka contends that the Age of Reason was actually an Age of

Reasons Joining imaginative literature moral philosophy and the emerging discourse of the new science she seeks to historicise the meaning of eighteenth century reason and its supposed opposites quixotism and sentimentalism Reading novels by the Fieldings Lennox and Sterne alongside the works of Adam Smith Motooka argues that the legacy of sentimentalism is the social sciences This book raises our understanding of eighteenth century British culture and its relation to the rational culture of economics that is growing ever more pervasive today

Theory and the Novel Jeffrey Williams, 1998-12-03 Narrative features such as frames digressions or authorial intrusions have traditionally been viewed as distractions from or anomalies in the narrative proper In Theory and the Novel Jeffrey Williams exposes these elements as more than simple disruptions analysing them as registers of narrative reflexivity that is moments that represent and advertise the functioning of narrative itself Williams argues that narrative encodes and advertises its own functioning and modal form He takes a range of novels from the English canon Tristram Shandy Joseph Andrews The Turn of the Screw Wuthering Heights Lord Jim and Heart of Darkness are amongst the novels examined and shows how narrative technique is never beyond or outside plot He poses a series of theoretical questions such as about reflexivity imitation and fictionality to offer a striking and original contribution to readings of the English novel as well as to discussions of theory in general

**The Cambridge Companion to the Eighteenth-Century Novel** John Richetti, 1996-09-05 In the past twenty years our understanding of the novel s emergence in eighteenth century Britain has drastically changed Drawing on new research in

social and political history the twelve contributors to this Companion challenge and refine the traditional view of the novel's origins and purposes. In various ways each seeks to show that the novel is not defined primarily by its realism of representation but by the new ideological and cultural functions it serves in the emerging modern world of print culture. Sentimental and Gothic fiction and fiction by women are discussed alongside detailed readings of work by Defoe, Swift, Richardson, Henry Fielding, Sterne, Smollett, and Burney. This multifaceted picture of the novel in its formative decades provides a comprehensive and indispensable guide for students of the eighteenth-century British novel and its place within the culture of its time.

**Philosophical Conceptualization and Literary Art** Phillip Stambovsky, 2004. In sum, this original inquiry uniquely respects the cognitional diversity that distinguishes the revelatory poetic spirit from the discursively speculative spirit, even as it demonstrates their deep affinities and mutual implications in the life of the imaginative intelligence.

**BOOK JACKET**

**Manner of Correspondence** Patricia Carr Brückmann, 1997. Examines a literary club whose members included Jonathan Swift and Alexander Pope and shows how members were bound by correspondent values, complementary talents, and a united satiric program. Traces their shared vision in works such as *Memoirs of Scriblerus* and *The Beggar's Opera*, identifies the pastoral as their common ideal, and highlights the Scriblerian influence on later writers such as John Barth and James Joyce.

***Metaphors of Mind in Fiction and Psychology*** Michael S. Kearns, 2021-10-21. Curiosity about the human mind, what it is, and how it functions began long before modern psychology. But because the mind and its processes are so elusive, they could be described only by means of metaphor. Michael Kearns, in this prize-winning study, examines the development of metaphors of the mind in psychological writings from Hobbes through William James and in fiction from Defoe through Henry James. Throughout the eighteenth century and even into the early nineteenth, metaphors of the mind as a relatively simple entity, either mechanical or biological, dominated both those engaged in psychological theorizing and novelists ranging from Richardson and Smollett through Dickens and the Brontës. In the nineteenth century, such psychologists as Herbert Spencer and Alexander Bain conceived of the mind as a complex organism quite different from that embodied in earlier thinking, but their figurative language did not keep pace. The result was a tension between theoretical expression and actual discussion of mental phenomena.

**Laurence Sterne** Manfred Pfister, 2001. Despite the immense popularity of Laurence Sterne's work during his lifetime, his contribution to the novel form and experimentalism has only been acknowledged since his death. His contemporaries Richardson and Goldsmith denounced his archaic methods and took offence at his playful irreverence, but his oddity is never accidental nor perverse; it is the strategy of an inventive, thoughtful comic talent. *Tristram Shandy*, perhaps his best-loved work, defies convention at every turn, distributing narrative content across a bafflingly idiosyncratic time scheme, interrupted by digressions, authorial comments, and interferences with the printed fabric of the book. This comically fragmented story line is a reaction against the linear narratives of Fielding and Richardson, aiming instead at a realistic impressionism, a shape

determined by the association of ideas This study critiques Sterne's work in the light of modern literary theory questioning whether he was an artist before his time **Comparative Criticism: Volume 10, Comedy, Irony, Parody** E. S.

