

# Reforming From The Top

**United States. Patent Office**

## **Reforming From The Top:**

*Personnel Clearances: Key Factors for Reforming the Security Clearance Process* Brenda S. Farrell, 2008-10 Efforts to reform personnel security clearance processes should consider among other things the following four key factors 1 a strong requirements determination process 2 quality in all clearance processes 3 metrics to provide a fuller picture of clearance processes and 4 long term funding requirements of security clearance reform In February 2008 GAO noted that a sound requirements process is important because requesting a clearance for a position in which it will not be needed or in which a lower level clearance would be sufficient will increase both costs and investigative workload unnecessarily For example the cost of obtaining and maintaining a top secret clearance for 10 years is approximately 30 times greater than the cost of obtaining and maintaining a secret clearance for the same period Also changing a position s clearance level from secret to top secret increases the investigative workload for that position about 20 fold

**Reforming China** Dongtao Zhou, 2010-09-01 Enrich Series on China s Economic Reform illustrates China s Reform Experiences from an executive perspective This book reviews the background to and achievements of China s economic reforms It analyzes the reforms processes from the perspective of priv

**Reforming the European Commission** Michael W. Bauer, 2013-10-18 Many international and supranational organisations have lately been busy modernising their internal administration But nowhere has management change received a similar amount of attention than in the case of the European Commission Although the perception prevails that the Commission has been losing out in recent years this vivid interest academic as well as public in the so called Kinnock reform suggests that this organisation still remains at the heart of the Union The proposition of this book thus is simple If it remains true that the Commission is an essential part within the admittedly complex equation of EU policy making changes of the administration basis of this actor are likely to have broader implications Consequently this special issue poses three crucial questions about the recent administrative reform of the European Commission why was such a comprehensive reform possible what are its specific implications for the Commission as an organisation and what is the likely impact for the policy process In short this book puts the organisational base of EU policy making centre stage In the quest for answers the authors of the subsequent chapters take distinct perspectives use various research strategies and methods and attempt to solve diverse empirical puzzles But all attempt to add to our understanding of this organisational base and how to systematically study it This book was published as a special issue of the Journal of European Public Policy

**Reforming the European Commission** E. Schön-Quinlivan, 2011-03-08 Analyses the impact of the managerial reforms of the European Commission In 1999 the resignation of the College of Commissioners triggered the implementation of a White Paper which listed 98 measures to overhaul the way the Commission did business Ten years later what impact have the reforms had on the European Commission and European governance

Hydrogen Assisted Direct Reduction of Iron Oxides Pasquale Cavaliere, 2022-04-21 The book describes the main approaches to produce and synthesize iron and steel

through hydrogen based technologies Depending on the processing route and on the energy demand the best available techniques and the most forward looking solutions are explained The book is edited with the contribution representing a range of industries in order to evaluate the industrial feasibility of each selected technology It presents the most efficient solutions applied by ironmaking and steelmaking factories all around the world      **Basic Concepts of Iron and Steel**

**Making** Sujay Kumar Dutta, Yakshil B. Chokshi, 2020-03-02 This book presents the fundamentals of iron and steel making including the physical chemistry thermodynamics and key concepts while also discussing associated problems and solutions It guides the reader through the production process from start to finish covers the raw materials and addresses the types of processes and reactions involved in both conventional and alternative methods Though primarily intended as a textbook for students of metallurgical engineering the book will also prove a useful reference for professionals and researchers working in this area      **Alternate Methods of Ironmaking**
