Reforming Medicine Lessons From The Last Quarter Century:

Reforming Medicine Victor W. Sidel, Ruth Sidel, 1984 *Activities with Developmentally Disabled Elderly and Older Adults* M. Jean Keller, 1991 Learn how to effectively plan and deliver activities for the growing number of older people with developmental disabilities *Activities With Developmentally Disabled Elderly and Older Adults* is an innovative new book that aims to stimulate interest and continued support for recreation program development and implementation among developmental disability and aging service systems Particularly useful for human service professionals working in the areas of developmental disabilities and aging this practical volume will also be of interest to researchers educators and students interested in recreation services with older adults who are developmentally disabled The older adult population with developmental disabilities DD continues to grow rapidly yet little is known about their needs and interests In this book a wide variety of authors share innovative and creative strategies for programming activities with older adults with DD They focus on diverse issues services and programs from researchers educators and practitioners represented varied disciplines Each chapter demonstrates the diversity that makes serving a growing number of older individuals with DD both challenging and rewarding Among the wealth of information you will find in *Activities With Developmentally Disabled Elderly and Older Adults* are discussions on the characteristics of this population and challenge activity professionals to seek innovative program strategies to appropriately serve individuals with DD companionship friendship physical functioning and retirement adjustment issues that confront older adults who have lived with lifelong disabling conditions how a continuum of recreational activities is needed to provide meaningful experiences to elders with developmental disabilities how to design therapeutic recreation programs survey instruments that can be used to gain information about the needs of elderly persons with DD how to find specific programs and services that are age appropriate and foster creative expression and positive self esteem a rationale for the development of integrated recreation programs *Intimate Adversaries* Alexandra Dundas Todd, 2016-11-11 Effective communication between doctors and patients is essential to good health care yet patients increasingly complain of impersonal overly technical medical treatment Physicians on the other hand report that their patients have unrealistic expectations and ignore recommendations Problems in doctor patient communication increase when the patient is a woman Social values and attitudes toward reproduction women's bodies and femininity are powerful if subtle influences on health care delivery For over two years Alexandra Dundas Todd audiotaped and observed communications between gynecologists and observed communications between gynecologists and women patients in a private practitioner's office and in a community clinic *Intimate Adversaries* provides a close up view of what takes place in medical interactions centered on reproductive care Todd is especially sensitive to the difficulties caused by the different perspectives of doctor and patient Whereas doctors usually concentrate on a biomedical approach patients view their biological concerns as embedded in broader contextual experiences Women tell stories about their health and reproduction to communicate these

comprehensive concerns When the stories are ignored the women are at risk of receiving inadequate medical care Writers in political economy and feminist theory have contributed in depth studies of society and medicine Less has been said about the relation ship among the epistemological roots of science the development of the medical model the treatment of women patients and influences on diagnostic decision making It is the relationship of a scientific world view to modern medicine and to women as well as analyses of specific interactions that are the core of this book **The Good Doctors** John

Dittmer,2017-01-31 In the summer of 1964 medical professionals mostly white and northern organized the Medical Committee for Human Rights MCHR to provide care and support for civil rights activists organizing black voters in Mississippi They left their lives and lucrative private practices to march beside and tend the wounds of demonstrators from Freedom Summer the March on Selma and the Chicago Democratic Convention of 1968 Galvanized and sometimes radicalized by their firsthand view of disenfranchised communities the MCHR soon expanded its mission to encompass a range of causes from poverty to the war in Vietnam They later took on the whole of the United States healthcare system MCHR doctors soon realized fighting segregation would mean not just caring for white volunteers but also exposing and correcting shocking inequalities in segregated health care They pioneered community health plans and brought medical care to underserved or unserved areas Though education was the most famous battleground for integration the appalling injustice of segregated health care levelled equally devastating consequences Award winning historian John Dittmer author of the classic civil rights history *Local People* The Struggle for Civil Rights in Mississippi has written an insightful and moving account of a group of idealists who put their careers in the service of the motto Health Care Is a Human Right **An**

