Refugees And Gender

Anastasia Christou, Eleonore Kofman

Refugees And Gender:

Refugees and Gender Heaven Crawley, 2001 *Refugees and Gender Law and Process* examines how those representing asylum seekers can ensure that all gender related aspects of an asylum claim are considered and appropriately reflected in the determination process. The book aims to provide a comprehensive understanding of the concepts of gender related persecution as well as a gendered framework for the interpretation of the key elements of the 1951 Refugee Convention. Detailed information is provided on the implications of gender in asylum law policy and practice in the UK with comparative case law and materials from other countries including Canada, US and Australia. *Refugees and Gender Law and Process* provides a theoretical overview, an outline of case law and a practical resource which is intended to improve standards of representation and decision making and to increase awareness of the gendered experiences of refugees facing persecution.

Gender in Refugee Law Efrat Arbel, Catherine Dauvergne, Jenni Millbank, 2014-04-16 Questions of gender have strongly influenced the development of international refugee law over the last few decades. This volume assesses the progress toward appropriate recognition of gender related persecution in refugee law. It documents the advances made following intense advocacy around the world in the 1990s and evaluates the extent to which gender has been successfully integrated into refugee law. Evaluating the research and advocacy agendas for gender in refugee law ten years beyond the 2002 UNHCR Gender Guidelines, the book investigates the current status of gender in refugee law. It examines gender related persecution claims of both women and men including those based on sexual orientation and gender identity and explores how the development of an anti-refugee agenda in many Western states exponentially increases vulnerability for refugees making gendered claims. The volume includes contributions from scholars and members of the advocacy community that allow the book to examine conceptual and doctrinal themes arising at the intersection of gender and refugee law and specific case studies across major Western refugee receiving nations. The book will be of great interest and value to researchers and students of asylum and immigration law, international politics and gender studies. *Refugee Women* Leah

Bassel, 2012-05-31 Debates over the headscarf and niqab, so-called sharia tribunals, Female Genital Operations and forced marriages have raged in Europe and North America in recent years, raising the question: does accommodating Islam violate women's rights? The book takes issue with the terms of this debate. It contrasts debates in France over the headscarf and in Canada over religious arbitration with the lived experience of a specific group of Muslim women: Somali refugee women. The challenges these women eloquently describe first-hand demonstrate that the fray over accommodating culture and religion neglects other needs and engenders a democratic deficit. In *Refugee Women: Beyond Gender versus Culture*, new theoretical perspectives recast both the story told and who tells the tale. By focusing on the politics underlying how these debates are framed and the experiences of women at the heart of these controversies, women are considered first and foremost as democratic agents rather than actors in the culture versus gender script. Crucially, the institutions and processes created to

address women's needs are critically assessed from this perspective. Breaking from scholarship that focuses on whether the accommodation of culture and religion harms women, Bassel argues that this debate ignores the realities of the women at its heart. In these debates, Muslim women are constructed as silent victims. Bassel pleads compellingly for a consideration of women in all their complexity as active participants in democratic life. The book will appeal to students and scholars throughout the social sciences, particularly of sociology, political science, and women's studies.

Gender, Violence, Refugees
 Susanne Buckley-Zistel, Ulrike Krause, 2017-08-01
 Providing nuanced accounts of how the social identities of men and women in the context of displacement and the experience or manifestation of violence interact, this collection offers conceptual analyses and in-depth case studies to illustrate how gender relations are affected by displacement, encampment, and return. The essays show how these factors lead to various forms of direct, indirect, and structural violence. This ranges from discussions of norms reflected in policy documents and practise the relationship between relief structures and living conditions in camps to forced military recruitment and forced return, and covers countries in Africa, Asia, and Europe.

Gender and Refugee Status
 Thomas Spijkerboer, 2017-03-02
 This is the first comprehensive socio-legal study of the interrelation between gender and the law of refugee status. In the past decade, the issue has received increasing attention in academic writing, the media, and the courtroom. This book contains an interdisciplinary analysis. The empirical data collected for this study and not published previously concerns Dutch asylum practice. The Netherlands is a prominent refugee-receiving country in Europe, yet hardly any English texts address Dutch refugee law. The book also covers foreign case law and academic writing. Therefore, the analysis is relevant for all refugee-receiving countries in the Western world. The empirical data on The Netherlands functions as a case study. The book combines perspectives of post-structuralist feminism and post-colonial studies. Refugee women are constructed as a double other. This intersectionality is related to the construction of the Third World as feminine, passive, in need of active outside intervention, etc. etc. The book provides a comprehensive overview of academic writing and of case law on the subject. On this basis of theoretical perspectives that were almost ignored until now, it develops an innovative critique of refugee law discourse and outlines its possible consequences for legal doctrine.

