Reforming Agricultural Commodity Policy:

Reforming Agricultural Commodity Policy Brian Wright, Bruce L. Gardner, 1995 This two part study investigates potential reforms of commodity programs in the context of the legislative debate on the 1995 farm bill Brian D Wright considers a farm bill written on a clean slate unconstrained by previous policy Such legislation would depart radically from the current policy structure Bruce L Gardner analyzes a set of options that make a noticeable difference for the main commodities yet are reachable from current policy and have visible political support If followed Gardner s proposals would move agriculture along the path laid out by Wright

Agricultural Policy Monitoring and Evaluation 2022 Reforming Agricultural Policies for Climate Change Mitigation OECD, 2022-06-23 This annual report monitors and evaluates agricultural policies in 54 countries including the 38 OECD countries the five non OECD EU Member States and 11 emerging economies It finds that the continued rise in agricultural support has been slower than sector growth in recent years but has been driven to record highs mainly by temporary factors

Reforming Agricultural Trade for Developing Countries John Nash, Alex F. McCalla, 2006-11-09 In the ongoing Doha Development Round of World Trade Organization negotiations developing countries have had much greater leverage due at least in part to their large and growing share of world trade But will the increased influence of developing countries translate into a final agreement that is truly more development friendly What would be key ingredients in such a final outcome of the negotiations and what would the developing countries really get out of it This two volume set seeks to answer these questions This volume Volume 1 is issues oriented It takes up some key questions in the negotiations setting the stage with a historical overview of the Doha Development Agenda to help identify issues of most significance to developing countries and then explores select issues in greater depth Volume 2 addresses the question of how a development friendly outcome to the talks would affect developing countries by quantifying the impact of multilateral trade reform It presents several different approaches to modeling the effects of the outcome of negotiations and then investigates why these and other modeling efforts produce such divergent results Aimed at policymakers and stakeholders this two volume effort puts into the public domain important analytical work that will improve the chance for a pro development outcomes of the Doha round negotiations

Reforming Agricultural Trade for Developing Countries Alex F. McCalla, John D. and then investigates why these and other modeling efforts produce such divergent results Volume 1 is issues oriented It takes up some key questions in the negotiations setting the stage with a historical overview of the Doha Development Agenda to help identify issues of most significance to developing countries and then explores select issues in greater depth Aimed at policymakers and stakeholders this two volume effort puts into the public domain important analytical work that will improve the chance for a pro development outcomes of the Doha round negotiations The Environmental Effects of Reforming Agricultural Policies OECD,1998-02-24 Through examining concrete policy experiences from OECD countries this study concludes that agricultural policy reforms can improve the environment provided they are accompanied by appropriate environmental measures **Evolving Agricultural Policies and Markets Implications for Multilateral Trade Reform** OECD,2016-10-19 This report focuses on the significant developments in world agricultural markets and in the policies of major agricultural producing regions since the latest round of WTO negotiations began in 2001 The Economics of Crop Insurance and Disaster Aid Barry K. Goodwin,Vincent H. Smith,1995 This study is the first to provide a comprehensive and in depth economic analysis of the origins and consequences of U S crop insurance and disaster relief programs The authors investigate the policy options for disaster assistance and crop insurance beginning with the recognition that current policies are unsatisfactory Assessing the Environmental Impact of Farm Policies Walter Nebeker Thurman,1995 This book is a study of the ways in which U S agriculture policies contribute to or help to ameliorate the adverse effects of farming on the environment **Agricultural Policies in OECD Countries 1998 Volume I - Monitoring and Evaluation; Volume II - Measurement of Support and Background Information** OECD,1998-07-17 This two volume set provides a description and evaluation of overall agricultural policy developments in OECD countries as well as detailed background tables which include data from 1986 88 to 1997 and information on policy developments 2015 -16 The State of Agricultural Commodity Markets Food and Agriculture Organization of the United Nations,2018-04-18 Global trade in agricultural and food products has grown rapidly in recent decades with countries becoming more engaged in this trade whether as exporters or importers This trend is expected to continue over the coming decades As a consequence trade will play an increasingly important role in influencing the extent and nature of food security across all regions of the globe The challenge has therefore become one of ensuring that the expansion of agricultural trade works for and not against the elimination of hunger food insecurity and malnutrition This edition of The State of Agricultural Commodity Markets aims to reduce the current polarization of views on the impacts of agricultural trade on food security and on the manner in which agricultural trade should be governed to ensure that increased trade openness is beneficial to all countries By providing evidence and clarity on a range of topics the report seeks to contribute to a more informed debate on policy choices and to identify required improvements in the policy processes within which these choices are made