American Health Dilemma: Race, medicine, and health care in the United States 1900-2000 W. Michael Byrd,Linda A. Clayton,2000 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play s various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality

Communities of Health Care Justice Charlene Galarneau,2016-11-03 The factions debating health care reform in the United States have gravitated toward one of two positions that just health care is an individual responsibility or that it must be regarded as a national concern Both arguments overlook a third possibility that justice in health care is multilayered and requires the participation of multiple and diverse communities *Communities of Health Care Justice* makes a powerful ethical argument for treating communities as critical moral actors that play key roles in defining and upholding just health policy Drawing together the key community dimensions of health care and demonstrating their neglect in most prominent theories of health care justice Charlene Galarneau postulates the ethical norms of community justice In the process she proposes that while the subnational communities of health care justice are defined by shared place including those bound by culture

religion gender and race that together they define justice As she constructs her innovative theorization of health care justice Galarneau also reveals its firm grounding in the work of real world health policy and community advocates Communities of Health Care Justice not only strives to imagine a new framework of just health care but also to show how elements of this framework exist in current health policy and to outline the systemic conceptual and structural changes required to put these justice norms into fuller practice

Gender Justice and the Health Care System Karen L. Baird, 2019-01-22 This book focuses on gender justice and the health care system It will be divided into two parts In Part One a framework of gender justice will be developed What is gender justice What would a gender just public policy look like What criteria should such policies meet In Part Two the framework will be applied to the area of health care policy specifically medical research and health care financing and delivery An analysis of past policies will be made as well as an analysis of the recently enacted and proposed changes First published in 1998 Routledge is an imprint of Taylor Francis an informa company

Making Gray Gold Timothy Diamond, 2009-06-12 This first hand report on the work of nurses and other caregivers in a nursing home is set powerfully in the context of wider political economic and cultural forces that shape and constrain the quality of care for America s elderly Diamond demonstrates in a compelling way the price that business as usual policies extract from the elderly as well as those whose work it is to care for them In a society in which some two million people live in 16 000 nursing homes with their numbers escalating daily this thought provoking work demands immediate and widespread attention An unnerving portrait of what it s like to work and live in a nursing home By giving voice to so many unheard residents and workers Diamond has performed an important service for us all Diane Cole New York Newsday With Making Gray Gold Timothy Diamond describes the commodification of long term care in the most vivid representation in a decade of round the clock institutional life A personal addition to the troublingly impersonal national debate over healthcare reform Madonna Harrington Meyer Contemporary Sociology

Community Health Centers Bonnie Lefkowitz, 2007 This book tells the story of one groundbreaking approach to medicine that attacks the problem by focusing on the wellness of whole neighborhoods Since their creation during the 1960s community health centers have served the needs of the poor in the tenements of New York the colonials of Texas the working class neighborhoods of Boston and the dirt farms of the South As products of the civil rights movement the early centers provided not only primary and preventive care but also social and environmental services economic development and empowerment

Social Functions and Economic Aspects of Health Insurance William A. Rushing, 2012-12-06 Statistics published by the U S Department of Commerce 1980 indicate that in 1977 we spent 8 1% of our gross national product GNP on life health property casualty and other forms of insurance An additional 5 7% was used to pay the Social Security tax which is another form of insurance premium for a total of 14 8% of the GNP Although insurance had its historical origin in marine insurance it has now developed into one of the major industries of the American economy and extends into many areas of economic activity One area where growth has been

particularly strong is the medical sector Health insurance is a major institution in all industrialized countries It became a government responsibility in 1883 when Bismarck introduced a compulsory program of health insurance for industrial workers in Germany Programs for workers in various industrial and income categories soon followed in other European countries Austria 1888 Hungary 1891 Norway 1909 Serbia 1910 Great Britain 1911 and Russia and Romania 1912 Rubinow 1913 250 Programs in these countries were extended in subsequent years and other countries in Europe followed with their own programs Consequently today most industrial countries have universal or near universal health insurance coverage In the United States the issue of national health insurance has been seriously debated since just prior to World War I and polling data since the 1930s show that a substantial majority of the public has been supportive of such a program Erskine 1975
