In Reforestation the Earth, Thomas K Rudel draws on historical research and case studies to examine the drivers of deforestation and proposes reforestation as an urgent natural solution to the climate crisis. The book advocates for socio-political corporatist processes and local participation to enable successful forest conservation and expansion, offering useful insights for environmentalists, policymakers and activists, writes Mohd Amin Khan.

Reforestation the Earth: The Human Drivers of Forest Conservation, Restoration, and Expansion, Thomas K Rudel, Columbia University Press, 2023.

The global climate crisis poses a serious threat to the earth's ecosystem – its biodiversity, forests, soil fertility, water quality, and atmospheric carbon concentration. The impact on nature in turn has adverse effects on the socio-economic, cultural wellbeing and health of people across the globe, with a markedly unequal distribution of these negative effects on nations and communities. In his latest book, Thomas K Rudel emphasises the need for reforestation as a natural solution to the problems of climate change.

Reforestation the Earth aims to investigate the drivers of forest destruction and the factors influencing reforestation and the expansion of forests. It seeks to comprehend the role of human activity, including socio-political corporatist processes – policies based on the inclusive decision-making and governance of an organisation relating to other stakeholders like politicians, activists, donors, farmers, foresters, indigenous groups, and landowners – in reforestation by applying an integrated, case studies-based global data analysis. The ambition is to contribute to global climate crisis alleviation through natural solutions. The book unfolds over nine chapters, four of which discuss the historical background, concepts, theories, and analysis and the other five of which cover 19 cases studies of forest gain or loss worldwide.

The author begins with historical perspectives on the current political system: the actions and events that have precipitated the climate crisis. He then considers what would be the best approach to mitigate the adverse impacts of the crisis. He grounds his argument by elucidating the ways of living of traditional societies that evinced a respectful rather than an

Michael Marien, Lane Jennings, 1990-01-01 BMW Z cars have carved a huge reputation for themselves in a very short time From the revolutionary and innovative Z1 of the late 1980s to the beautiful and exclusive Z8 of more recent times via the popular Z3 and its controversial replacement the Z4 the family has made BMW's name in the increasingly competitive sports car market **Jesus the Wisdom of God** Denis Edwards, 2005-01-12 *Jesus the Wisdom of God* brings together insights from wisdom literature and contemporary creation thought in a work that brilliantly illuminates an integrated ecological theology Adding new depth to the ethical demands of our global ecological situation Denis Edwards argues that commitment to ecological praxis springs from the very center of Christian identity in Jesus Trinity and humanity Beginning with the wisdom tradition of the Hebrew scriptures *Jesus the Wisdom of God* explores what it means to recover the notion that Sophia Wisdom became incarnate in Jesus of Nazareth and shows how the universe is altered by this Incarnation Wisdom Christology then

opens out into a view of the trinitarian God at work in ongoing creation Edwards considers the implications of the trinitarian theology of Richard of St Victor and St Bonaventure centering on the insight that every creature including humankind is the free self expression of the trinitarian God In this context humanity is revealed as integrally related to all of creation a part of a single cosmic story While at one with creation in evolutionary history humanity is at the same time creation come to self awareness This train of insights leads to principles for an ecological praxis that affirms human value while insisting that humanity is a part of nature The whole reinforces commitment to sustainability and a Franciscan attitude of reverence toward God s creation Jesus the Wisdom of God in a disciplined yet clear way crafts an alternative to the anthropocentrism and alienation of much of Christian tradition by finding in the very roots of Christian mysticism and Christian identity a truly ecological theology for our time It is profound reading for students theologians and all Christians concerned with ecology and with the interface of science and theology Proceedings and Debates of the Constitutional Convention of the State of Ohio
