Reformed Faith And Economics:

Reformed Faith and Economics Robert L. Stivers, 1989 Churches in the Reformed tradition have historically sought to bring the gospel of Jesus Christ into dialogue with social institutions on ethical issues These papers on economic justice seek to bring this dialogue into the late 20th century by relating the Bible and Reformed theology to contemporary problems These thirteen essays share a distinctly Reformed Presbyterian perspective and stress the contributions of John Calvin and a long line of Reformed witnesses on contemporary issues Sections include Introduction Reformed Faith and Economic Justice Part I Biblical Perspectives Part II The Reformed Tradition on Economic Justice Part III Contemporary Policy Issues Part IV Church Responses Co published with the Presbyterian Church USA

Economic Shalom John Bolt, 2013-11-01 This Reformed Christian primer on work and faith champions the glory of God in all of life's endeavors by tracing four key themes of economics in Christian confession and commitment and examining markers for human flourishing in the real world of economics commerce and markets With scholarly passion and pastoral wisdom tempered by the insight of economists John Bolt presents a winsome case for how God uses the market economy to meet human needs Written to raise questions and invite further discussion Bolt offers a robust Reformed perspective on stewardship property capital and morality From this he explores a variety of issues including the human need for liberty the challenge of consumerism concerns about fairness and justice and evangelicalism's mixed history in applying Christian compassion in politics and economics What stands in the way of the human quest for improvement How does the reality of sin affect the degree to which we can achieve economic shalom today And despite every good intention how do we avoid the horrific track record of failed utopias that have spilled oceans of blood and created mountains of misery Read learn and respond as Bolt leads a rousing Reformed discussion of faith work and economics

Religious Ethics in the Market Economy Karl G. Jechoutek, 2018-04-03 This book aims to go beyond merely confrontational or complementary treatments of the relationship between market participation and business ethics Reviewing the attitudes towards the market embedded in religious ethics and scholars it explores the symbiotic relationship between the economy ethics and morals Moving the discussion beyond a static and traditional economy envisaged by scripture it explores the impact of an evolving and globalised economy based on the value systems of moral philosophy and religious ethics The Author aims to expand the conventional view of business ethics encouraging readers to interpret markets and morality as intertwined concepts and use them to inform further research

The Market Economy and Christian Ethics Peter H. Sedgwick, 1999-10-07 Peter

Sedgwick explores the relation of a theology of justice to that of human identity in the context of the market economy and engages with critics of capitalism and the market. He examines three aspects of the market economy: first, how does it shape personal identity through consumption and the experience of paid employment in relation to the work ethic? Second, what impact does the global economy have on local cultures? Finally, as manufacturing changes out of all recognition through the impact of technology and global competition, what is the effect in terms of poverty? Drawing on the response of the Catholic Church both in the United States and in papal encyclicals to the market economy from 1985-1991, Sedgwick argues that its involvement deserves to be better known. Moreover, he recommends that the Churches remain part of the debate in reforming and humanizing the market economy.

Crossroad Discourses between Christianity and Culture, 2010-01-01

Christianity exists in relation to and interacts with its cultural environment in a number of ways. In this volume, authors from a wide variety of backgrounds explore various facets of the relationship and interaction of Christianity with its cultural environment: politics, society, esthetics, religion, and spirituality, and with itself. Divided into three main sections, *Crossroad Discourses between Christianity and Culture* looks at the interaction of Christianity with culture in the first section, with other religions and spiritualities in the second, and finally with itself in the third. The contributions engage in a critical examination of not only the culture in which Christianity finds itself but also in a critical examination of Christianity itself and its interaction with that culture. The editors hope that teachers, students, and readers in general will profit greatly from the critical articles contained in this book.