Only Rape! Human Rights and Gender Equality for Refugee Women
 Eileen Pittaway, Linda Albina Bartolomei, 2022-11-29
 This book charts the roller coaster ride taken by the authors over the past 33 years in the ongoing fight to acknowledge, prevent, and respond to the rape and sexual abuse of women in conflict and displacement situations. They have worked with an international network of academics, refugee women, and human rights activists in 22 countries. The story moves between refugee camps and the United Nations, refugee settlements in cities, and national governments. Theory and ethical research methods are an important part of the story. At times it is very confronting, sometimes amusing, and often uplifting.

The Ideal Refugees Elena Fiddian-Qasmiyeh, 2014-02-11 Refugee camps are typically perceived as militarized and patriarchal spaces and yet the Sahrawi refugee camps and their inhabitants have consistently been represented as ideal in nature uniquely secular and democratic spaces and characterized by gender equality Drawing on extensive research with and about Sahrawi refugees in Algeria Cuba Spain South Africa and Syria Fiddian Qasmiyeh explores how why and to what effect such idealized depictions have been projected onto the international arena

Gender and Sexuality in the Migration Trajectories Emiliana Mangone, Giuseppe Masullo, Mar Gallego, 2017-12-01 The concept of gender has recently become one of the symbols of what many consider a clash of civilizations between the West and Muslim countries Recent events highlight how gender issues are emblematic of the basic traits of a country's culture and thus constitute some of the elements allowing for the construction of dividing lines between cultures arbitrarily distinguishing between the evolved and backward ones therefore with the aim to establish demarcation lines between Us and the Others The existential condition of migration leads to formation of multiple and diasporic identities de-territorialized and reassembled at the individual level In this scenario the integration of migrants is the result of a two way process in which rely significantly the social representations that migrants are being built on the population and of the host society before and after the arrival and intangible resources cognitive and relational experienced by migrants Gender studies usually employing a constructionist perspective have seldom dealt with the issue of migration by analysing the experiences of the migrants themselves The few studies have highlighted how migrants gender and sexuality

underline the persistence of a model of domination and alteration typical of the colonial era emphasizing the social identity allocation mechanisms used by Western societies that follow essentialist visions of migrants ethnic and sexual identity that is of a social status considered as inferior and undesirable There are several theoretical and methodological challenges calling for a perspective that takes into account the interconnection between gender sexuality and migration Studies on sexuality have now taken two roads often strongly polarized and non communicating between them on the one hand also because of the spread of sexually transmitted diseases appeared a new generation of surveys on sexual behaviour of Western and others populations and on the changes in sexual behaviour along the main socio economic and cultural fractures On the other a research trend on sexuality New Sexuality Studies has developed with mixed purposes both analytical and critical emancipatory ones This branch which focuses almost exclusively on the study of minority sexual subcultures portrayed sexuality mostly through the lens of power and regarded with suspicion any attempt to develop a systematic and methodologically documented analysis of sexuality The book will have repercussions on the progress of knowledge from a macro dimension represented by the growth and the transformation of migration flows across the Mediterranean to Europe to meso dimension of social representations of gender and sexuality that the migrant builds himself and the population of the host society finally the micro dimension through the analysis of case studies From these problems the book aims to initiate a transdisciplinary reflection on such issues and sexuality in part by reducing the clear vacuum in scientific research taking shape as an experimental laboratory of new research perspectives because we recognize critically how the methods of the social sciences do not simply reproduce the phenomena under study but also contribute a greater or lesser degree to their construction And at the same time making an issue of sex sexuality and the multiple identifications of gender of and in migration involving migratory experiences both on the side of leaving a country and on that of arriving to another

Handbook on Gender in Asia Shirlena Huang, Kanchana N. Ruwanpura, 2020-07-31 The Handbook on Gender in Asia critically examines through a gender perspective five broad themes of significance to Asia the Theory and Practice of researching in Asia Gender Ageing and Health Gender and Labour Gendered Migrations and Mobilities and Gender at the Margins With each chapter providing an overview of the key intellectual developments on the issue under discussion as well as empirical examples to examine how the Asian case sheds light on these debates this collection will be an invaluable reference for scholars of gender and Asia

Refugees, Democracy and the Law Dana Schmalz, 2020-09-08 The book provides an in depth discussion of democratic theory questions in relation to refugee law The work introduces readers to the evolution of refugee law and its core issues today as well as central lines in the debate about democracy and migration Bringing together these fields the book links theoretical considerations and legal analysis Based on its specific understanding of the refugee concept it offers a reconstruction of refugee law as constantly confronted with the question of how to secure rights to those who have no voice in the democratic process In this reconstruction the book highlights on the one hand the

need to look beyond the legal regulations for understanding the challenges and gaps in refugee protection. It is also the structural lack of political voice the book argues which shapes the refugee's situation. On the other hand, the book opposes a view of law as mere expression of power and points out the dynamics within the law which reflect endeavors towards mitigating exclusion. The book will be essential reading for academics and researchers working in the areas of migration and refugee law, legal theory and political theory.