Shaffer, 1989-11-09 Volume 10 dedicated to Comedy Irony Parody celebrates the first decade of Comparative Criticism in a light hearted vein Michael Silk opens with a wide ranging essay asserting the primacy of comedy and declaring its independence of tragedy T L S Sprigge explores philosophers who dared to write on laughter Schopenhauer and Bergson Bernard Harrison looks at the twentieth century's favourite comic novel Tristram Shandy in the light of Locke's views on the particular Peter Brand pursues the theatrical arts of disguises masking and gender swapping through Renaissance Europe from Ariosto to Shakespeare Jane H M Taylor traces the danse macabre in modern black humour Christine Brooke Rose distinguished novelist and critic reads from and comments on her own witty fictions Michael Wood describes how Lolita outwitted her seducer **Laurence Sterne and the Eighteenth-Century Book** Helen Williams, 2021-04-01 Scrutinising

Sterne's fiction through a book history lens Helen Williams creates novel readings of his work based on meticulous examination of its material and bibliographical conditions Alongside multiple editions and manuscripts of Sterne's own letters and works a panorama of interdisciplinary sources are explored including dance manuals letter writing handbooks newspaper advertisements medical pamphlets and disposable packaging For the first time this wealth of previously overlooked material is critically analysed in relation to the design history of Tristram Shandy conceptualising the eighteenth century novel as an artefact that developed in close conjunction with other media In examining the complex interrelation between a period's literature and the print matter of everyday life this study sheds new light on Sterne and eighteenth century literature by re-defining the origins of his work and of the eighteenth century novel more broadly whilst introducing readers to diverse print cultural forms and their production histories **Creativity and the Imagination** Mark Amsler, 1987 Seming and being Glenn W Most History technical style and Chaucer's Treatise on the astrolabe George Ovitt Jr Creation and responsibility in science Leonard Isaacs History and geology as ways of studying the past Stephen Brush Science's fictions Stuart Peterfreund Creative problem solving in physics philosophy and painting Donald A Crosby and Ron G Williams

**Fictions of Desire** Stephen Snyder, 2000-05-01 Stephen Snyder examines Kafu's fiction in terms of narrative strategy placing him squarely within some of the most important currents of literary modernism at the nexus of Naturalism and the largely antithetical development of the modernist reflexive novel **The Phenomenology of Henry James** Paul B.

Armstrong, 2017-11-01 Armstrong suggests that James's perspective is essentially phenomenological that his understanding of the process of knowing the art of fiction and experience as a whole coincides in important ways with the ideas of the leading phenomenologists He examines the connections between phenomenology's theory of consciousness and existentialism's analyses of the lived world in relation to James's fascination with consciousness and what is commonly called his Originally published in 1983 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital

**Gothic Reflections** Peter Garrett, 2018-08-06 The Gothic has long been seen as offering a subversive challenge to the norms of realism Locating both Gothic and mainstream Victorian fiction in a larger literary and cultural field Peter K Garrett argues that the oppositions usually posed between them are actually at work within both He further shows how by offering alternative versions of its stories nineteenth century Gothic fiction repeatedly reflects on narrative force the power exerted by both writers and readers Beginning with Poe's theory and practice of the Gothic tale as an exercise or fantasy of authorial power Garrett then reads earlier eighteenth century and Romantic Gothic fiction for comparable reflexive implications Throughout he stresses the ways authors doubled both characters and narrative perspectives to raise issues of power and authority in the tension between central deviant figures and social norms Garrett then shows how the great nineteenth century monster stories Frankenstein Dr Jekyll and Mr Hyde and Dracula self consciously link the extremity and isolation of their deviant figures with the social groups they confront These narratives he argues move from a Romantic concern with individual creation and responsibility to a Victorian affirmation of social solidarity that also reveals its dependence on the binding force of exclusionary violence The final section of the book extends its investigation of Gothic reflections on narrative force into the more realistic social and psychological fiction of Dickens Eliot and James
