Clinical Reflexology Denise Tiran, Peter A. Mackereth, 2010-12-01 Clinical Reflexology takes the practitioner on a journey of examination critical review and debate prior to making recommendations for best practice in reflexology The phenomenal rise in interest by health professionals in Complementary and Alternative Medicine CAM and in particular touch therapies has led to a need for texts that relate and integrate theory and practice to health care settings Clinical Reflexology does this expanding and exploring concepts introduced in the first edition Many CAM books have been written for therapists working in private practice but many of these practitioners are also now working in healthcare settings This book allows both groups to facilitate the greater integration of clinical reflexology in clinical practice The book is divided into two sections The first deals with key themes including an up to date review of the research evidence and appropriate methodology safe and supported practice and integration issues All these themes are explored and discussed utilizing the available literature analysis of models and concepts and are related specifically to health care practice The second section focuses on the clinical application of reflexology and how it can be best adapted to the context The contributors are committed pioneers in their field with a track record of integrating reflexology within clinical settings Many are teachers coordinators of therapy services and supervisors ABOUT THE AUTHORS Dr Peter Mackereth is the Clinical Lead for Complementary Therapies and Smoking Cessation Services at The Christie NHS Foundation Trust Manchester He is a registered nurse and has worked in intensive care neurology and oncology Peter has an MA in Medical Ethics and has completed a PhD project examining reflexology vs relaxation training for people with Multiple Sclerosis An author and renowned speaker Peter has held academic post in number of universities most recently as Reader in Integrative Health at the University of Derby Denise Tiran a midwife lecturer and reflex zone therapist is an internationally acclaimed authority on complementary therapies in pregnancy and childbirth She is Director of Expectancy the leading provider of professional education on the safe use of complementary therapies in maternity care including a special pregnancy course for reflexologists Her latest book *Reflexology for Pregnancy and Childbirth* was published in January 2010 Reflexology: The Definitive Practitioner's Manual: Recommended by the International Therapy Examination Council for Students and Practitioners Beryl Crane, 2012-08-30 This reflexology text includes coverage of such topics as the art and practice of reflexology the physiological and energetic theories of reflexology the mapping of organs and body systems onto the foot hand reflexology taking case histories and patient care and running a successful practice *The Software Encyclopedia*, 1986 *Hand Reflexology for Practitioners* Nicola Hall, 2016-03-21 Definitive and in depth this book presents essential information for excellent hand reflexology practice Covering history and theory the anatomy of the hand detailed descriptions of each reflex area and techniques for practice this book will deepen understanding of hand reflexology and how it can be used to treat a wide range of conditions **Massage and Aromatherapy** Andrew Vickers, Caroline Stevensen, Steve Van Toller, 2013-11-11 This book aims to give health professionals

a balanced and independent overview of massage and aromatherapy I have written it because despite growing interest there is a dearth of professional literature on this subject This book aims to cover a number of topics which are under represented in existing publications These include scientific research in massage and aromatherapy the use of the therapies in medical settings the knowledge base of massage and aromatherapy professional and managerial issues safety Understanding of these subjects is essential for any reasoned evaluation of massage and aromatherapy Yet this book is probably the first to provide information suitable for this task At the current time of writing almost all books on massage and aromatherapy have been written with the lay public in mind The texts recommended to students and practitioners by the foremost schools and institutions are exactly the same as those available in health food shops as general introductions for prospective patients Not surprisingly such books generally fail to include in depth discussions of professional issues

Total Reflexology Martine Faure-Alderson, 2008-11-26 The first complete book of reflexology to incorporate acupuncture naturopathy homeopathy and the chakra system Remaps the entire foot to fine tune the pressure points Explains how to work with the emotional reactions that may be released when physical conditions are treated Full color detailed diagrams provide precise illustrations of pressure points In this groundbreaking work Dr Martine Faure Alderson takes reflexology to a new level by integrating acupuncture naturopathy homeopathy and other holistic healing modalities into the practice From her background as a physician she brings a scientific precision to using the foot as a map of the body and all of its systems She then uses her training in alternative therapies to integrate the mental and psychological issues that may accompany physical conditions providing the first complete holistic approach to using reflexology for physical emotional and mental health Total Reflexology presents each of the major body systems in turn from the digestive system to the human energetic system using 25 full color newly mapped foot diagrams that provide precise indications of pressure points and their correspondences to all areas of the body The author also includes her latest work using craniosacral therapy and the role of the cerebrospinal fluid in reflexology as well as how to integrate use of the chakra system She shows how finely tuned reflexology stimulates the body's self healing abilities making this an indispensable resource for the layman and professional alike

Total Reflexology of the Hand Martine Faure-Alderson, 2016-05-17 How to apply the precise treatment techniques of Total Reflexology which combines craniosacral therapy and foot reflexology to the hands Explains the special relationship between the hand and the brain making hand reflexology ideal for treatment of neurological mental and emotional disorders Details how to use the occipital zones of craniosacral therapy to pinpoint which zones and points on the hands to treat Includes full color detailed maps of the pressure points and zones of the hands One of the most defining physical characteristics of humanity the hands contain reflex zones and pressure points related to the systems and organs of the body just like the feet The reflex zones and points of the hands present the most effective means of treating psychological and neurological disorders due to their sophisticated relationship with the brain Applying her ground breaking combination of reflexology and craniosacral therapy

to the hands Dr Martine Faure Alderson explains how to use hand reflexology to treat the brain and each of the body's systems from the digestive system to the human energetic system. She provides precise full color mapped hand diagrams illustrating the exact placement of the points according to the bones of the hands the result of more than 40 years of research and clinical practice. She explains how to use the occipital zones of craniosacral therapy to pinpoint which zones and points on the hands to treat. Examining the psychological level of brain hand interactions the author reveals how neurological dysfunctions and mental disorders respond more readily to hand reflexology than to other forms of therapies. She explains how many physical ailments have a psychological component and how reflexology automatically triggers the release of endorphins by working directly on the autonomic nervous system. The author explores the role of nutritional supplements including Omega 3s as a support to reflexology therapy and shows how finely tuned reflexology stimulates the body's self healing abilities and cellular regeneration making this an indispensable resource for holistic health practitioners and for home self care.
